PLATFORM MADE FOR FEDERATION

Radical Measures on Programme of American Labor Unions.

GOMPERS AGAIN ELECTED

Declaration for Municipal Ownership, National Telegraphs and Telephones, Woman Suffrage, Initiative and Referendum.

MINNEAPOLIS, Nov. 24.—(Special.)
-With the re-election of all the present officials and the adoption of a decidedly radical declaration of principles, the twenty-sixth annual convention of the American Federation of Labor concluded its labors and an of the officers and delegates unite in declaring it was the mast successful meeting in the history of the organization. There was but one discordant note in today's proceedings, and that was when Victor L. Berger, the Socialist delegate from Milwaukee, openly opposed the re-election of President Compers, declaring that he was "leading the Federation into paths of danger." It was perfectly understood the Berger simply perfectly understood that Berger simply voiced the sentiments of his own organization, which had instructed him "oppose Compers to the last."

Old Officers Re-elected.

The next session will be held in Nor-Va. These officers were re-elect-President, Samuel Gompers, Washington; first vice-president, James Dun-can, Quincy, Mass.; second vice-presi-dent, John Mitchell, Indianapolis; third vice-president, James O'Connell, Washington; fourth vice-president, Mr. Morris, Denver; fifth vice-president, D. A. Hayes, Philladelphia; sixth, Daniel J. Keefe, Detroit; seventh, William D. Huber, Indianapolis; eighth, Joseph F.

her, Indianapolis; eighth, Joseph F. Valentine, Cincimnat, secretary, Frank Morrison, Washington.

John Dempsey, of the Pennsylvania miners, and W. E. Kaplesky, of the Barbers' Union, were chosen fraternal delegates to visit the British Trades and Labor Congress. Robert S. Maloney was chosen fraternal delegate to the Trades and Labor Congress of Canada, over James Cable. over James Cable.

Declaration of Principles.

The following is the declaration of principles, which was adopted after two resolutions in regard to involun-tary servitude and the initiative and referendum had been incorporated. referendum had been incorporated. In furtherance of our claim, namely, that our principles comprise the fullest and highest type of human activity and from time to time will be enhanced and advanced in accordance with the demands to satisfy numan needs and desires, we recommend the following as a partial statement at this time of the economic demands of the American Federation of Labor:

Free schools, free textbooks and compulsory education.

Abolition of all forms of involuntary servitude, except for punishment for crime.

Unrelenting protest against the issuance and abuse of injunction process in labor disputes.

A workday of not more than eight hours in the 2s hours in a day.

A strict recognition of me over eight sours per day on all Federal, state or musicipal work and at not less than the prevailing per diem wage rate of the class of employment in the vicinity where the work performed. performed. Release from employment one day in

The municipal ownership of public utili-

The abolition of the sweatshop system. Sanitary inspection of factories, we tops, mines and homes. Liability of employers for injury to body or loss of life.

Radical Measures Advocated. The nationalization of telegraps and tel-

ephone. The passage of anti-child labor laws in states where they do not exist and rigid defense of them where they have been nasted late law. Woman suffrage co-equal with man suff-

Initiative referendum, imperative man-date and right of recall, Suitable and plentiful playgrounds for colidren in all cities.

HUNG LONG OFF STRAITS

(Continued from First Page.) the river caused the loss of their ships. manner in which these vessels were lost removes them from the list of craft which might have suffered

through any physical or artificial disabilities of the port. Iverna Improperly Ballasted.

Of the other vessels of the storm ossed fleet it is not clear that either serious delay or damage has been experienced except by the Iverna, and her delay, as previously related, was due to an insufficient amount of ballast and badly fouled bottom. This economical practice of some shipowners in sending their vessels to sea with an insufficient amount of ballast to keep them from capsizing has cost the lives of two Columbia bar pilots, along with the entire crew of the British ships Cadzow Forest and Andrada. With both of these ships the pilot before going on board called attention to the dangerously light draft of the ves sels and expressed misgivings regarding the outcome.

In the case of the Cadzow Forest Pilot John Grasman was exceptionally bitter in his comment on the owner who would imperil the life of his crew in order to save the expense of a few tons of ballast, and his last words before he boarded the vessel were:

"I would rather be a tugboat deck hand at \$40 per month than to pilot such ships at \$1000 spiece."

Another contributing factor in the delays suffered by some vessels is the failure of the captains to familiarize themselves with the facilities of the port. The instructions carried by some of the captains who came here this year were based on conditions which existed in the days of the Flavel These instructions tell the regime. shipmaster to refuse pilots from the schooner and take only those from the tugs.

