Late last evening there was an informal conference of those who have been active in directing the campaign of the Young Men's and Young Women's Christian Associations in their struggle to raise \$350,000 for a new building. The day's receipts had fallen building. The day's receipts had failed below the sum hoped for, and the idea of this informal gathering was to determine just what the prospects of success appear to be at this time. It was quickly determined that the prospect is of the brightest, for it was found that considerably over \$100.000 is at hand, and that the public at large has hardly had an opportunity to contribute. For the most part, the fund thus far represents the donations of a few far represents the donations of a few wealthy contributors. C. S. Ward, international secretary of the Y. M. C. A., who has engaged in several similar campaigns in other cities, stated that the first week is usually one of organization, and that it is usually the final two weeks that brings the money. It was his benef that Portland's show-ing thus far is an excellent one, and that the project seems assured of suc-

C S Reed, chairman of the citizens' committee, stated that the plan is being unanimously indorsed by the local people, and that thus far in his work he has not met with a single refusal to contribute, although he is frequently put off by those who say they will give later. General Secretary Stone, of the Y. M. C. A. made the statement that comparatively few people have been seen thus far; that the week has been one of organization and publicity work, and that the real fruits the campaign will be reaped from

later he changed the total to \$6831. On Thursday night the large hater he changed the total to \$6831, when a \$500 contribution was left at headquarters. It remained at this figure until a few minutes before 8 o'clock, when Mr. Reed, who had been out on a little hunt for money, dropped in with the exhilarating announcement that he had just received a donation of \$5000. The amount was subscribed by Mrs. William Honeyman and family. Messrs. Stone and Ward, who had Messrs. ### H. W. Stone on Situation.

"In the new buildings for the Young Men's and Young Women's Christian Associations, under the proposed plan, the work will be operated on just as nearly a self-supporting basis as are the two associations in their present quarters. Large provision is made in both buildings for dermitories, which afford a large source of revenue, as well as being a most valuable feature of the work of each of the institu-

Provided the undertaking is suc-cessful, it will meet the conditions im-posed by the late Senator Corbett and make possible the securing of the \$30. 000 he left the Young Men's Christian Association in his will, and this will give the Young Men's Christian Association a present endowment fund of \$75,000, the income of which will go towards the support of the current

work. The opening of the new building is sure also to result in a greatly in-creased membership, and thus greatly enlarge the revenue from this source. The receipts from the memberships of The receipts from the memberships of these two associations now pays between 75 and 85 per cent of the operating expenses. Careful estimates, based on a large number of cities operating similar buildings, demonstrate that the amount of money to be secured from the community will not be increased, provided this enterprise can be brought to a successful issue, and it will provide facilities for doing a work that will be of incalculable value to the young men and young women of Portland."

### Dozen Days for Campaigning.

There are just a dozen more days left for campaigning, since no work will be done today or next Sunday. This afternoon the subject will be discussed at the conclusion of the regular 3:30 services at the Y M. C. A auditorium. Following the regular meeting, the young men's soliciting committee of 100 will get together and talk things over with Secretaries Stone talk things over with Secretaries Stone

and Ward.

A review of the work of the four committees shows that the young women's and young men's committees are running neck and neck, the first-named having raised \$4820, while the latter is only \$14 ahead of that figure. The showing of the woman's committee in raising \$30.425 is regarded as exceptional. The citizens' committee leads with \$76.985 to its credit.

Sept 22—(To the Editor.)—In last week's issue of the Milwaukie Boe the editor of this shin-plaster gossip speet takes it upon himplaster gossip sneet takes it upon himself to criticise the actions and methods of the Milwaukie School Board. He takes exception to their way of advertising for a junitor, for he believes the burg owes him a living and insinuates he has been bearen out of 15 cents because they did not advertise in the Bee. Let the gentleman bear in mind that the taxpayers do not elect a Board of Directors for 'he purpose of making a living for the promoters of a weekly paper, but that it is their sworn duty to look out after the best interests of the school, intellectually, morally or financially. Whether the junitor s job is a \$40 one or no, is not for the gentleman to say, as he is in no position to know.

