WILL PATROL RIVER

Captain J. A. Speier Appointed U. S. Harbor Inspector.

LAWS TO BE ENFORCED

Water Front Will Be Inspected Regularly and Dumping of Oil by Portland Gas Company and Others Prevented.

Captain J. Speler, who has been acting as first officer of the Government dredge Chinook, has been appointed United States Inspector of the Portland Harbor by Lieutenant-Colonel S. W. Roessler, of the local United States En-

gineers Office.

The new official will enter upon his duties immediately, and will patrol the water front in the interests of the Government, for the purpose of seeing that the laws regulating the river and harbor are enforced.

In the future all violators of the oil and waste dumping laws will be called to account for their acts before the Federal Court. Several fragrant violations of the laws have come to light

Federal Court. Several fragrant violations of the laws have come to light of late. The United States Engineers have been ordered to stop such practices, and Lieutenant-Colonel Roessler was authorized to appoint the Inspector. A Government launch has been placed at the Inspector's disposal, and from now on he will patrol the river front and arrest any person guilty of dumping waste oil or rubbish into the Willamette.

The most flagrant violation of the law was that recently discovered at the Portland Gas Company's dock, which case was taken up by the United States authorities, and resulted in the appointment of the new official. The gas company is at present engaged in cleansing the river bed under the dock, the sandy soil of the river bed being impregnated with oil and tar in that

YAKIMA NEARING COMPLETION

New Upper Columbia Craft Will Soon Be Ready for Operation.

The new steamer Yakima, which was launched on the Upper Columbia River last week, will soon be ready for operation, installation of her engines and boilers having been practically completed.

completed.

As soon as the Snake River will permit of navigation the new craft will be operated on the Snake River, from the mouth to Riparia. In the interim she will run between Celilo and the head of navigation, either as an independent boat or under the flag of the Open-River Transportation Company. The craft is owned jointly by Captain J. D. Miller & Son and Winters, Coughren & Smith, the last-named being contractors for the North-Bank Road. Captain J. D. Miller and his son, Captain Charles Miller, are the operators of the Columbia River & Okanogan Steamboat Company.

The Yakima is a light-draft boat of The Yakima is a light-drait boat of scood freighting capacity, being able to handle 200 tons of freight. She is 126, feet in length, 28 feet beam, and is 5 feet deepth of hold, which makes her one of the lightest-draft freighters on the upper river. The new boat will be ready for operation about November 1.

LINERS IN COLLISION

Minnehaha Rams the Etruria in New

NEW YORK, Oct. 20.—The Cunard Line steamer Etruria, while bound out of New York Harbor, collided with the Minnehaha, also outward bound. The Minnehana, also outward bound. The Minnehana evidently suffered no injury, as she continued on her way and later passed out over Sandy Hook bar. The Etruria was anchored near Staten Island in a dense fog when the Minne-

haha which had been following about I haha, which had been following about in minutes' behind, struck her on the quar-ter. The Minnehaha was quickly stopped and some of her boats were lowered, but there was no danger of any loss of life. The Minnehaha's stem was slightly twisted, but not enough to disturb her yovage.

NIPPON LINER IN TYPHOON

Shinano Maru Has Skylights Broken on Voyage to Seattle.

SELATTLE, Wash, Oct. 29.—(Special.)— The Shinano Maru, of the Nippon Yusen Kaisha fleet, which arrived today from Oriental ports, ran into two typhoons on the way across. She left Yokohama a day before the big typhoon that played havec with Japanese shipping. The Shi-nane had her skylights atove in by the storms she encountered and the cabins were flooded, but no one was injured. A. B. Zandetta arrived from Hongkong on the steamer to go to Havana as Spanish Consul-General for Cuba. The Shinano brought 20 passengers and 500 tons of

STEAMER IS TOTAL WRECK

W. H. Pringle Rapidly Pounding to Pieces at Entiat Rapids.

The Upper Columbia River steamer W. H. Pringle, which ran on the rocks in Entiat Rapids one week ago, is rapidly pounding to pieces. This news was brought down to Cellio by the steamer Mountain Gem, and according to her crew, the Pringle is a total

wreck.
The Mountain Gem will leave the service of the Open-River Transportation Company about September 1, if the water in the Snake River rises enough by that date. She is scheduled to be operated on the Asotin-Riparia run as soon as the Snake River is navigable.

SLOOP SIGHTED IN DISTRESS

Fears Entertained for Daisy, Which May Have Been Wrecked.

VICTORIA, B. C. Oct. 20.—It is feared that the sloop Dalsy, presum-ably a fishing vessel, has been wrecked on Vancouver Island Coast during the on Vancouver Island Coast during the heavy weather of last week. Reports from Cloose, near Carmanah, say that on Saturday last a sloop was sighted in distress driving ashore. The telegraphic communication from Cape Beale gives no definite news of the

PROGRAMME OF ANTI-SALOON LEAGUE FOR TONIGHT.

Delegates to Assemble in First Presbyterian Church-Two Interesting Sessions Are Held.

The Anti-Saloon League convention will hold a mass meeting at the First Presby-terian Church tonight, which will be ad-dressed by Rev. Paul Rader. The proposed afternoon meeting at the Y. M. C. A. has given way to the Hutchinson memorial services, and the evening gather-

morial services, and the evening gathering will be the only meeting of the convention today. Yesterday two unusually
interesting sessions were held, the one in
the afternoon being expecially satisfactary to the attending delegates. A
"School of Methods" was the order of the
programme and was led by E. S. J.
McAllister. Open parliament and a question box made the discussion of the laws
pertaining to and affecting local option
lively and general, and many prominent
speakers gave their opinions on the manspeakers gave their opinions on the man-ner in which the Anti-Saloon League cam-paign should be conducted. The decision of Judge Burnett in the

oquille test case was up for thorough discussion and comment and the opinion of three attorneys present, E. S. J. McAllster and J. J. Howk, of Portland, and John Garver, of Pendleton, was that the Burnett decision is sound. Mr. Rader is also of this opinion. He said to an Oregonian representative:

regonian representative:
"I believe, of course, that the local option law is constitutional, and as it pro-vides for imprisonments and fines, it is a criminal law. For this reason a city which has gone dry cannot adopt a sharter which will suspend the operation of the local option law, as was attempted in Coquille."

The very similar case in Eugene, in which Judge Harris sustained the local option law, was also fully discussed. Among the speakers of the afternoon were Among the speakers of the afternoon were Jesse Edwards, who presided, F. B. Rutherford, who made an able address on 'Detective Work': John Graver, E. S. J. McAllister, Rev. W. P. Boyd, Forest Grove: Hubbart Bryant, Albany, Judge Walton, Lane County; C. J. Bright, Sherman County; J. J. Waters, Benton County; Albert Carlson, Astoria; President Market Carlson, Astoria; President Market M dent McGrew, Yamhill, and E. H. Wood-ward, Yamhill.

ward, Yamhill.

Last night Mayor W. P. Elmore, of Brownsville, spoke on "A Dry Town," and Rev. W. S. Gilbert, formerly paster of Cavalry Presbyterian Church, of this city, but now of Astoria, spoke on "The Attitude of Foreignera Toward Temperance Reform."

contest that is suggested.

Ages.

A telegram to the Bulletin from the Kansas City Journal says that prominent people in that city are recovering from Bright's Disease and Diabetes under a specific discovered in this city, and asks if the same thing is occurring here and if the results are permanent.

The Bulletin's reply was "Yes" to both questions.

Consider what this means! Nothing less than that Bright's Disease and Diabetes, two of the greatest scourges known, are curable. This is of profound moment to the whole world And yet, because the formula belongs to individuals, it has been considered nonethical and but little noticed by the medical profession, and this not-withstanding the fact that prominent people in this city, including professional and business men, have been cured to so great a number as to exclude doubt.

The editor of the Overland Monthly personally knows a number who have recovered. Among them is an editor. He was very low and his death was looked upon as certain. Another is an old-school physician. The latter was rejected for insurance. He would not permit his ethics to stand between him and his own recovery. He can now pass. One would have thought that this case would have attracted attention. But the only comment he reported was an arraignment by a brother physician for using a nonethical preparation.

We recall that Paracelsus discovery of the use of mercury was decried for 40 years, and vaccination was fought nearly as long. And yet, what physician does not now use both?

And history seems to be repeating itself,

both?

And history seems to be repeating itself, for it has for several years been known to some hundreds, probably thousands, in this city that Bright's Disease and Diabetes are no longer in the list of incurable diseases. And yet the world does not know it. Editors, lawyers, monufacturers and business men have discussed it openly, but physicians have breathed but softly of it, although soores have seen patients that demanded the new specific recover.

And what is it that is holding all this back? Ethics!

At the rate the deaths from Bright's Dis-

back? Ethics!

At the rate the deaths from Bright's Discase are increasing under the most skillful orthodox treatment, according to Government and municipal reports, if Paraceisus?

40 years' experience is to be repeated, some-body is shouldering an awful responsibility, for what is happening to the patients in these long interims while the antagonisms of the medical schools are adjusting themselves to new conditions?

Motificials monuments will mutaky and Multiplying monuments will mutely an-

It may be that in this age of books and newspapers the peeple will willingly continue to die of Bright's Disease and Dishetes because it is orthodox rather than recover and face the charge that they are not ethical. But we doubt it. We can as easily believe in the sanity of the prospector dying of thirst in the desert rather than accept water from a newly discovered spring because not on his chart.

