TAFT IS GOVERNOR OF TROUBLED ISL

Proclaims Control and Cubans Willingly Accept the Change.

SALVE TO THEIR FEELINGS

Secretary Will Soon Transfer Government to Winthrop, of Porto Rico-Prisoners Released and Rebels to Surrender Arms.

HAVANA, Sept. 29.-With far less ostentation than accompanies the accession of a new municipal administration, the government of Cuba was formally taken over today by William H. Taft, Secretary of War of the United States, who in a proc lamation clothed in a kindly and diplomatic tone, indicative of the policy he would pursue, declared himself Provisional Governor of the island. Promptly at noon Governor Taft, Assistant Secretary of State Bacon and Captain McCoy, Mr. Taft's aide-de-camp, called officially at

Tatt's aide-de-camp, called officially at the palace and paid their respects to the retiring President. Ignoring Senor Palma's message to Congress on Friday, in which he wrongly interpreted the mission of the American mediators, Mr. Taft spoke kindly to Senor Palma, to whom, he said, the people of Cuba owed an unquestionable debt of gratitude. Senor Palma's brief reply whs devoted enticely to an expression of relief at the opportunity of shifting the burden of guiding the tempestuous republie to the representative of a Nation strong enough to force control over it.

People Are Indifferent.

The fact that, the government had changed from a position of absolute independence to the restraint of a temporary protector was received by the masses with utter indifference. Most of the refined and thoughtful Cubans, while they feel a certain sensitiveness over the loss of the island's sovereignty, are inclined to hope that the United States protector-ate will-be brief.

A Cuban returning to Havana today after a brief absence would not have recognized from the general attitude of the people that the form of government had been altered. Business continued the same, except for the vigor exhibited by the wholesale merchants, manufacturers and railroads to regain their former trade throughout the island, which has been at a standstill since the beginning of the

revolution six weeks ago. Taft Tender With Cuban Pride.

Although it was known Friday that an American provisional government could not be avoided, and despite the fact that it became a resulty today, the last 24 hours have been the most quiet since the arrival of President Roosevelt's mediators, ten days ago. Mr. Taft, with true appreciation of the sensitiveness of the Cuban people, was careful in taking up his new duties and abstained from any act that might have been construed by them as humiliating. His decision not to lower the flag of the republic was taken on his own responsibility, as Friday night unable to get into communication r. Roosevelt because of a defect in the wireless apparatus on the vessel on which the President was proceeding to Provincetown, Mass. He felt certain, however, that Mr. Roosevelt's friendship for Cuba would prompt him to approve this act of courtesy to the broken re-

The release of the prisoners incarcerated for alleged conspiracy against the Cuban Government was one of the first acts of the new Governor. He felt that they should be liberated, but there was also an additional reason, namely, five of them were members of a committee of eight named by the Liberal party to aid Mr. Taff to procure the peaceful disarm-ing of the rebels in the field.

Rebels to Lay Down Arms.

When the prisoners were released, they hastened to the American Legation to pay their respects to Mr. Taft, whom they halled dramatically as the deliverer of their country. There was an affecting scene in the anteroom of the legation when they met Alfredo Zayas and others of their party leaders and a number of insurgent leaders. Affectionate embraces were exchanged, and the members of the committee immediately urged the rebei commanders to surrender quietly and promptly to the commission appointed by Governor Taft, and lay down their arms. Already the work has progressed so far that it appears that the insurgents welme the opportunity to return to their mes under conditions which to them appear to be honorable.

At the same time he declared that he would have have the declared that he would never have abandoned the cause he was sighting for had the mediators endeavored to terminate the conflict, leaving the Moderates in power.

Continue Old Officials.

Mr. Taft and Assistant Secretary of State Bacon spent one of the busiest days that they have had since their arrival in the island. They received the subsecre-taries of the executive departments, who are now the acting heads thereof, and who reported on the general conditions concerning the administration of affairs. The Governor requested each of these secretaries to continue at his post, but to re-port directly to him. He informed them that he would not appoint a cabinet until he had familiarized himself with the most available timber for Cabinet positions.

Carlos Roloff, who has been treasurer since Chiba received her independence, ubmitted a financial statement on the treasury, but this has not been inspected. Nevertheless, Mr. Taft gave him a receipt for the money, according to the statement presented, and begged Senor Roloff to continue in his position.

Winthrop to Succeed Taft.

Mr. Taft stated tonight that he ex-pected to remain in Cuba only a fort-night longer, and would then return to Washington, as affairs concerning the Philippines and the Panama Canal de-mand his immediate attention. He has requested Mr. Bacon to remain another week to further assist in prefecting an organization necessary thoroughly to in-stall a provisional government.

stall a provisional government.

Mr. Taft has nominated Beckman Winthrop, Governor of Porto Rico, for the provisional Governorship here, recommending to the Cubans Mr. Winthrop's special fitness for the position. Mr. Taft says that as long as the provisional government continues it will be under his supervision as Secretary of War.

Preparing Camp for Troops. Camp Columbia, the permanent bar-racks originally erected by the United States Government of Intervention, after the Hispano-American War, to accommodate the American troops, is con-sidered to be an ideal camp. It is dry, cool and convenient, and has an abund-ant supply of water. Altogether, the outlook for the provisional government

and armed occupation of the island is onsidered to be highly promising.

Mr. Taft this afternoon received many prominent Cubans, including the Mayor, municipal officers and sugargrowers and cattle-breeders of Camaguey. The latter complained to him that arrichs was rampant in the Proventer of the latter companies to the proventer of that anarchy was rampant in the Prov-ince of Puerto Principe, and that many of their cattle and horses had been stolen, that fences have been destroyed and some women assaulted. vastly amused at W. T. Stead's latest. He has actually been to a music hall, and has written a page of criticism about it in his last number of the "Review of Reviews." Mr. Stead last year went to his first musical comedy and roasted it from page to page until the poor theater couldn't hold the audiences that thronged there. The piece ran afterward for a whole year. The music hall he honored a week ago was the London Pavillon. It is the same music hall that a committee of clergymen went to some weeks and then reported to their "goo-goo" societies that the performance was putrid and immoral, etc. Their one objection was the posing of

a young woman called "La Milo." She poses practically or seemingly in the altogether as different famous statues. Stead writes of the performance that it was "hideous, horrifying, amazing and drivel for the dregs." He declines to say it is for the dregs." He declines to say it is immoral, but rather senseless idiocy and vulgarity. After "a dreary two and a vuigarity. After a dreary two and a half hours, there came one gleam," and strange to say that one gleam was La Milo. Stead was delighted with the beauty of it. "As to its being indecent," he says, "It was not more indecent than any classical statue. It was of the beau-tiful. ..."

ROME, Sept. 29.—As he threatened he would do, Gabriel D'Annunzio has erected a monument over the grave of his dog. It will be remembered that the dog was killed by a recommendation of the lace vell she wore round her hat so that a perfumed end swirled into the man's face.
