PICKS STRAWBERRIES IN SEPTEMBER. Picks Strawberrhies in September.—
Leon Swett, of Mount Tabor, is now picking his second crop of strawberries.
While the yield is not so large as that of
the first crop, it represents almost as
much in cash, as the price he obtains is
about five times as large as it was in
the early Summer. For the last week
he has been picking on an average a
crate a day of berries, or 42 boxes. He
will be able to pick a crate a day for at will be able to pick a crate a day for at least a week more. He sells them at 25 cents a box, and the demand is far more than the supply. His patch covers 3% acres. Every year Mr. Swett obtains a second crop from his patch, but usually the yield is insignificant and not large enough to warrant marketing. But this year the second crop is almost as im-portant from a financial standpoint as

the first.
