#### HOODLUMS BREAK PROMISE AND ATTACK HOUSE.

Stones Hurling Through Windows.  
Bride Struck on Head and  
Rendered Unconscious.

SEATTLE, Wash., April 12.—(Special.)—Tribute was levied by a crowd of hoodlums at the wedding of Mr. and Mrs. J. J. Sutherland, the bride being given that, if money was paid, the crowd that surrounded the home of Mrs. G. A. Moomaw at Greenlake, no disturbance would interfere with the wedding.

After the money had been paid over, Mrs. Moomaw and a party of friends told the police today that the crowd stayed about the house, and when the bride couple appeared, attacked them viciously. The bride's dress was nearly torn off, rocks were thrown through the windows and a stray stone struck the newly-made Mrs. Sutherland in the head and rendered her unconscious.

The Police Department was told today that a number of young women joined the mercenary crowd at the wedding, and incited the men to attack the home of Mrs. Moomaw. When the bride's dress was torn and she was beaten by hoodlums, the young women cheered the ringleaders. Green Lake is part of Seattle, and all the parties at the wedding are highly respected. Both the Chief of Police and Sergeant of Detectives Tennant regard the attack on the wedding party as a remarkable breach of the peace, and are preparing for wholesale arrests.

#### URGES CIVIC IMPROVEMENTS

Woodburn's New Mayor Sends Recommendations to Council.

WOODBURN, Or., April 12.—At the City Council meeting tonight Mayor B. T. Rindall, in his inaugural address, recommended economy and retrenchment, in so far as it will not be to the disadvantage of the city. He spoke of the importance of a sewerage system at the expense of abutting property holders. The address also favored paving macadamizing or graveling the principal business streets at abutting property owners' expense, and what is done should be well done. The Mayor believes in promoting the efficiency of the fire department, care shown in granting franchise privileges on the streets, strict enforcement of the laws of state and city, revocation of liquor licenses for violation of law, prosecution for exposing for sale obscene postal cards and special attention given to reaching a high standard of morality in the community. Salaries of officers were fixed at the meeting.

#### HIS PREVIOUS RECORD POOR

Man Killed at Astoria Recognized by Former Employer.

KIAMATH FALLS, Or., April 12.—(Special.)—T. O. Hogue of Kiamath Falls, formerly of New York, is of the opinion that George Fisher, who was killed by Captain M. C. Forest, whose trial has just taken place at Astoria, was employed

by him on a farm, distant about forty miles from New York City, four years ago. If the man killed by the ship captain was the same whom Mr. Hogue employed he was regarded by his former employer as a dangerous man, and while employed on the New York farm caused the death of a number of valuable animals, including horses, cattle and an imported St. Bernard dog by poisoning. The dog was the property of Mrs. R. G. Dinn of New York City, and was purchased in Italy. The dog developed a pronounced dislike for the George Fisher whom Mr. Hogue employed, and the man retaliated by poisoning the animal. Mr. Hogue describes the man as having been a native of England, stout, and who would have been about 42 years of age at the time of his death, if he were the same man who was shot by the ship's officer.

### Common Sense Treatment For Consumption and Lung Troubles

There is a great deal appearing in print at present regarding the universal effort to check the increasing ravages of the dread disease of tuberculosis, commonly known as consumption. A noted doctor who has made this branch of human ailment his special study and who conducted the famous open-air camps for consumptives in the pine forests of Maine, in a recent interview gave some very interesting comments on this subject. He says that the treatment of consumption is very simple but that it must be continuous and diligently pursued by the patient and if this is done it is sure to cure in the primary stages and frequently even where far advanced. The main part of the treatment is exercise and the constant inhaling of pure fresh air into the lungs in such a manner as to force it into the deepest cavity and air cells of that organ.

This can be done by the habit of deep breathing drawing in the abdomen and expanding the lungs to their fullest capacity and then exhaling slowly. This at first will cause a little distress but with a few days' practice will entirely disappear. He also advises the use of a mucous membrane stimulant and says for this latter there is nothing known to science to equal the oil obtained from the pine tree. There is now an oil of this kind which is condensed and purified. It is known to the profession as the Concentrated oil of pine. The doctor gives his famous formula for the use of this oil combined with a blood stimulant and

his service to the commonwealth, and closes with this eulogy:

In his political vision Judge Boise was a far-sighted counselor of the people at all times, standing for those conservative policies that strengthen the masses of the people and protect the rights of the producing classes. In private, as in public life, he was a model of good citizenship, faithful in all his relations to his family and his friends and your committee is but feebly voicing the appreciation of this order and the entire community when it places upon record this estimate of our revered member, our true friend, a wise counselor and fearless leader. The committee on resolutions was E. Hofer, C. J. Weaver and Zella S. Fletcher.

#### Leaves Pot of Gold Behind.

TACOMA, Wash., April 12.—Frank Hutson, a negro, who died yesterday, left a big pot of money buried somewhere and his relatives are vainly searching for it. On his deathbed he was urged to reveal the hiding place of the coin, but refused. He came to Tacoma 16 years ago with a large sum and has been employed at Oakwood Cemetery. He was miserly, and it is believed the amount he had buried is large.

#### Valuable Dogs Are Poisoned.

OREGON CITY, Or., April 12.—(Special.)—Strychnine poisoning caused the death of two valuable fox-hounds belonging to John Vaughan, of Molalla. The dogs were brought here from Kentucky at a cost of \$200 and had been used to track down wolves. Vaughan took the dogs to Beaver Creek and started them on a hunt

for wolves, but the animals were found dead. There is no clew to the perpetrators of the outrage.