In conclusion, the board has the welfare of the school at heart and has managed the affairs to the best interests of its patrons, according to its best knowledge and ability. Consequently I believe that the Bee's criticisms are wholly uncalled for.

### BIG INCREASE OVER 1905

No Explanation of Discrepancy Between Statements Made This Year and Last-Public Treasury Gains \$18,750 in Taxes.

Exposure of the low tax statements reurned last year to the Assessor by the Ladds has caused the Ladds to increase their personal tax statement this year \$1,250,000. In the statements no explanation of the sudden advance is given. As the Assessor called last year as well as this for full valuations, the difference be tween the two is glaring, especially also since each was made under oath. The increased assessment means about 18,750 additional tax revenue to the coun-ty. Comparison of the two statements

is as follows: 

. \$1,256,048 Total increase The increase in the Ladd & Tilton total is in the bank's surplus, for while last year the surplus was given by W. M. Ladd as \$75.180, this year's figure is \$861,705. The increase for the Ladd estate is from \$290. 000 in money on hand or in bank to \$584.

Mrs. William Stewart Keyes. Keenest sympathy has been expressed this week over the sudden death of Mrs. William Stewart Keyes, of Seattle, formerly Miss Mable Lanyon, who for several years was a popular teacher of English Literature, at the St. Helen's Hall.

Miss Lanyon attended the June wedding of Miss Edith Hexter and was apparently in the best of health. Extremely athletic she was the possessor of numerous cups won at the Waverly golf links, and was a conspicuous player at the recent tournament. She was an unusually charming and brilliant woman and was greatly beloved by a host of friends. Mr. Keyes, who holds, a Government position, is at present in Alaska and as yet has not heard of the death of his wife. .

Club life in Portland will resume its wonted activity early in October and arrangements are being perfected by all these organizations of women to have up-to-date programmes of practical and thorough lines of study and improve-ment. So far only one—the Home Train-ing Association—has its calendar dis-tributed, the others, the most prominent of which are the Council of Jewish Wo-men and the Women's Club, having their year books in press at the present time. New officers will assume control of prac-tically every club, and the Winter season is looked forward to as likely to be one of unusual progress in this line of wo-men's work.

The Council of Jewish Women will con-

tinue its studies along the same lines followed last year, it being the opinion of the calendar committee that this cannot be improved on. The council will hold its first meeting of the season Oc-tober 2, with monthly meetings thereafter throughout the year on the first Wednesday of each month and a Bible class meeting the third Wednesday. At each meeting a member will prepare and read a paper on current topics in the Jew-ish world of today, the review of events being complete and keeping the council in touch with everything going on in every part of the world. Discussions and readngs will be interspersed and high-class usic will be furnished for each meet-

Presby of Goldendale, Wash. passed innough Portland yesterday, enroute to his home from the Republican state convention at Seattle, where he was unanimously nominated for State Senator from the Sixteenth District to succeed George H. Baker. Mr. Presby is one of the best known Republicans in the State of Washington, and the Sixteenth District being strong Republican, his election is almost a foregone conclusion. He has been chairman of the Klickitat County Republican com-mittee for several years and made a splendid record in successfully conducting the campaigns during the Populistic regime which threatened the politics of this section from 1892 to 1896. Klickitat is considered the banner Republican County of Washington and this is largely due to Mr. Presby's

skining guidance of political matters there.

Mr. Presby came to the Northwest from New Hampshire and has lived in Goldendale is years, where he has engaged in the practice of law, having succeeded to the practice of Supreme Judge R. O. Dunbar. He is a man of superior attainments and education, a graduate of Dartmouth College, ex-Prosecuting Attorney of Kilckitat County and ex-Mayor of his home town. He was one of the prompters of the Kilckitat Landaux the home town. He was one of the promoters of the Kilckitat Academy, the first educational institution established outside the public schools in Southern Washington, and has remained a trustee and secretary since its organization. For Nearly Every Man, Woman or Child. A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia. called Stuart's Dyspepsia Tablets, and the claim then made regarding the wonderful curative properties of the remedy has been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers and were finally induced to give Stuart's Dyspepsia Tablets a trial were surprised and delighted at the results. In many cases a single package costing but 50 cents at any drug store made a complete cure and in every in-stance the most beneficial results were reported.
