WESTERN ROADS IN INTER-STATE COMMERCE CASE.

Southern Cotton Manufacturers Allege Discrimination in Rates to the Court-Other Roads Sued.

ATLANTA, Ga., Feb. 16 .- Claims for excess transportation charges aggregating more than \$1,000,000 will be filed with the Interstate Commerce Commission at Washington on Monday by R. J. Southwell, of Augusta, who represents five big trading companies of New York as fol-lows: China & Japan Trading Company, Limited; American Trading Company, A. Norden & Co., Karbering & Co. and

Fearon, Daniel & Co.
The defendant companies include the filinois Central, Louisville & Nashville, Nashville, Chattanooga & St. Louis Rallway, Texas & Pacific, Mobile & Ohio, M. K. & T., A. T. & S. F., Southern Pacific, Great Northern, Northern Pacific, Union Pacific, O. R. & N., O. S. L., Canadian Pacific, Great Northern Steamship and Occidental & Orlenta Steamship Company, besides roads in this

The main purpose of the claim is a fight against rate discrimination on cotton goods. The petition shows that from points in eight Southern states to Chinese and Japanese ports the rate is \$1,25 per hundred, while from New England cotton manufacturing centers it is \$5 cents per hundred. The plaintiffs hope to have these rates equalized, as well as to re-

cover money already paid.
Cotton manufacturers here say that if favorable the decision will mean millions of dollars to the South. The South now has three-fourths of the Oriental trade in cotton goods, and this is one of a series of moves to bring about uniform conditions. conditions. The ports mentioned in the petition through which it is alleged the rates are excessive are San Francisco, Scattle, Portland and Vancouver to Tokio, Shanghai and common Oriental ports.

OMAHA, Feb. 16.-The Interstate Com OMAHA. Feb. 16.—The Interstate Commerce Commission is to investigate the relationship between the Western Union Telegraph and Postal Telegraph Companies on the one side and the packing-houses, grain firms and other business houses throughout the country, which have heretofore had special telegraph wires and special operators furnished them. This morning all through wires of this description were discontinued here and only "pony" wires running from these offices into the main telegraph offices offices into the main telegraph offices were left. The operators maining those wires from the packing-house ends are now employed by the packing-houses and not by the telegraph companies. The In-terstate Commerce Commission is said to have taken the position that furnishing the large customers of the telegraph com-panies with facilities denied the smaller customers was in fact a discrimination and an investigation is demanded.

#### FRENCH CABINET DIVIDED

Clemenceau and Briand Clash on Church Separation.

PARIS, Feb. 16, Just as an agreement regarding terms on which the churches of France could be leased to the Catholic clergy was about to be reported between representatives of M. Briand. Minister of Education, and Cardinal Richard, arch-bishop of Paris, an agreement involving a settlement of the most acute phase of the religious conflict, a ministerial crisis has learned up on the horizon and it is now doubtful whether Premier Clemenceau's cabinet will survive the coming week.

The Premier left a sick-bed today to attend a cabinet meeting. He insisted that the Cabinet alone should not assume the responsibility of authorizing the form

of contracts. The Premier doubted that a parliamentary majority would approve those contracts and in any event he insisted that Parliament must be given an opportunity to express its opinion before the government commits itself. The Premier said he was fully aware of the plots of the followers of M. Combes and other groups and, as an old parliamentary fighter, he argued that it was better to secure the consent of Parliament in ad-

He declared also that he was ready him self to go into the chamber Monday and submit an interpellation of confidence in

It is understood that M. Briand took sharp issue with his chief after the adjournment of the Cabinet. It is said that he intends to submit his views to his colleagues and that Tuesday either he or M. Clemenceau will resign. The situation is complicated by the

fact that the powerful financial in-terests which bitterly oppose the in-come tax scheme would join any combination to overthrow the present Min-

bination to overthrow the present Min-isters and that the Clerical right natur-ally would be overjoyed to dangle M. Clemenceau's scalp at its beit. Extraneous issues aside, a majority undoubtedly would support M. Briand's conciliatory policy and if M. Clemen-ceau falls either M. Briand or Ex-Pre-mier Sarrien is considered most likely to succeed him. to succeed him.

At a late hour tonight, a semi-official statement showing the seriousness of the situation was given out, but in spite of this the best judges in parlianentary circles consider a crisis inev-

## RAILWAY PAY Charcoal Stops Gas on Your Stomach

coal When Taken in the Form of Stuart's Charcoal Lozenges.

Charcoal, pure, simple charcoal, absorbs 100 times its own volume of gas. Where does the gas go to? It is just absorbed by the charcoal—the gas disappears and there is left a pure, fresh, sweet atmosphere, free from all impurities and germs. That's what happens in your stomach when you take one or two of Stuari's Charcoal Lozenges, the most powerfu purifiers science has yet discovered. You belch gas in company, sometimes

by accident, greatly to your own humilia-tion. That is because there is a great amount of gas being formed in your stomach by fermenting food. Your stom-ach is not digesting your food properly. Gas is inevitable. Whenever this happens, just take one or two of Stuart' Charcoal Lozenges right after eating, and you will be surprised how quickly they will act. No more belchings; no more sour risings. Eat all you want and what you want, and then if there is any gas going to be formed, one of these wonds ful little absorbers, a Stuart Charco Lezenge, will take care of all the gas.

And it will do more than that. Every particle of impurity in your stomach and intestines is going to be carried away by the charcoal. No one seems to know why it does this, but it does, and does it wonderfully. You notice the difference in your appetite, general good feeling, and in the purity of your blood right away.

You'll have no more bad taste in your mouth or bad breath, either from drink-ing, eating or smoking. Other people will notice your bad breath quicker than you will yourself. Make your breath pure, fresh and sweet, so when you talk to others you won't disgust them. Just one on second-class matter, but he added that the had or two Stuart's Charcoal Lozenges will observed an absence of fair investigation on the part of certain newspapers in criticizing the findings of the Commission.

and no barm will result. It is a wonderful easy regulator.

And then, too, it filters your bloodevery particle of poison or impurity in your blood is destroyed and you begin to notice the difference in your face first thing-your clear complexion. Stuart's Charcoal Lozenges are made from pure willow charcoal, and just a

little honey is put in to make them palatable, but not too sweet.
They will work wonders in your stomach, and make you feel fine and fresh. Your blood and breath will be purified. We want to prove all this to you, s just send for a free sample today.
