

Campaign for Y. W.-Y. M. C. A. Building Fund Will Be Pressed

SOME Y. M. C. A. BUILDINGS OF 1906

THE citizens' committee of the Y. M. C. A. and Y. W. C. A. has its forces in array and will start the campaign tomorrow for the raising of the additional \$120,000 needed to complete the building fund. (Circuits issued by the secretaries of the Association tell of their work and of the interest taken in it by citizens of other cities. "It may seem to some that we are asking for a large sum when we try to raise \$120,000," said General Secretary H. W. Stone last night, "but in comparison with the schedule of the building values and population of other cities, our work is small."

Thirty-three speakers will deliver short addresses on the work of the Y. M. and Y. W. C. A. this morning at as many different churches, and the members of the various congregations will be asked to do all in their power in support of the building movement.

Records of the Association show that during the past year and a half every city west of Chicago of 75,000 inhabitants or over, with the single exception of Minneapolis, has raised a large sum of money to replace old buildings with new equipment, as well as many cities of the East. Following is given a table of cities with their population and value of Association plant just completed or in process of erection:

City	Population	Association Property
Los Angeles	225,000	\$150,000
Detroit	355,000	600,000
Buffalo	380,000	225,000
Dayton	100,000	475,000
Washington, D. C.	320,000	415,000
Tulsa	170,000	115,000
Syracuse	110,000	391,000
New Haven	125,000	350,000
Omaha	125,000	320,000
Scranton	125,000	225,000
St. Paul	200,000	350,000
San Francisco	350,000	700,000
Houston	80,000	200,000
Salt Lake City	80,000	225,000
Seattle	120,000	350,000
Portland Y. M. C. A.	170,000	317,500
Portland Y. W. C. A.	150,000	112,500

\$230,000 Already Subscribed.

"Portland already having raised \$230,000 towards this necessary \$350,000 fund, it would be a civic disaster to lose the entire movement for the lack of the remaining \$120,000 necessary," said an officer of the Association yesterday. "While it would be a great relief at this time if some wealthy person or persons would come forward and pay this entire amount there is absolutely no prospect that such will be done, and if it can be secured by a general canvass it will surely be much more desirable. So it remains for everyone who is interested in seeing these buildings erected in this city to have a part by giving and working to secure the necessary amount."

The following facts in respect to the

Young Men's Christian Association tell of its growth and work:

The present building was more than outgrown over two years ago, since when the city has continued to increase as never before and the largest per cent of addition to the population has been young men who need the advantage of just such kind of an institution most.

There are 187 members—50 more than one year ago.

The Portland Association does the largest educational work of any Association in a city of its size in the United States. There are 65 different students in the educational classes last season. This year the number will be close to 80, giving it a larger number of students than any college or university in the state. The young men who secure these advantages and privileges pay from 70 to 80 per cent of the cost of these advantages, while the sons of a wealthy man, who go to Harvard and Yale, pay less than 15 per cent of the cost of their education.

The physical department of the Portland Young Men's Christian Association had about 1000 different men and boys registered in gymnasium classes during the past year, making it the largest athletic or physical culture organization of any kind on the Pacific Coast.

The boys' department has 455 members and is the largest boy club or organization west of Chicago.

Work of Y. W. C. A.

For six years the Young Women's Christian Association has furnished a homelike luncheon room, a well-equipped reading-room and rest rooms that have been visited daily by over 200 women and girls. Many a one has been too ill to do more than rest on a couch attended by some ministry from one of the churches, and has found these rooms a refuge indeed.

The magazines on the reading-room table have been a source of much pleasure and profit to many a girl.

"The luncheon room, with its pleasant companionship with other young women, and freedom from the temptation of forming harmful restaurant acquaintances, has been truly a blessing. No public building in the city is used more constantly than the rooms of the Y. W. C. A. Offices, libraries, halls, dining-room, rest rooms and pantry aside from their normal uses are at night converted into centers of activity, being used as class rooms or transient bedrooms. This dining-room becomes an audience room or reception hall, as occasion demands.