As a result the schooner has this season engaged in a great many wild chases after vessels which, had masters known the true situation would have been glad to haul into position and take a pilot. The Galena was chased more than 60 miles by the pilot schooner, and throughout more than a day's run paid not the slighten attention to the schooner, and the night before she struck the beach she was at

dark heading straight for destruction The pilot service could be improved by the removal of some of the dead timber, but shipowners and shipmasters could also help matters by becoming posted on the situation. In view of the experience of the Puget Sound fleet we might reasonably expect a cessation in the "knocking" to which this port has been subjected by some owners who still seek to avenge past wrongs by the infliction of a differential no justified by conditions now existing.

COLD SHOULDER FOR BOB

Justice Gaynor Wants Trust Officials Imprisoned.

"GREATEST CRIME OF AGE"

New York Supreme Magistrate Thus Characterizes Favoritism in Freight Rates-His Boston Speech Creates a Sensation.

BOSTON, Nov. 24.—(Special.)—Jus-tice Gaynor, of the New York Supreme who was the principal speaker Economic Club dinner tonight, created a sensation by declaring that the present system of punishing cor-porations while letting their gullty officials escape is stirring up class

"Any favoritism in rates is absolutely unlawful and always was," said Justice Gaynor. "The only new law we needed on that head was to enable us to put in prison railroad officials who should be found guilty of such favoritism. Inasmuch as we now have such laws, the prosecution of the cor-poration itself—a mere name that has poration itself—a mere name that has no physical body to be put in prison, instead of the guilty officials—is not having a good effect on the public mind, to say the least. It is the guilty railrond official, however high and even though he may have risen to a tick beginning to convertise and governed to the high place in the councils and gov-ernment of the Nation, or if he be only the local station agent in a village, he

should be prosecuted.
"This favoritism in freight rates is the greatest crime of our day. low one man or set of men to have their treight carried over public highways at a rate so much lower than his competitor as to enable him to undersell his rival and drive him out of business, is so heartless and damnable that we shall be looked buck upon by our descendants and by the future historian as a generation lost to morality for allowing such a condition so long."

COMPANY PAYS THE FINES Law Fails to Punish Railroad Offi-

cials for Rebating. CHICAGO, Nov. 24 .- (Special.) -- Railroad officials fined by the Government for rebating do not pay the fines them-selves. The stockholders pay the bills. Such at least is the case of the Chi-cago, Burlington & Quincy, according to evidence submitted today to F. K. Lane, of the Interstate Commerce Com-Lane, of the interstate Commerce Com-mission. The evidence was taken in connection with the punishment of the railroad recently by a \$40,000 fine and of First Vice-President Darius Miller and Traffic Agent C. C. Burnham by fines of \$10,000 each on charges of re-

Today's hearing came up on a charge that \$20,000 of the road's funds had been used to pay Miller's and Burn-ham's fines. "Solicitor Dawes, of the road, paid the fines to Clerk Mac-Millan of the United States Court," testified General Auditor Sturgis. "He tendered a \$60,000 check signed by Cashier W. F. Fabian. It was accepted publican Senators are not going to bow down to him; they are not going to listen to his assaults and then elevate him to a possible of list of the correction of freight was placed in the 'correction of freight earnings' account and spread over two months, April and May. The account contained entries necessary in errors in La Folicite, if too severely punished will accounts of freight earnings—claims pose as a martyr and reap the martyr's arising through demands on overreward. The Senate would not want such charges and the like. The \$60,000 was monthly report of the road that carried the freight might not show too

Railroad Man Hard on Rebates.

KANSAS CITY, Mo., Nov. 24 .- Arthur KANSAS CITY, Mo., Nov. 3.—Arthur E. Stiliwell, president of the Kansas City, Mexico & Orient Railroad, addressing the Railroad Club here last night, denounced the practice of rebating. He said: "Of all crimes in the whole category, the rebating crime is the most unjust. Re-bating strikes at the people—the fountain-head of the rights delegated to the aver-

age railroads. The hired assassin of old may be pictured as a white-robed saint compared with the rebater. I'd like to see the rebater get 20—yes 50—years in the

DOWN HARVARD, 6 TO 0

(Continued from First Page.) ball, only to lose it on an attempted forward pass-the play that the Yale men had been working so successfully.

