One Mack authorizes me to make the official announcement that neither he nor Charley Murray was a delegate to the Champoeg convention. They may have crossed the plains originally by ox team, and there is no absolute proof that they did not play the one night stands ahead of the Lewis and Clark expedition, but they insist that they are not the original ploneers of the Northwest. They have first sermon here next Sunday. DEBATERS GO TO FULLMAN.-The mem-bers of the Oregon Agricultural College debating team, accompanied by Manager

they insist that they are not the original ploneers of the Northwest. They have been coming here for so many years that the falling memories of the older show-goers lead them into the error of bellev-ing that these inimitable Irish comedians antedate the courthouse and the Fifth-street cars. \* It is true, however, that this is the 21st year of the Murry & Mack partnership, and it has been two decades since they first played Portland. There is only one older team in the theatrical business.

older team in the theatrical business, that of McIntire & Heath. In these long years these perennially amusing Hiber-nians have built up a very strong clien-tele and one whose loyalty is steadfast in season and out.

Their shows are all pretty much alike, consisting of themselves principally, with a sprightly chorus, a few men and wo-men comedy assistants, some catchy songs and pretty costumes as incidentals. It is not the form of entertainment that makes Mansfield and Mrs. Flake turn green with envy, but it never fails to please the majority of theatergoers.

This year they call it "Around the Town," which name does as well as any other, possessing the merit of having no bearing whatever on the show. It is just Louis Laughlin, Portland Hotel, city. \* OREGON JEWMENES TO MEET.-A meet-ing of the retail jewelers of Oregon will be held in rooms of the Chamber of Commerce in Portland May 8 for the purpose of organizing a state association to affiliate with the American National Retail Jewelers' Association. Special rates have been given by the railroads for the purpose of making people laugh and forget about city elections and other tribulations. No one went home last hight and raved himself into a brainstorm trying to figure out its motive. It is a mental vacation and for that reason the folks came and filled the theater as they always do when the Murray & Mack and it is expected that there will be a large attendance.

ise to do, and that is enough in all con-science. In some respects the new show is an im-provement on their former efforts. The chorus is an attractive and agile aggre-gation of "ponies," whose slinging and dancing pleased everybody. Murray and Mack themselves are in botter form than ever. There is less slap-slick and more legitimate comedy in their work, while Thomas T. Shay, as the Anarchist and the tramp. Bobby Harrington as the hotel hustler, and P. J. Kane as the hotel hustler, and P. J. Kane as the butch andlord afford them first-rate support. The lever woman of the company is Frances Trumbull, who plays the German waitress with songs and wooden-shoe dancing. #### The Operation Explained by a Well-Known Dentist.

TODAT. TRUNKMAKERS VS. ST. JOHNS.

A harelip is a very infortunate deform-ity, yei it is comparatively easily cor-rected by any ordinary surgeon. But what lays back of it is much more serious. Usually in these cases we find what is known as a "Cleft Palate." This is caused by a failure of union of the supe-rior maxiliary hones, thus leaving the nassi canal and mouth in one cavity making it impossible for the unforturior maxiliary bones, thus leaving the masal canal and mouth in one cavity making it impossible for the unfortu-nates to articulate so they can be under-stood. This may be corrected in two ways: First, in carly infantile life an operation can be performed forcing these bones together and retaining them in position until Nature shall units them. However, if this operation has been neglected when the child reaches matur-ity an appliance can be made which is known to the profession as an abturator which will fill this opening and make it possible for the unfortunate individuals to enjoy life and converse like the rest of their fellow-beings. This is one of the greatest triumphs which science has made in the last century, and if you or any of your friends know of one afflict-ed in this manner you would be doing them one of the greatest kindnesses one could do for auother to have them call on Dr. R. E. Wright. He has probably done more along these lines than any other dentist in America.
