

HIGH WATER COMING

Flood Stage Will Be Passed at Portland Wednesday.

RAPID RISE AT THE DALLES

Forecaster Beals Says Water Will Reach 16.5-Foot Mark Here by Middle of the Week—Warm Weather East of Cascades.

The Willamette River at Portland will rise rapidly during the next three days, and by Wednesday noon will reach the 16 1/2-foot mark. These figures are based on the reports received by Forecaster Beals.

Table with columns: Stations, Flood Stage, Height. Lists stations like Lewiston, Riparia, Venatchee, etc.

The weather in the eastern part of this state and of Washington continues warm and the snows are melting rapidly in the mountains.

STEAMER INTELLIGENCE

Table with columns: Name, From, Date, Destination. Lists various steamers and their routes.

and the river at that point came up one foot and half yesterday and is rising rapidly.

For this season of the year the temperature is a little higher than average, and to this the weather officials look to keep the water rising.

Several bets were made on the water front yesterday that the river would reach 16-foot stage.

LUMBER RATES TAKE A FALL

Plenty of Tonnage Available for the Coastwise Business.

Lumber carriers to San Francisco are offering for \$5.50 a thousand and at San Pedro for \$6.50.

Coastwise lumber shipments for the month to date amount to only 2,149,000 feet.

There are a number of lumber craft in the river but they are principally for ties for San Pedro and Redondo.

Tacoma Shipping News.

TACOMA, May 18.—Steamer Cottage City, first of the direct Tacoma-Alaska boats to leave port this year.

Carrying an aggregate cargo of over 40,000 tons, the steamships Onana, Misouri, Tolosan and Abessinia, will leave port tonight or tomorrow for the Orient.

With the departure next week of the bark Marion Joseph and Eugene Fautrel will come the close of the grain exporting season at Tacoma.

Summer Excursion Season Opens.

The summer excursion season opens today on the Columbia River. The steamer Charles R. Spencer will go as far as Cascade Locks and return.

Cooks Quit on the Spencer.

Trouble with the Chinese cooks on the steamer Charles R. Spencer yesterday morning delayed that boat for nearly an hour and it was a few minutes before 6 o'clock when she started on her run to The Dalles.

Marine Notes.

The steamer Asuncion will leave down at daylight this morning for San Francisco.

McDermott in Charge of Hull Mines

Captain William McDermott, the Most Famous Mine Superintendent in America, Under Whose Management the United Verde, Our Next Door Neighbor, Has Paid Millions in Dividends, Is Now in Charge of the Hull Mines.

William McDermott Jerome, Arizona May 13th, 1907. Messrs. O. B. Stanton and Son, Philadelphia, Pa. Gentlemen: I am familiar with the property. I believe the property can soon be put on a solid basis, and I feel confident we will succeed in developing another great mine in Jerome.

THIS announcement is of the greatest interest to the whole copper world, on account of the eminent standing of Captain McDermott. He has been the right-hand man of Senator Clark, the Copper King, for the last 10 years, and it has been upon Capt. McDermott's advice and reports that Clark has purchased his most famous mines.

The mere fact that Capt. McDermott has taken charge and will personally direct development of of Hull Copper Co. is significant to the mining world that the most successful expert and mine worker in America, has implicit confidence in Hull Copper.

Capt. McDermott, in taking charge of this property, will bring with him the mine boss of the United Verde, a man who has been associated with him for years in developing United Verde.

No Mine Ever Had Better Management

No Mine Ever Had Such Indorsement by the Press of America

The four Great Mines of Hull Copper on this drawing are:

- Eureka South Extension Mine No. 12 Mine
Silver Giant Mine '1888' Mine

Sectional view of underground workings of 4 rich mines of Hull Copper, directly against Senator Clark's \$100,000,000 mine—the United Verde. Notice enormous ore reserves and actual developments.

"Proven to contain one of the largest deposits of copper ore in the world." —Prescott Journal-Miner. "The proposition seems to be presented fairly upon its merits." —The Mining Investor.

"A number of mining engineers have visited the property in their own interests." —Washington Times. "Hull Copper has crossed another lode, making three lodes on the Eureka Extension claim." —Providence Journal.

Hull Copper Advances to 35 Cents on Friday, June 14

Stock Now 25c a Share Only Until June 14, If Present 25c Allotment Lasts

RAPID DAILY PROGRESS We have 8200 feet of tunnels, shafts and levels. The shaft, on the 1888 claim, 475 feet deep, is within 153 feet of United Verde shaft.
