Exquisite French Lingerie Sells for Half Price—Share

Second Floor, Sixth Street

These garments are the most beautiful possible to design or manufacture. They are genuine imported goods that we bought from the manufacturers at great reductions because they were traveler's samples. Some of them are in need of laundering, but not one whit less good on that account. Most every garment among them is hand-embroidered, and the designs are indeed dainty and fetching. The assortments contain corset covers, drawers, chemises, nightgowns and long or short petticoats. Buy any garment in the lot for half its worth. **1/2**