Rip Up Crimson Line. Yale started in to rip up the crimson ine and succeeded in keeping the ball in crimson territory, but heavy penal-

izing for holding and off-side kept them back. At this stage both sides fell to punting. Burr proved handy at this and Harvard invaded the blue territory in a businesslike manner. Getting the ball on her own 20-yard line. Yale failed to gain in two attempts and on the third was penalized 15 yards, the ball being taken to Yale's 3-yard line. Veeder punted from behind the Yale goal, which ended with the ball in Yale's possession on her own 18-yard line. Here the blue was again penalized 15 yards and the ball was again taken to Yale's three-yard line. Again Veeder booted the oval out of danger from a position behind his own goal. Dines went in at quarter in place of Jones, and casting aside all attempts at the new style game, Yale waded into the Harvard line and began to rip it up for steady gains. Reinforced by several fresh men, who were run in at this stage of the contest, the blues started a parade down the field and it looked like a certain touchdown for the Yale team, when the whistle ended the game with the ball project, Oregon.

Minnesota 8, Indiana 6.

Good Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of them who have tried it are willing to use any other. Mrs. F. F. Starcher. of Ripley, W. Va., says. "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic, and may be given as confidently to a child as to an adult. For sale by all druggists. Good Cough Medicine for Children.

Don C. Cameron, Healdsburg, Cal., Treas, Civil Service Reform Club, writes "I am glad to speak a word for Peruna to all those who are afflicted with catarrh of the lungs as I was for years, and for which I could find no relief until I tried your valuable remedy.

"I had no appetite and had lost much in weight and could not sleep at night. The slightest exertion tired me, and I had given up in despair. I always had a little hacking cough, my lungs felt sore, and my back ached.

"After taking two bottles of Peruna I felt so much better and looked so much better that my friends were both pleased and astonished. I continued taking the medicine until now I am perfectly well." A LL organs of the body are lined with mucous membranes. Any of these organs are, therefore, liable to ba-

RUSSIAN TALKS OF

DISPUTE ON FISHING RIGHTS IN AMUR RIVER.

Russia Prepares to Double-Track Siberian Railroad.

ST. PETERSBURG, Nov. 24 .- (Special.) -In the negotiations between members of the Russian-Japanese Commission sitting here, a note of fresh hostility between the Czar and the Mikado was sounded to-day. The Mikado's representatives maintain that the Japanese have a right to fish in the Amur River, because Japan owns property rights in the trans-Balkal and Ussuri regions. This is hotly disputed by the Russians, who point out that no such provision was made in the Portsmouth treaty.

Prince von Konsky issued a flery ap-peal tonight declaring the danger of another war and urging Russia to be better prepared than before. Japan is building four railroads, commercially unproductive, but strategically important, and erecting six forts and forming new diisions for its army.

The Russian general staff is urging the government to apply the law to the dou-ble-tracking of the Siberian and new Uzsuri railroads, arguing that a stronger fleet is not now available for Eastern service, as Japan would find some pretext for refusing to let Russian warships into Viadivostok harbor. The cabinet has practically agreed to this suggestion and Marshall, Mich.

has already submitted for the Czar's ap-

proval s project for a double track line 3000 miles long through the trans-Balkal region to the Ussuri raliroad. The government estimates that the cost of work would be \$120,000 a mile, and an American syndicate, headed by a Chi-cagoan, who insists that the rolling stock be made in America, will be one of the bidders. Should it be impossible to ar-range satisfactorily with foreign contractors, the government will build the rail-

What Sulphur Does

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY. The mention of sulphur will recall to

many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every Spring and Fall. It was the universal Spring and Fall 'blood purifier' tonic and cure-all, and, nind you, this old-fashioned remedy was not without merit.

not without merit.

The idea was good but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and expects. In recent years research and expert

ment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small choco-late-coated pellets and contain the active medicinal principle of sulphur in a highly concentrated effective form.

Few people are aware of the value of this form of sulphur in restoring and

maintaining bodily vigor and health; sul-phur acts directly on the liver and ex-cretory organs and purifies and enriches the blood by the prompt elimination of waste material. Our grandmothers knew this when they dosed us with sulphur and molasses

every Spring and Fall, but the crudity and impurity of ordinary flowers of sul-phur were often worse than the disease, Japan Building Railroads and Forts. and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Waters is un-doubtedly the best and most widely used. They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often patient and physician alike. Dr. R. M. Wilkins, while experimenting with sulphur femedles, soon found that the sulphur from Calcium was superior the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria. I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from bolls and pimples and even deep-sented carbuncles, I have and even deep-sented carolines, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article and sold by druggists and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constinction liver and kidney troubles and stipation, liver and kidney troubles and especially in all forms of skin diseases as this remedy. At any rate people who are tired of

Bees" will find in Stuart's Calcium Watere a far safer, more palatable effective preparation. Send your name and address today for
