House Members Will Draw \$9705.45 From the State.

MILEAGE THE BIG ITEM

King, of Harney and Malheur, Allowed \$149.10 for Traveling Expenses - But Marion Members Get Only 20 Cents.

SALEM, Or., Feb. 16. - (Special.) -The per diem and mileage allowances of the members of the House for this session, as reported by the committee on salaries and mileage and adopted by the House today, aggregate \$9705.45. Representatives Merryman, Jones of Clackamas and Adams constitute the committee making the report. The greatest amount drawn by any one member will be by Representative King, of Harney and Malheur, who, in addition to his per diem of \$129, receives a mileage allowance of \$149.10 for the 994 miles he travels between Ontario and Salem and return, or a total of \$183.10. Representatives Rodgers and Reynolds, of the Marion County delegation, receive the smallest amounts, each getting but \$129 per diem and 30 cents mileage.

When the report had been read, Wilson of Multnomah moved that the item of \$15.96 for mileage, following his name, be amended to read \$1.65. There was no second, and Speaker Davey auggested that the gentleman from Multnomah could adjust that matter with the State Treasurer. "The mileage allowance of Representative Simmons, of Marion," remarked Settlemier, "is seven miles short."

"I am perfectly satisfied," spoke up

Simmons, "and will walk the additional seven miles." "The committee is also slightly in error in computing my mlieage," remarked Carter of Benton, "but I will so along and keep Mr. Simmons com-

Mrs. Miller's New Residence, Earned in Less
Than One Year.

Several years ago Mrs. Miller learned of a milld and simple preparation that cured herself and several friends of female weakness and piles. She was besleged by so many women needing treat, ment that she decided to furnish it to those who might call for it. She started with only a few dollars' capital, and the remedy, possessing true and wonderful merit, producing many cures when doctors and other remedies failed, the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred cierks and stenographers are required to assist in this ographers are required to assist in this great business.

Neglected Colds in Children and Their Results.

Neglected Colds in Children and Their Results.

Colds are the special banes of childhood, and often lay the foundation for the more scrious diseases of after life.
One child catches cold and scares its mother into hysteries by having croup in the dead of the night.

Another child catches cold and before it has hully recovered from it, takes another cold, and perhaps before that is over contracts a fresh one. This succession of colds, or even the neglect of a common cold, causes the inflammation of the mucous membrane, which was at first acute to become chronic, and the doctor will tell you that the child has chronic catarrh, from which it will never fully recover.

Another child catches cold. Little attention is paid to it, as the child has often had colds and always recovered from them, but in this instance a stubborn cough is developed. The parents are filled with forcebodings.

Still another child catches cold, and could easily have been cured by proper treatment, but being neglected, develops the most fatal malady of childhood, pneumonia. The doctor is called and pronounces it lung fever, and if the child is lucky enough to live it has developed weak lungs, making it susceptible to all lung diseases.

State Outlines Its Case-Mother of Murdered Man Takes Stand-Defense Makes Denial, but Refuses to Show Hand,

WALLACE, Idaho, Feb. 16.-Today Steve Adams is facing the completed jury which will decide whether he is guilty o innocent of the murder of Fred Tyler, the timber settler. The State has about 18 witnesses to present evidence, while the defense is known to have at least 22 Whom some of the latter will be is known, the defense having demanded the privilege of summoning a number without disclosing their names to the State. The prosecution's witnesses will present mainy circumstantial evidence, backed by Adams' alleged confession of the murder While the defense has refused to out line its case further than to make gener al denial, it is expected to resist the in-troduction of his confession with all its power on the ground that Sheriff Sutherland used improper means to obtain it and that if Adams made any confession to Detective McParland it was made

under duress and was untrue.

Adams, the prisoner, sits in court with his wife by his side day after day, listening closely to the arguments, now and then conferring with his attorneys, but apparently not worried about his fate. Confinement in jail does not seem to have affected him, and he is in a mood to laugh heartly when anything amusing occur-in Court,

Even should the verdict go against him, it is assumed the fight would be only be-gun, as the defense is already shaping its grounds in which to appeal or demand a

one of the notable exceptions already taken is to Judge Woods' ruling that a member of the Western Federation of Miners could be excluded from the jury on challenge for cause. The defense contended that it would be as reasonable to reclude a man because he were a Filt exclude a man because he was an Elk.

The state outlined its theory of the murder of Fred Tyler at this morning's session of court. Attorney Knight, for the state, told how Tyler went into the new country near the St. Joseph River in the Spring of 1994 and took up a tim-ber claim; how strife for the timber lands had arisen among the settlers, some of whom had banded themselves some of whom had banded themselves together to gain certain ends; how at least one settler had been warned to get out of the country. About August 19, the state alleges. Tyler went fishing, and, on his way home, stopped at the home of a neighbor named Phillips; after supper he started to his cabin and was never

ABERDEEN IS BY NO MEANS UNITED ON THE SCHEME.

Division of Chehalis Would Entail Big Expense Is Argument Put Forth by Opposition.

ABERDEEN, Wash., Pab. 16 .- (Special.)-Aberdeen would be as likely a place to breed the Cuban revolutionary spirit as anywhere in the United States.

Hardly had it recovered from a long fight over the proposition to remove the county seat from Montesano to Gray's Harbor, in which it was defeat-ed, than the people are again stirred up over a plan to divide the county. This turnoil is created jargely by local politicians with seemingly no interest

politicians with seemingty no interest except to keep the people in a constant state of turmoil.

An outsider would be led to believe that there is no opposition to the scheme, from the fact that the Chehalis County legislative contingent is unanimous on the question, that little or nothing is said against division by the newspapers, and that division was the only sentiment at the recent banquet given the Governor and members of the

Legislature. But the fact is that there is a great deal of opposition, and it is best repre-sented by such men as ex-Mayor West E. F. Jones, Banker Miller, A. L. Coats

After the bill is there will be a necessary majority of signers of voters favoring the proposition, and between the probable passage of the bill and the signing of names, it is possible that a big effort will be made to enlighten the people very ma-terially as to whether division or non-division is best for the interests of the entire people of the county and particularly of Gray's Harbor.