Future history will record this decade as marking the first definite control of chronic Bright's Disease and Dishetes, and the name of the obscure but lamented Fulton will be as indissolubly connected with it as is Harvey's with the circulation of the blood. That is clear enough, but how many tens of thousands will be sacrificed to an antiquated orthodoxy before the mountains of opposition and prejudice have been meltical by the march of progress, the sun of tolerance and the needs of humanity?—Overland Monthly.

The above article refers to the astounding It may be that in this age of books and

The above article refers to the astounding recoveries now being made by the Fulton treatment for urgent cases here. We will see that people with Bright's Disease. Diabetes or serious kidney disease are sent literature on this important discovery.

WOODARD, CLARKE & CO., PORTLAND

FRESHMAN MATCH VERY UN-SATISFACTORY EXHIBITION.

Foul by a Cardinal Player Gives the Victory to University of California.

STANFORD UNIVERSITY, Cal., Oct. 20.-Rugby football was tried last Saturday, and, in the opinion of the bleachers, was found wanting. The occasion, the annual freshman football match between the Cardinal and the Blue and Gold. brought out some 300 spectators, and very few left pleased at the substitute for the old game imported by the faculties of the contending universities. The game proved weefully uninteresting, due, no doubt, it must be conceded, to the in-experience of the players. In the second place, from the spectator's standpoint, the game has no point. A player carries the sphere as far as he can, then he

the sphere as far as he can, then he heaves or kicks it.

California won the interclass game on a free place kick, which they were entitled to for a "foul" by one of the Stanford forwards. This "foul" consisted of a player in the "scrume" raising one of his feet too soon to please Referee Unmack. A mighty unsatisfactory way to win or lose a varsity intercollegiate contest, so declared the rooters and athletic writers from San Francisco.

Back to "Johnnie" Bull soil with Rugby is the general sentiment now, though a much more interesting and scientific match is anticipated on November 10, when the varsity teams meet on the Berkeley campus. Stanford is conceded to have the brightest prospects for winder the stanford is conceded to have the brightest prospects for winder the stanford is conceded to have the brightest prospects for winder the stanford is conceded to have the brightest prospects for winders.

This coming week the Cardinal squad will be given a trip to Los Angeles and nearby points, where Rugby matches will be played with Pomons College and the Los Angeles Polytechnic School. Captain Stott, Kenneth Fenton, William Koerner, Alex Chaimers and Jack Holman, Portland athletic stars, who seem t fixtures on the varsity "fifteen," make the trip.

The Stanford "500," the co-eds, have The Stanford "500," the co-eds, have bought themselves "shinny" sticks, and each evening near Roble Gymnasium may be seen a group laboring to master the rudiments and technicalities of hockey. Tennis, golf, basketball and hockey now serve to mature the muscle of the Cardinal girl, and a large number are availing themselves of the opportunity to take some form or other of masculine exercise. line exercise.

One of the most unique ideas for a college entertainment ever introduced in the West is being planned by the senior class. The show will be a burlesque circus. A menagerie, midway and performing troupe will all be burlesqued by leading college funmakers, and this amusement, which will be presented in the latter part of November, promises to be a big hit.

CURED TO STAY CURED

My Fee Is Only

Free Consultation and Advice WHETHER TREATMENT IS TAKEN OR NOT.

Different doctors have different ideas in re gard to cures. Some cult a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done But the real aliment remains, and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much werse condition. I claim that nothing less than complete eradication of disease can be a real cure. I treat to re move the disease, and not merely the symptoms. I search out every root and fiber an allment, and I cure to stay cured.

"Weakness"

I not only cure "weakness" promptly, but I employ the only treatment that can possibly cure this disorder permanently. It is a system of local treatment entirely original with me and is employed by no physician other than myself. This may seem a broad assertion, but it is just as substantial as it is broad. So-called "weakness" is but a symp-

The Leading Specialist.

YOU PAY WHENWELL

What better proof or more sincere assurance can I offer than that I am willing to wait for my fee until I effect a cure? Could I afford to make such an offer if I was not absolutely cer-

tom of local inflammation or congestion, and case I take?
a radical cure is merely a matter of restoring normal conditions throughout the organic system, and this I accomplish thoroughly and with absolute certainty.

Stricture My treatment for stricture is entirely independent of surgery. A complete cure is accomplished without cutting or dilating. All growths and obstructions in the passage are dissolved, the membranes cleaned and all irritation or congestion removed.

Syphilis I cure this leprous disease completely. The system is thoroughly cleansed and every poisonous taint removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harmless bloodcleansing remedies. Do not submit to the dangerous mineral dosing commonly indulged in. Such treatment merely obscures the symptoms.

Varicocele Cured Without Cutting

The time was when every man afflicted with varicocele had no choice other than to allow the disease to go on undermining his power and health or submit to a surgical operation. Now he can choose a thorough cure by painless treatment. I cure varicocele in one week, and it is seldom necessary that the patient be detained from his business even a single day. My method is original with myself, and is the only safe and successful treatment for varicoccle ever devised.
