MORRISON AND SEVENTH STREETS

THE MOST MODERN STORE IN THE WEST

Now almost completed and in which we will commence installing the displays of our various departments at the close of the present week. For many months we have been preparing for this event—the selecting and bringing together of the most complete stock of housefurnishings in the West-furniture, carpets, draperies, bedding, crockery, hardware, tinware; in fact everything essential in the complete furnishing of home, hotel and club, will be here that we will continue to welcome our many friends through whose generous patronage we have been aided in the building of this better-greater store.

AND

FINAL WEEK

The termination of this most remarkable sale—of the generous offerings which have served to denote this event as the greatest and most opportune of all sales-that has attracted hundreds of enthusiastic purchasers and convinced all of the extreme limit in sale values offered in our various departments. Tomorrow marks the commencement of the thirteenth—the final week, at the end of which time we will commence moving and placing the immense stocks which will comprise the displays in our new store on Morrison and Seventh streets. These closing days positively offer the last opportunity for selecting from the sale stock.

In consequence of the near approach of the time for a Congressional enactment to go into effect that has an important bearing upon the naturalization of aliens, there seems to be a general inclination local foreigners to become sens of this country with as little delay

Four subjects of European potentates renounced allegiance to their rulers yesterday in the State Circuit Court, and it is expected that there will be a rush to the County Clerk's office up to the last hour before the new registration laws become operative next Thursday. vides as follows:

The exclusive jurisdiction to naturalize aliens as citizens of the United States is hereby conferred upon the following specified courts: United States Circuit and District Courts now existing, or which may hereafter be established by Congress in any state: United States District Courts for the Territories of Arizona, New Mexico, Oklahoma, Hawaii and Alaska, the Suprame Court of the District of Columbia, and the United States Courts for the Indian Territory; also all courts of record in any state or territory now existing, or which may hereafter be created having a seal, a clork and jurisdiction in actions at law or equity, or law and equity in which the amount in controversy is limited.

The foregoing clause was adopted for the purpose of aiding in the suppression of attempts to colonize a foreign element as voters just before election.

As at present constituted, the laws permit a foreigner to become a citizen of this country before any official empowered to administer an oath, and it is a matter of history that 1700 foreigners were made citizens before Police Judges and subordinate courts of Chicago in one night, just before an election.