One will find in this busy beehive at noon more than 200 girls for lunch or rest or reading. In the evening many girls are learning to make their shirwaits, dresses and hats—foreign girls

are studying English, American girls are learning foreign languages, artistic girls in mandolin and guitar clubs.

EDWARD W. LANDER DIES
First Chief Justice of Washington Territory Reaches 90 Years.

WASHINGTON, Feb. 2.—Hon. Edward W. Lander, the first Chief Justice of the Territory of Washington, a veteran of the Mexican War, and for ten years president of the Harvard Club, of this city, died here today, aged 90 years.

William Henry Flack was born at Salem, Mass., August 11, 1816, the son of Edward and Eliza Lander. In 1838 he graduated from Harvard, and in 1838 received the degree of Master of Arts. In 1839 he received the degree of Bachelor of Laws. He removed to Indianapolis in 1841 and was prosecuting attorney for eight counties, including Indianapolis. He later raised a company and served 14 months as Captain of the Fourth Indiana Volunteers in the Mexican War.

Governor Wright in 1853 appointed him as Judge of the Court of Common Pleas, and at the next session of the Legislature he was elected for the full term of office. On March 17, 1853, he was appointed by President Pierce as Chief Justice of the Supreme Court for Washington Territory, and in 1857 declined to be re-nominated. Judge Lander at one time intended to practice law in San Francisco, but he sustained an injury to his spine, from which he did not recover for years.

All-Brass Bed Special

We are now showing a sample from our all-brass Bed line, quoted at an unusually low figure. A superior quality of material is used in making all our brass beds, from the lowest to the highest priced patterns. Our standard finish is the highest grade gold lacquer obtainable, and we guarantee its lasting qualities. We employ special finishes—such as satin or polet. The satin finish is a Roman gold effect throughout, is very pleasing to the eye, and of lasting durability. The polet is a combination—the pillar mounts, vases, husks, rod-ends and castings, have the standard gold lacquer finish, while the pillars, rods and scrolls are finished in satin.

This number—6036—has the polet finish. It is exactly like cut; full size; has 2-inch pillars capped by 4-inch husks and 3-inch ball vases; size of top tubes, 1 inch; other tubing 3/4-inch; height of head, 64 inches; foot, 43 inches; weight 190 pounds. A beautiful bed, and one worthy of a place in the finest Nob Hill mansion. You are not required to pay \$60 for this golden beauty, but only Gevurtz' low price, which is... **\$38.00**

Professor Mendeleff, Chemist.
ST. PETERSBURG, Feb. 2.—Professor Mendeleff, the celebrated chemist, died here this morning.

Professor Dimitri Ivanovitch Mendeleff received last year at a meeting of the Royal Society, London, the Copley gold medal, esteemed among chemists as being a high honor. He was born in Siberia in 1834, and in addition to being a distinguished chemist, was a geologist, philosopher and educator. In 1871 he foretold not only the existence but the general properties of three new chemical elements, each of which is now in the table of elements under the names of gallium, scandium and germanium respectively, thus it has been stated, "justifying his own words that the periodic law would permit the invisible to be seen and the unknown to be known."

DO NOT LIKE TARIFF RULE
Eastern Roads Object Vigorously Enough to Get New Hearing.

WASHINGTON, Feb. 2.—Serious objections have been made by Eastern carriers to the regulations promulgated by the Interstate Commerce Commission governing the construction and filing of freight tariffs and classifications of passenger tariffs. In view of the importance of the question, the Commission has decided to give a further hearing to those interested on February 28 at Washington. These rules relate to posting all through and joint tariffs by the initial carrier and other matters incidental thereto.

Can't Annual Pass Contracts.
LOUISVILLE, Feb. 2.—Judge Walter Evans, in the Federal Court today, overruled the demurrer of the Louisville & Nashville Railroad Company to the petition filed by Erasmus and Annie A. Motley for enforcement of a contract by which the company agreed to issue annual passes to the plaintiffs during their lifetime.

The court says that the new rate law, by reason of which the railroad declined to issue the passes as agreed, should be construed as if it expressly excluded from its operation the complainants' contract. In no other way could the contract rights of the complainants be preserved.

The general tenor of the opinion is to the effect that Congress did not intend to annul previously made contracts.
