Onion Men Profit by San Francisco Conditions.

HIGH PRICES ARE PAID

Tualatin Farmer Receives \$1.50 Per Sack for Carload for Shipment to California_Break in

the Egg Market.

The onion growers who are members of the Confederated Association felt good at the weekly meeting yesterday. The bulge in the San Francisco market has caused much higher prices here and one sale at \$1.50 was reported, which is the highest price received so far this season. This figure was paid for a carload at Tualatin which was shipped to San Francisco, An other lot of 150 sacks was sold to go on the teamer at \$1.12%. Only 2000 sacks are left in that section

Cedar Mills reported a car sold for San Francisco by a grower not a member of he association at 70 cents. The quantity left there is 1700 sacks.

Sherwood sold a car to California at \$1.10 and another lot of 240 sacks for teamer shipment to San Francisco and has 1500 sacks left.

Nothing was sold during the week at Milwaukie, where only 700 sacks remain. Hillsbore and Gaston are out of enions Shells has about 700 sacks and there is a arload at Cornelius. No sales were made at either place since the previous meeting.

TUMBLE IN THE EGG MARKET.

Northern Cities Now Get Eastern Supplies and Do Not Want Oregons. The bottom seemed to fall out of the egg

market yesterday and before the day was losed purchases might have been made at 20 cents or under. Arrivals were heavy and the local demand light. A few small lots were shipped out of town, but it was difficult to get orders at the prices quoted. Offers to Seattle at 1914 cents were turned lown and word was received from there that nothing over 19 cents would be considered. It was said that ten cars of Eastern eggs are due to arrive in Scattle in a day or two, which means that Oregon ship pers will have to compete with Eastern prices in order to dispose of their surplus. At the rate that local eggs are coming

nto this market nothing can prevent further decline. When the price reaches the storage figure, which will be considerably below the present quotation, supplies will go into the coolers, and until that time comes the decline is not likely to be

NOT ENOUGH VEGETABLES RECEIVED. Steamer Lot Is Disposed of in Short Order.

The California steamer's produce was no delivered until noon, but the late hour did not prevent the entire cleaning up of the eceipts, and twice as much could have been handled. Bhubard sold lower than the pravious lets, \$1.75@2 per box, and as-paragus was generally quoted at 12% cents per pound. A quantity of oranges was received and found a very firm market, up to \$3.50 being saked for the best offerings.

The Elder, which is due tonight, will bring fresh supply of truck and another lot will be in on the Columbia Wednesday, so the shortage in the coming week will not be

More Butter Is Available.

The warmer weather has brought about a noticeable increase in receipts of cream and some of the city creameries now find quirements. Arrivals of Valley butter were also more liberal yesterday, and some of the handlers found it nece late. A fair quantity of California butter was also received yesterday, and this, with 400 the better local receipts, relieved the strain moderately firm, as the demand is very

Firm Demand for Potatoes.

potate market yesterday. Buying was being vigorously prosecuted at firm prices. Shippers are making every effort to get supplies to San Francisco while the present

Fresh Reports Cause Higher Prices for Wheat.

GOOD ADVANCE AT CHICAGO

Cash Houses Are Liberal Buyers and Shorts Are Forced to Cover. Strength in the

Corn Pit.

CHICAGO, March 30.-The wheat market today ruled firm and higher throughout. The depressing factor at the opening was iberal receipts in the Northwest. A raily quickly took place, however, on reports of bug damage from the Southwest. As the session advanced these reports increased and the market continued favorable until the close. Cash houses were good buyers broughout the day, and just before the throughout the day, and just before the close shorts were driven to cover actively. The close was strong. May opened at 754 \$75\%c, sold between 75\%c and 764\%c and closed at the high point, \$4\%c\$ higher. The corn market displayed considerable strength today, but largely in sympathy with wheat. The announcement upon the Board that navigation will shortly open also caused strength in the market, it being expected that many large orders for shipment caused strength in the market, it being expected that many large orders for shipment will be placed as soon as it is known that boats are actually passing through the Straits of Mackinaw. The close was firm.
May opened a shade lower at 45%c, sold between 45%c and 46%c and closed %6%c

higher at 46%c. higher at 46%c.

