However, each one must make choice and pay the bill. The one who can let out coffee when it is known to be slowly setting up disease of some of the organs is worthy of praise.

The change from coffee and its aches and ails to well-made Postum with its comfort and health, is really quite easy, for the deep seal brown of Postum changes to the rich golden brown when cream is added and the flavor (when made according to directions). is very like the mild high grades of Java coffee. But the change drives out the coffee troubles and the old condition of comfortable health returns.
