

LAWYERS IN SESSION FOR TWO STATES

Committees of Washington and Oregon Legislatures in Conference.

TWO MEASURES LAST NIGHT

One Relates to Weekly Closed Season; Second to Longer Closed Periods in Spring and Fall.

Legislation providing for a weekly closed season and slightly longer closed periods than at present in the Spring and Fall, will be recommended to their respective Legislatures by the special committees on fisheries from the Oregon and Washington Legislatures as the result of a conference of these committees that was held at the Hotel Portland last night.

For Uniform Legislation.

The purpose of the meeting was a discussion of the interest of the two states in salmon fishing in the Columbia River and the tributaries of that stream in both states in order to agree on legislation on the subject that will be jointly enacted by the Legislatures of the two states.

Ed Rosenberg, secretary of the Pacific Coast Fishermen's Union, made the opening address and the resolutions of the committee were adopted.

Van Dusen's Recommendation.

The recommendation of Master Fish Warden Van Dusen in his annual report, that fishing be prohibited within ten miles of Celilo Falls as the best means for promoting the work of hatcheries on the Upper Columbia, was the subject of a severe cross-questioning of that official by Senator Wheelodon, of the Dalles, who also attended the conference.

Weekly Closed Season.

Superintendent Crawford, of the Washington fish hatcheries, expressed his belief that a weekly closed season would prove of great benefit, particularly to the hatcheries below Celilo Falls.

ROME, Feb. 2.—Bishop Bonacum, of Lincoln, Neb., who arrived here recently to present to the congregation of the Nebraska Supreme Court, today presented

Colossal Impudence

This paper recently published the following formula for the immediate relief of coughs and colds, given out by a prominent Philadelphia throat and lung specialist: "Mix half-ounce concentrated oil of pine, two ounces of glycerine, half-pint of good whiskey, shake thoroughly and use in tablespoon doses every four hours."

Two patent medicines have recently sprung into existence, using a similar name, and one was so concocted to make the assertion in an advertisement recently that the concentrated oil of pine was an imitation of their goods. There is not much to be said against such audacity except that it is to be hoped that the public is too intelligent to be gulled by such an imposition.

Many Bodies Still in Mine.

CHARLESTON, W. Va., Feb. 2.—With the coming of the fourth day since the Stuart mine disaster, full details of the explosion were still lacking. Owing to the failure of gas in the mine a full investigation has not yet been possible, but there seems no doubt that 15 or 20 more bodies await recovery, while 64 have already been recovered. This will make the death list greater than in any previous mine explosion in this state.
