Local realty dealers are greatly encouraged by the heavy demand for Portland property which is coming from outside capitalists. During the past two years this phase of the local market has been constantly gaining in importance until today there is more outside money being offered for investment here than ever before. In the past the great bulk, of dealing has been done among the local residents, but it is evident that the situation is destined to assume quite a different aspect and it is certain that with the influx of new capital the present upward trend of values will continue. Even with the recent advance in prices

OLYMPIA, Wash., Nov. 24.-Because his first wife was permitted to testify against him, J. B. Kniffen, who was convicted in Klickitat County on a charge of bigamy, was granted a new trial by a decision of the Supreme Court this morning. The court holds bigamy is not a crime against the spouse, but a crime against the marital relation, and therefore the testimony of one spouse is barred by law.

During the afternoon rumors were afloat to the offect that Phillips had sought legal advice and that he had been informed that a good plan would be to attempt to reopen the place on a small scale, to see what action, if any, the police would take. It was but half an nour after he permitted the six women to enter the Fourth-street annex of the big dive that Sergeant Baty and his men arrived.
The Paris House was closed two

TACOMA GETS \$28,000 A YEAR MORE THAN BEFORE.

Council Is Considering the Proposal to Advance the License From \$800 to \$1000.

TACOMA. Wash., Nov. 24.—(Special.)— Tacoma has 140 saloons, exactly the same number as before the present saloon ordi-nance werts into effect about six months ago. There is apparently no tendency to decrease the number because of the in-creased fee from \$800 to \$500, as the op-ponents of the measure urged at the time of its passage. If this condition ontinues the city will find itself at the end of the first year of the new ordinance just \$28,000 richer and with saloons much ore orderly than they were under the

old regime.

There is said to be a probability that the Council will endeavor to amend the saloon erdinance in the near future and advance the license to \$1000.

BOMB IS READY TO BURST

German Prosperity Reaches Climax and Investors Hold Off.

BERLIN: Nov. 24.-Although Germany is on the top wave of prosperity, skeptic-ism as to the duration of the boom has been increasing for several months and the outside public has kept aloof from speculative investments in industrial stocks, notwithstanding the continued un-usually bright annual reports of the com-panies showing large gains, the declara-tion of dividends, increases in orders and ligher prices for manufactured products. This sober attitude on the part of th private investors is beginning to gain the support of the manufacturers and bank-ers, who, being able to glance behind the scenes of industrial activity, express fears that the boom has already exhausted it-self. When asked to give reasons for this view the manufacturers and bankers point to the dearness of money, the high prices of commodities, the high wages and the expensive operations to which all the industrial companies have been

AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different, membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and
