TRAITS OF ALBERT OLEMAN DISCUSSED BY PHRENOLOGIST

Mrs. Jean Norris Ellis Says He Has Many Degenerate Signs, but Is More Excitable Than Criminal—Prenatal Causes, Perhaps.

MRS. JEAN MORRIS ELLIS visited Albert Oleman, the Columbia County boy murderer, yesterday afternoon in the Multnomah County Jail. Mrs. Ellis is a graduate of the New York School of Phrenology and has written character sketches of President Roosevelt, Hearst, Bryan and other men prominent in public life. She has lectured throughout the United States and Canada for the last 12 years. Mrs. Ellis was denied the privilege of taking measurements of the youthful criminal's head, but after her extended interview with the lad she discussed the case from a phrenological viewpoint in the following terms: "Instead of a brutal degenerate I found a boy of a sensitive, highly strung organization, with a fair degree of intellect but an abnormal excitability. Both are indicated in the form of the face, the hand and the head. Not being allowed to take any measurements, it is impossible to give a detailed scientific summing up of his character. He has a large development of destructiveness, and owing to that fact, and that his head is low in the moral region, he is one who should have been most carefully and gently nurtured. Instinctive or oppression would instantly arouse in him an uncontrollable desire for retaliation. The domestic qualities are deficient, as indicated in the formation of the back head, and there-

OSTEOPATHS ARE AMAZED BY FEATS OF "HUMAN RATTLEBOX"

Ellis Whitman, Who Dislocates His Ribs or Makes Stomach Disappear with Equal Ease, Performs in Portland.

WITH his double ball-bearing joints and ligaments, Ellis Whitman, who styles himself the "human rattlebox," demonstrated many methods of setting dislocations to the Oregon osteopathic Association last night at its meeting in Dr. Rogers' office in the Marquam building. He did stunts with his income-bearing construction that staggered even the profession, and nearly paralyzed a reporter who happened in just as he was removing his liver from under his collarbone. He does fancy stunts and hip dislocations of every known style and period, and throws the bones of his shoulders into a remarkable imitation of newly-fledged angel wings. Just for the fun of the thing to the professional delight of the doctors and to the horror of the erstwhile brave reporter the "human rattlebox" gave a few twists of the body, made several faces, and to the poor Indian had no stomach or abdomen. Where did it go? Well, that was what every one was trying to find out and when one of the doctors put the question to the human rattlebox, which sat in the middle of the floor with protruding ribs and his spinal column showing in front like the proverbial humpy man, he made wild contortions indicating that he could not talk on account of the absence of the missing

OUR GREAT OPPORTUNITY.

Our semi-annual Clearance Sale is now going on, and there are many bargains to be had in suits, coats, skirts, waists, millinery, etc. Le Palais Royal, 27 1/2 Washington street.

After serious illness Hood's Sarsaparilla imparted the strength and health to which he had been deprived.

"77" Humphreys' Seventy-Seven Cures Colds and GRIP

A new kind of Grip is prevalent. It is not the sneezing, coughing kind, but is just as bad if not worse than the heretofore familiar style of influenza. It starts with general weakness and chills in hands and feet, followed by a high fever. The temperature rises rapidly and the patient aches all over. The outbreak of Grip has been widespread lately, last week's damp weather having helped it along. The doctors say that the new style of influenza, without coughing and sneezing, has been the common variety this season.—Exchange. The use of "Seventy-seven" breaks up the Grip. At drug stores, 25 cents or mailed. Humphreys' Homeo. Medicine Co. Cor. William and John Streets, New York.