The oats market was fairly steady all day with a fair amount of trade. More selling pressure was exerted upon the more distant months, but no declines followed. May opened at 42%c, sold between 42%c and 43c and closed %c higher at 42%G45c. Provisions opened firm, on a strong hog market. Parkers were good buyers early market. Packers were good buyers early in the day, but later a portion of the advance was lost on realizing by local longs. May pork and lard were 5c higher and ribs 2% \$5c up at the close.

Cheer Up Old Man, "The Worst Is Yet to Come."

READ WHAT THEY SAY

SECRET AND RAPID

I am able to say from experience that the Automatic telephone service is far superior to a manually operated system. It is easier to make an automatic call than a manual one, and not only is the service secret, but it is not subject to interruptions from the central office and the disconnection is instantaneous if one desires to make another call immediately.

CALVIN D. WRIGHT.

President of Council, Dayton, Ohio.

AUTOMATIC TAKES LEAD

Lincoln is now enjoying competition in the telephone business. We are able to get unlimited service to 10,000 phones in Lancaster County for what it used to cost for miserable service to about 2009 phones. We use the Automatic for about 20 per cent of our business.

We use the Automatic for about 30 per cent of our business.

We use the Automatic for about 70 per cent of our business.

POSTAL TELEGRAPH CABLE CO., GRAND RAPIDS, MICHIGAN.

I take pleasure in saying that the service given us by the Citizens' Telephone Co. since the installation of the Automatic equipment is far superior to any ever had. We get no complaints from customers because our phones are not answered when they call, as our bell rings, whereas under the old system the ladies after asking "What number" neglected to ring after making the connections. We feel that we can dispose of three messages by telephone now in the time formerly consumed in disposing of one. It certainly is wonderful, and the "hello" girls must go.

F. S. GOULD.

W. J. BRYAN'S BROTHER LIKES AUTOMATIC PHONE

The automatic telephone service is very satisfactory. For promptness, reliability, secrecy, clearness of transmission, etc., it is much better than any telephone system which we have had the opportunity to use. CHARLES W. BRYAN.

Publisher The Commoner.

FIRST NATIONAL BANK OF LIN-COLN, LINCOLN, NEBRASKA.

The service of the Automatic telephone in this city is very satisfactory indeed. As you probably understand, we ring up our party direct and when we are through we disconnect ourselves.

The fact of secrecy is a great element in business matters. We can hear distinctly; in fact, the people in this city are much pleased with the telephone and with the service. Many of them would hot go back to the Bell even if it were given them free.

S. H. BURNHAM, President,

HEAR THIS CHORUS

We, the undersigned, officials and citizens of Vanwert, Ohio, recommend to you the Automatic telephone service. It has been in operation in our city three years and has given universal satisfaction. It is much better and quicker, and in every way superior to the manual service. We cordially urge its adoption by any community that wants the very best service.

C. E. LAWHEAD, Mayor; H. C. RED-RUP, City Auditor; E. C. BALYEAT, Superintendent City Water Works; F. A. GAMBLE, Postmaster; CLARK, GOOD, Solicitor; W. E. JACKSON, Chief of Police; C. H. HOELLE, Board of Safety, Van Wert, Ohio.

HARDER THE TIMES

More Talk and More Phones, More Dividends.

Not So With Any Other Investment,

THE TELEPHONE

The Only Public Utility Which Thrives in Hard Times. THERE'S THE REASON.

THERE NEVER HAS BEEN AN AUTOMATIC TELEPHONE FAILURE.

THAT IS ANOTHER REASON WHY the AUTOMATIC TELEPHONE SYSTEM makes the securiof the company using it safe, staple and profitable, and why it has been adopted by the Indedent telephone companies in the following cities:
