CALLS CONGRESS TO BRING PEACE

Palma Wearies of Efforts to Bring the Insurgents to Terms.

FIGHTING IN PINAR DEL RIO

Armored Train Advances Against Guerrera, and Is Held Up-Battle With Machine Gun Battalion Is in Progress.

HAVANA, Sept. 8.—President Palma tonight issued a call for a special ses-sion of Congress, to convene September 14 and consider the disturbed condition of the country and devise measures for ending the situation. The President is weary of the complications and is anxious weary of the complications and is analous to divide the responsibility with Congress. Speaker Freyre Andrade and Carlos Zaldo, ex-Secretary of State, strongly op-posed the extra session, but President Palma and the Cabinet Insisted.

Armored Train Held Up.

The principal features in the revolt today were attempts by the Western Railway to get trains toward Pinar del Rio and the advance of an armored train with machine guns and recruits to the with machine guns and recruits to the country now occupied by the insurgents. Wire communication, both by railroad and government lines, was cut rapidly further east tonight, and neither the railroad nor the government is able to communicate beyond Paso Real, two miles east of Pinar del Rio City. The armored train, which returned to Palacios Friday night, started west from Paso Real. Between La Herradura and Consolacion del Sur it ancountered revolutionists, but the result of the engagement is not known. result of the engagement is not known. It is thought, however, that the troop train got through to the vicinity of Puerta Golthe, where the railroad bridges

were blown up this morning.

Four hundred more reinforcements left
Havana to co-operate with the machinegun corps in an endeavor to reach Colonel Avalos at Pinar del Rio, and another machine-gun battery started for Santa Clara in an armored train, which is taken to indicate that the government does not over-seriously regard the "unofficial" armistice. The government considers that the use of the word armistice would mean recognition of belligerency.

Predictions of Peace Party.

The veterans who are searching for a peaceful settlement profess that the San-ta Clara and Havana insurrectionists are ready to quit and turn against Guerrera if he does not show a similar tendency. But Guerrera's conduct, and especially the attitude of the Liberals in Havana, who supposedly are members and ad-visers of the revolutionary junta, preclude the probability that peace is at

A permanent veteran's peace committee was constituted today. It includes Generals Menocal, Nodarse, Cebreco, Re-cio, Argramonte, Molinet and Padro and Colonel Lazo.

May Tie Up Cigar Factories.

The cigar and cigarette manufacturers and their 25,000 men and women employed in Havana are awakening to an apprecia-tion of the consequences of there being no tobacco crop in Pinar del Rio. The number of persons more or less directly employed in the Havana factories, with their dependents, is estimated to approach 100,000. The factories use only Pinar del Rio and Havana tobacco. The Havana factories must, unless the insurrection ends soon, suspend work next Summer for a year or more, or until the crop planted a year hence is available. It is claimed that the best tobacco regions never before were so tied up by an insur-

Battle With Machine Guns.

The Associated Press correspondent at Paso Real telegraphs that countrymen re-port that there were three hours' fighting this evening by machine gun batteries and insurgents, between Herradura and Consolacion del Sur and also between Colonel Avalos' force, which came on from Pinar del Rio, and insurgents near Consolacion del Sur. They assert that Colonel Avalos camped Fifday night at Puerta Golpe and moved eastward today. The statements of the countrymen, however, have not been authenticated.

UNCLE SAM KEEPING WATCH

Fear Grows That Intervention Alone Can Restore Peace.

WASHINGTON, Sept. 8.-(Special)-The Department of State is keeping in close touch with conditions in Cuba. The feeling grows that the time when there must be intervention is not far distant. If the insurgents make any headway in their movement upon Havana or manifest any disposition to interfere with the vast American interests in the island, Uncle Sam will take a hand. Officials decline to discuss the subject.

The Government will act promptly in preventing fillbustering expeditions, but it does not want to send forces into Cuba until that government has plainly demon-strated to the world that it is unable to cope with conditions and properly protect foreign interests.

WAR MUNITIONS FOR CUBA

Steamer Leaves New York With Arms for Palma's Troops.

NEW YORK, Sept. 8.—The Cuban government steamer Maria Herrera, which has been loading arms and ammunition at the foot of Forty-second street, South Brooklyn, this week, salled this evening, supposedly for Havana. The vessel's de-parture was unexpected as Senor Aldemo, the Cuban official who was in charge of her, said on Thursday that he would not leave New York before Tuesday or Wednesday next. According to Acting Consul General Antonio Altimira, she was to ship 800 tons of arms, equipment and other munitions of war. At noon today scarcely one-fourth of her cargo had been put on beard. It was rumored that the sudden sailing of the vessel was due to a dispatch from Havana, where an attank by rebels is feared.

WERNZ ELECTED GENERAL

Jesuits Choose Progressive Priest Head of Order.

ROME, Sept. 8.-Francis Xavier Wernz, a German, was today elected general of the society by the congregation of the Company of Jesus, in succession to the late Father Martin, who died last May. Following the election a messenger was immediately dispatched to the Vatican to inform the Pope of the choice, which, to become effective, requires the papal sanc-

Two ballots were taken before the final choice was made. The announcement that a new general of the order has been chosen was communicated to the outer world by the ringing of a bell, which was world by the ringing of a bell, which was the signal that the meeting was at an end. Formal amouncement of the election was then made to the rector of the college and Father Alfred Maertens, procurator-general of the Jesuits, went to the Vatican to inform Pope Pius of the company's choice. The pontiff expressed great satisfaction over the selection of Father Warran.

"He is just the man fitted for the posi-"He is just the man littled for the posi-tion," said the Pope when he heard the message brought by Father Maertens.

'He charged Father Maertens to take General Wernz the apostolic benediction and also an affectionate letter of greeting which he wrote to the new general. Father Wernz's comment upon his elec-

No time has yet been fixed for the elec-tion of assistants to the general and for other offices, including a secretary and monitor.

Father Francis Xavier Wernz was born at Rothwell, Wurtemberg, on December 2, 1842, and at the age of 15 entered the society of which today he was chosen head. After a long course of preparatory work, he took up the study of canon law at Dittan hall, and in 1883 received an appointment as professor in the Gregorian University. He also has been rector of the University sinte 1894.

In 1897 Father Wern's began the publication of a series of books dealing with the most profound questions of canon law. Four volumes of this book already have been published. He is a consulting member of the congregation ecclesiastic, extraordinary affairs and index council.

It is predicted that the choice of Father Wernz as general of the Company of Jesus will result in the infusion of new life into the organization. He is recog-nized in church circles as a progressive man, of present-day ideas and extremely

MEANT AS SLAP TO FRANCE

Election of Wernz Attributed to the Kaiser's Influence.

CHICAGO, Sept. 8.—(Special.)—The News correspondent at Rome in corre-spondence about the new Jesuit general,

The election of Father Wernz was quite unexpected, as his name had never been mentioned as that of a likely candidate. One of the electors deales that there is any political significance in the fact that the new general is a German, but, as the Jesuits up to this time have always had chiefs belonging to the smaller countries, it is believed that Father Wernz's election was meant to be a blow to France. Possibly it was due to the Kaiser's in-fluence, which is much greater now than

FEAR PRESIDENT'S RECORD

Democrats Do Not Relish Making It

All this talk about the closing of any

branch of the Democratic National head-quarters is utterly without foundation. The press bureau in this city under Robert Mil-ler, which has been conducted by the Na-tional committee for several years, is still working out its regular supply of matter for the Democratic press throughout the coun-try. The force was decreased a day or two simply because the additional work of compiling data for the campaign book under the supervision of this committee which had been put upon that bureau, was completed, and there was therefore no longer any necossity for the services of these people. That is all there is to this incident. The effort of the Republicans to make the President the sole issue of this campaign is significant

and will prove futile.

It would appear from the frantic efforts of certain distinguished Republican speakers to make the President the Issue, that they are ashamed of the record of the Republican House of Congress. I do not know how it is, and therefore do not charge that they are ashamed of its guilt. If they are not, why are they so earnestly ignoring the record of that body and attempting to hide behind the President?

While in New York recently at the reception of Mr. Bryan I met Democrats from all over the country and have never seen them nore determined, earnest and hopeful. Mr. Bryan will take part in the campaign and will speak wherever he can do the most

NEW CARS FOR HILL LINE

Over 8 Per Cent Increase in Rolling Stock This Year.

ST. PAUL, Minn., Sept. &-(Special.)-The Northern Pacific today awarded a contract for 4000 boxcars to be delivered next year. This is the purchasing season, and the many agents who have been call-ing at the company's general office this week will shortly go away with orders for other kinds of cars. The company made extensive purchases

last year for this year's delivery, and cars and engines have been arriving since Spring, but not all have arrived as yet. Northern Pacific orders seem to be run-ning about the same as last year, when 3850 40-ton boxcars were purchased, making the total number of cars of all de-scriptions 35.1%, or a capacity of 1,050,244 tons. It is interesting to note that the company during the year increased the number of ears 8.9 per cent and 14.4 per cent tonnage capacity, while the freight earnings increased 11.7 per cent.

Two More of Hipple's Bogus Notes Discovered.

SECURITY IS WORTHLESS

Pious Banker Stole \$197,000 in Names of Fictitious Men-Proposed Extra Dividend on Eve of Bankruptcy.

PHILADELPHIA, Sept. 8.—Additional evidence as to the methods employed by Frank K. Hipple, the suicide president of the wrecked Real Estate Trust Company, were revealed today by the state and county investigators. The District Attorney found two notes, one for \$85,000 and the other for \$132,000. The first note was made to "J. W. Schwartz," and the collateral named was 40,000 shares of International Match. Company and 48,000 ternational Match Company and 48,000 shares of the Washington, Alexandria & Mount Vernon Electric Railway Company The other note bore the name of "J. A. Wabeet," and the collateral entered against it was 150,000 shares of the New Alexandria Land & River Improvement

"It is my opinion there are no persons as J. W. Schwartz and J. A. Wabeet," said Mr. Bell. "At least I have been unable to discover their addresses ported to have floated down the stream.
Great areas of oats are under water and collateral which they are purported to have a total loss. The entire amount of damage cannot be estimated at this use and entered the bogus collateral with the mythical names to deceive the Trust Company officials. This theory is supported by the fact, which I learned today, that Hipple always paid the interest on these loans himself. There is no record of any interest having been received from Schwartz or Wabeet."

Liability of Directors.

Attention is now being paid to the pos-sible liability, criminal and civil, of the directors. Regarding this Mr. Bell said: "Up to tonight I have not found absolute evidence of criminality, so far as the directors are concerned.
