## Buy a Range That Burns All the Coal

Most likely you have been throwing away good coal every day without knowing it. Coal that is only partially burned in the firebox, because, with the ordinary range draft the air current only strikes part of the fire. Usually the damper door on such a range is situated at one end of the firebox only, which makes your fire hot at the draft end and cold at the other end. Now the draft in a MONARCH RANGE is entirely different. Instead of one damper door, there are TWO, one in each end of the firebox, and both are regulated by the same handle. So you get two direct currents of air at the same time, and your fire burns smoothly and evenly.

The draft striking the fire from both directions consumes ALL THE FUEL, and gives you all the heating power from the coal. When you empty the ashpan in a Monarch Range you are throwing away ashes—and ashes only—not coal; and in addition to this the Monarch is constructed of MALLEABLE STEEL, which can be riveted so tight and solid that no air-leaks can possibly happen as they do in cast-iron ranges. The top is malleable steel, polished and bright. You can keep it clean without smearing your range with blacking, which gets on the cooking vessels, to make more work for you.

**Handsome Parlor Tables \$3.85**  
Only the finest of quarter-sawn oak used in this table. Good construction, and the best of cabinet work throughout. Highly polished, golden finish—a table that usually sells for \$5.00.

**We Also Have Good Stands for \$1.25**

**Silver Oak Heater \$18.50**  
The very latest construction in Oak Heaters, every feature necessary to make a strictly first-class heater embodied in this pattern. Stands 4 1/2 feet high, burns coal or wood equally well. Extra large food door and smoke curtain, center draw and shaking grate, extra large ashpan, heavy steel body, A handsome heater, elaborately nickel-plated.

**The Cast Steel Stove**  
Is made in three sizes with 16, 18 and 20-inch oven. The body is made of sheet steel, lined with asbestos, just like a range. It has a steel oven that heats very quickly and is constructed throughout with fuel economy as the principal point in view.

No. 16; special this week... \$ 9.50  
No. 18; special this week... 12.50  
No. 20; special this week... 14.50

**Metal Cribs \$6.25**  
Large metal crib, prettily enameled in green, high sides to keep the baby from climbing out, either side can be lowered: a crib that you wouldn't expect to get for less than \$8.30.

**Plate Racks 78c**  
Made from golden oak; a pretty little rack that will hold six plates, and has hooks for six cups. Lots of others that are larger and all go at special prices for this week.

\$1.25 Plate Rack... 90c  
\$2.00 Plate Rack... \$1.67

**Airtight Heater \$1.69**  
Made from heavy rolled steel. Has top draft and an extra lining of sheet steel. This heater sells regularly for \$2.50, and our only reason for cutting the price is to induce you to visit our stove department.

**Sunlight Airtight Heater \$3.50**  
Owing to the unprecedented demand for this heater the \$3.50 pattern is all sold out, and we are offering in its place the regular \$10.00 size. It has a heavy cast steel top and bottom. Body is made from the best quality of rolled steel, with an extra heavy lining to protect the outside body. Foot rails, panels and legs are nickel-plated. We have the finest line of heaters in the city. Airtight Heater, heavy cast top and front \$4.50. Hot Blast Heater, elaborately nickel-plated \$5.00. Combination Oil and Wood Heater... \$6.00

**ARBUCKLE'S ARIOSA COFFEE**

"For over thirty years," writes a gentleman in Los Angeles, "I have used Arbutick's Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbutick's. No other coffee has this uniform never failing aroma, I care not at what price. I have often wished I could tell you this." Many other people have the same opinion. Arbutick's is the first roasted packaged coffee, and its sales exceed all the others put together. That it costs you less is due simply to our coffee business being so much greater than any competitor, in fact, it is larger than the next four largest firms in the world combined. We naturally can and actually do give better coffee in ARIOSA than anyone else can give for the price; Being the standard article it is sold at the narrowest margin of profit.

Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a package bearing his name. Don't take it, neither the looks nor the price indicate its cup quality. No matter where you buy Arbutick's ARIOSA, or what you pay for it, it's the same old uniform ARIOSA ARIOSA Coffee.

If your grocer will not supply, write to ARBUCKLE BROS., New York City.
