Vials of Wrath Poured Out at Increase in Rates to Bay Points.

CHAPIN BILL IS INDORSED

Protective Organization of Millmen to Be Formed-Indignant Resolutions Demand Retention

of Old \$3.10 Rate,

COTTAGE GROVE, Or., Feb. 3.—(Special.)—The large delegation that gathered this afternoon, in response to the call of the Cottage Grove Commercial Club, to the lumbering and other shipping interests of Central Oregon, indered the Chapin bill, with its railroad commission feature, depended retention of the old feature, demanded retention of the old rate on lumber to Bay points, named a committee to prepare for a protective organization of Willamette Valley lumbermen, and passed stinging resolutions aimed against Harriman methods. The meeting was called to order by President

Hinds of the club. Hinds of the club.

On account of the delayed trains of the Southern Pacific many who intended participating were unable to be present. They showed their interest by sending letters, telegrams, and telephone messages, and promised that they could be trailed upon and would give the matters in question their moral support. The Chapin bill creating a railroad commission was brought up, and the situation sion was brought up, and the situation discussed at considerable length, to-gether with the announcement of the Southern Pacific of a raise of rates o \$2.18 per thousand to San Francisco and other Bay points. It was the unanimous sentiment that the Chapin bill as amended be passed, and that strong representa-tion be made to the Legislature, demand-ing the passage of this measure. The lumber conditions which prevail in

the lumber conditions which prevail in the Willamette Valley are very serious, and unless relief in the shape of cars and maintenance of the present \$3.16 rate is assured, the result will be very grave, say the lumbermen. There is a large amount of lumber in the Willamette Valley, and unless the Southern Pacific Coney, and unless the Southern Pacific Con pany furnishes care to move this lumber before the advanced rate of \$5 per ton goes into effect, on April 15, it will mean a heavy loss to the mills, which have sold on a delivered basis. Probably never was more real deep earnestness manifested at any similar meeting in Oregon than was shown tonight.

fore a jury. The application for the writ was made by Will H. Thompson, tather of the boy, appearing for his son. The application is an appeal from the order of Judge Snell refusing a jury and fixing February 25 as the date for a hearing as to Chester

Thompson's sanity without a jury.

The affidavit upon which the writ is based was made by Maurice Thompson, brother of the accused. In the affi-davit Chester is described as an "inane person of suicidal disposition and dangerous to his own life and danger-ous to be at large." His mental de-rangement is described as an insanity "of a recent and curable character," and he should "be sent to and confined within the hospital for the insane and accorded proper and necessary treat-

MONMOUTH MID-YEAR CLASS

Commencement Exercises Conducted at the State Normal.

MONMOUTH, Or., Feb. 3 .- (Special.) —The midyear commencement exercises at the State Normal were begun Friday night by the presentation of the play, "Mr. Bob," preceded by a very pleasant farce. The plays were given by the Normal Dramatic Club, and were appreciated by a large audience. The players all acquitted themselves very creditably, showing careful prepa-

Yesterday evening a reception was given by the junior class in the Assembly Hall. The room was decorated with ivy and Oregon grape and the ceiling was hung with the class colors, orange and black, in large festoons forming the letters, "Junior '08." Several cozy corners were arranged where light refreshments were served.

Miss Squires, an elocutionist from Salem, rendered some pleasing numbers and responded to encores. Some especially good numbers by members of the class were also given. The numbers were interspersed with grand marches, for which the Normal orches-tra supplied the music. The evening was enjoyed by the students and townspeople.

VICTIM OF SWOLLEN CREEK

YOUNG MAN DROWNS WHILE WARNING RANCHER.

Bank of Creek Gives Way and Youth Is Carried Down Swift Stream to His Death.

GOLDENDALE, Wash., Feb. 9 .- (Spe. cial.)—The remains of George Head, who was drowned in Chapman Creek, at the Lyons ranch in Eastern Klickitat last will be sent to Glenwood tomorrow for in-terment. Mr. Head was a nephew of George W. Bowen, of that place.

George Head was a young man in the employ of Mason Bros. and lost his life n an attempt to assist a rancher, who with his family was about to cross Chapman Creek, which the melting snow had made a raging torrent. Young Head had crossed Chapman Creek a few minutes before on horseback, and, looking back. saw the rancher coming. He at once turned and rushed back to the creek to warn the rancher of the danger. While talking to the rancher, the bank on which his horse stood suddenly gave

way, throwing him and his horse into the stream. He got clear from his horse and drifted down the stream a short distance where he caught hold of some The rancher took the lines of his har-

Mother Slides Down Pump Pipe and

Saves Child. PORT ANGELES, Wash., Feb. 9.-To fall down a well 37 feet deep and escape uninjured was the experience of little Betty Cross, 2-year-old daughter of Mr. and Mrs. D. T. Cross, of this city. The child was playing in the yard of a neigh-bor where there is an abandoned well, covered with loose and rotten boards. In some way the child fell through the boards. The mother was ill and was ly-ing down at her home when the alarm was sounded. She called for assistance, and as this did not arrive soon, she made a daring descent down the pump stock, standing in the well, and was rewarded for her bravery by finding her child stand-ing in eight inches of water at the bottom of the well. Assistance soon arrived and a rope was lowered and baby and mother pulled out in safety. The baby was un-injured; the mother sustained a few bruises and nervous shock.

A Reputation Worth While.

Chamberlain's Cough Remedy has been on the market for one-third of a century. Starting from a small beginning, it has grown in favor and popularity until the demand for it often requires shipments in carload lots. It is now on sale at almost every drug store and most country cross-road stores in the United States. There is no question as to its merits; in fact, the enormous sale on it has been brought about to a large extent by the personal recommendations of people who have been cured by it. When you use a remedy for a cough or cold and find it far superior to any other that you should tell your friends of your good fortune. It has become the mother's favorite for coughs, colds and croup, as they found that it can always be depended upon and that it contains no oplum or other harmful drugs. During these years in which we have been making, selling and using this preparation we have never known of a single case of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used, which leads us to believe that it is a certain preventive of that disease. The fact that it can be depended upon in every case has crowned it with the success it enjoys.

Three Days of Thawing Loosens Monster Gorge in Big Eddy Above The Dalles.

WASHOUTS BLOCK O. R. & N.

First Mail Train in Week Reached The Dalles Last Night and Over a Ton of Portland Newspapers

Are Distributed in the City.

THE DALLES, Or., Feb. 2 .- (Special.)-Three days of steady thaw with much fog have made deep inroads into the snow in this city, and this afternoon started out the gorge in the Columbia River.
All day yesterday channels were cut into the ice field, the leebergs piling up many feet high as they came down stream from the big eddy and crashed into the pack here. Fortunately for the craft on the city front, a deep channel cut through along the south bank floated the ice down stream and freed the wharves and boats.

The Dalles City reached here tonight and will start for Portland tomorrow morning. The first train bringing mail from Portland came through tonight, over a ton of Portland daily papers being distributed about town today.

By the washing out of a bridge near Arilington the O. R. & N. lines east of here are again tied up, two trains being held here today with fair prospects of getting through tonight.

The Dufur, Shaniko and Condon branches are still out of commission, with more or less serious washouts. All creeks are out of their banks and the canyons full of water.

BOY DROWNS AT YAKIMA.

Lad Tries to Ford Swollen River. Bridges Are Washed Out.

NORTH YAKIMA, Wash., Feb. 9.-(Special.)—Floods continue to work havoc throughout the lower Valley as a result of the melting snow in the hills. The bridge across the Yakima at Mabton was Tuesday, were brought to Goldendale and will be sent to Glenwood tomorrow for interment. Mr. Head was a nephew of George W. Bowen, of that place. already gone, and the Union Gap bridge is in danger. While the Yakima River at this place is not high, all the small streams below here are torrents and they will swell the Yakima over its

banks.
Roy McMurray, on his way home from this place, was drowned while attempting to ford the Satus on the road to Klickitat County. He swam across the stream on his horse to test it for fording and on returning the horse slipped and he was carried down stream. The body was recovered at the point where the Satus joins the Yakima.

The railway between here and Pasco is still out of commission on account of another washout that occurred last night helow Prosser. This makes the third washout near the same place during the week. Beyond Lind, in Adams County, there is another washout. West of here the railway is in good

shape, and the snow is melting slowly.
All the bottom lands along the Toppenish Klickitat, and highly esteemed by all who and Satus creeks, and for miles along the Northern Pacific near Prosser and below Kions, are flooded. The country flooded and much hay is surrounded by water.

Three Hundred Men Shoveling Away Snowslide at Onconta,

CASCADE LOCKS, Feb. 9 .- (Special.) -Three O. R. & N. trains reached here yesterday from the East. Passengers, baggage and mail were transferred at Bonneville to steamers which complet-ed the Journey to Portland. Yesterday no mail had reached here from Portland since the disastrous storm Sunday last. Three hundred men with shovels are at work removing the big slide at Oneonta, a few miles this side of Multnomah Falls. The snow is melting slowly and in the absence of a chinook there is no immediate danger of high water in the Columbia. The river rose 6 inches yesterday. The locks are in working order and boats are passing freely through the canal. There is scarcely any ice floating in the river.

One of our counsel who is a thorough scientist and has studied and practiced in the first colleges and hospitals of America, and who is one of our medical council, says as follows:

The causes for Atrophy in men are: 1st, Man is born so. 2d. Caused by abuse. 3d. Caused by varicocele. 4th. Caused by excesses. 5th.

There is no one branch of medicine which deserves more careful and conscientious treatment than that of Atrephy.

There is no subject in the whole field of medicine that the general public has been so grossly deceived in as that of Atrophy.

Most all of the mechanical devices so widely advertised that the public has been deceived into buying for the cure of Atrophy or small, weak parts—have proven not only uncless but injurious.

The only correct theory to overcome Atrophy is to direct a fresh and active circulation of blood to the parts, thereby supplying them with nerve foods and tissue builders; then warmth and vigor will follow, numbness and feebleness give way to that of increased circulation and nerve energy. nerve energy.

The theory advanced by us is only common sense. It must be right, judging from the many hundreds of letters we are continually receiving from grateful patients we have treated successfully.
