TWELVE YEARS IN PORTLAND

MAZAMAS TO SCALE MOUNT JEFFERSON

Two Weeks' Outing Will Be Spent at Base of the Snow Peak.

CAMP ON THE NORTH SIDE

Attempt Will Be Made to Ascend the Summit—Party of Climbers Will Leave Portland July 15.

The base of Mount Jefferson will be the scene of the camp of the Mazamas this year, from whence they will make the ascent of the mountain. It is planned to go into camp on July 13 between Brettenbush Hot Springs and the mountain, and to remain in camp two weeks. During this time the Mazamas will attempt the ascent of the mountain.

The following details of the trip are given in the official circular of the Mazamas:

The Mazamas made a trip to Mount Jefferson in 1906, going in over Minto Mountain, and camping at Hunt's cove, above Parnella Lake, on the south side of the mountain. The ascent from the south side to the pinnacle was easy, but the pinnacle, which is several hundred feet high, proved inaccessible from the south, and at that time of the year the receding snow prevented anyone working around to the north side, the only accessible route to the extreme summit. This year the Mazamas, profiting by former experience, will camp on the north and make the ascent from that side, where the other successful climbs have been made.

The following will give the reader a good idea of the proposed trip. You can help Mazamas conquer Jefferson this year if you will.

Itinerary.

Leaving Portland 7:45 P. M., July 15, arrive Albany 10:00 P. M., July 15. Stay over night at hotel.

Leaving Albany 7:30 A. M. on the 16th, over the C. & E. road, arrive Detroit 12:30.

Halt for lunch. Then go to the Humberg camp for the night of the 16th.

Leaving camp morning of the 17th, pass Brettenbush Hot Springs at 10 A. M. Go to Camp Hicks for the night.

Leaving Camp Hicks morning of the 18th, reach permanent camp afternoon of the same day.

Description of the Trip.

R. L. J. Hicks, a member of the Outing Committee, with the company, made the ascent to the top of the pinnacle of Mount Jefferson from the proposed camp, in the summer of 1906. The following data has been prepared by Mr. Hicks:

Arriving at Detroit, Oregon, at 12:30 P. M., Tuesday, July 16, one and one-half hours will be devoted to lunch and change of wearing apparel; then the start will be made on the Brettenbush trail and a distance of six miles will be traveled to a camp on the banks of the Brettenbush River known as Humberg camp. The party will make camp here and stop over night, leaving on Wednesday at 8 A. M.; arriving at Brettenbush Hot Springs at 10:30. An opportunity will be given to those who desire to sample the mineral water. In the afternoon a tramp of six miles will be made over the Lemhi, Mount Hood, Government trail to a point where this trail crosses an old Indian trail, running from Mount Jefferson to Elk Lake. We then follow the Indian trail about two hours, reaching a beautiful camp ground on the borders of a small clear lake at an altitude of about 4000 feet.

Horse Heaven.

On Thursday, after three hours' tramp, we will reach Horse Heaven (so called for the abundance of grass in evidence), situated in a lovely little valley, through which flows the Brettenbush River; here a stop for lunch is made, and then, after a steady climb of about 1200 feet, we pass through a gap in the mountains at an elevation

of about 5000 feet. Here we obtain our first view of Mount Jefferson, apparently at the very base and nearly at the timber line. We continue towards the mountain about one mile and find that what appeared, when first seen from the gap, to be the base of the mountain, or a part of it, is a series of intervening hills, which cannot be gone over with horses on account of snow drifts but may be passed around on the right. For a distance of a mile or more we frequently find our way apparently blocked by a deep chasm or a high wall of rock, but always find that the Indians have been there before, and we hunt for their trail, which has, in some difficult places, been early obliterated by time. Rare indeed is the white man who has been here. Indeed, we have been told by old settlers in the country around Brettenbush that it is impossible to go to Mount Jefferson on the north with horses, which goes to show that the white man had not penetrated to the base of Jefferson on the north until recently. It is quite probable that not more than half a dozen white men have ever made this trip.

The Hanging Valley.

After winding in and out, up and down, and around various steep declivities in the Hanging Valley, Messrs. Edmond C. Giltner and Loring K. Adams, of Portland, who camped in this valley one night in the year 1906, while completing a circle around Mount Jefferson. They called it the "Hanging Valley" on account of the precipitous canyon, on either end, some twelve hundred feet deep, and on account of its altitude, which is over 5,000 feet. It is nestled close against Mount Jefferson, the summit of which is 2000 feet above the surrounding country. Scattered about are several small lakes and a beautiful panorama of grand mountain scenery is spread out before our view. Among these hills can be found traces of old Indian trails, which, from the conditions of the rocks worn by horses' feet, must have been traveled by thousands in the years gone by.

For those who enjoy the sport of trout fishing a trip to the west of Hanging Valley into the head of the north fork of the Santiam River is recommended. Splendid fishing may also be found at Lake Parnella, to the west of Mount Jefferson.

Side Trips.

Numerous and interesting side trips may be made from this valley. There are several extensive and almost totally unexplored glaciers on the east and north sides of Mount Jefferson. These with their wonderful ice caves afford abundant opportunity for study. A trip over the hills to the north of the valley brings one to Olalla Butte, some 12 miles distant, the summit of which is 2000 feet above the surrounding country. Scattered about are several small lakes and a beautiful panorama of grand mountain scenery is spread out before our view. Among these hills can be found traces of old Indian trails, which, from the conditions of the rocks worn by horses' feet, must have been traveled by thousands in the years gone by.

List of Climbers Who Have Scaled Pinnacle of Mount Jefferson.

First ascent August 12, 1888, by Ray L. Farmer and Ed C. Cross, of Salem. (South side.)

Second ascent (south side) July 14, 1897, by Lem Gates, Major Charles E. Robin, Miss Musa Geer, of Salem; Mr. Pearl Blackerby, Miss Helen Hibbard, of Silverton, Mr. Gates, the guide, a cool and daring climber, who knows the south side of the mountain well, anchored a rope at the top of the pinnacle. He also carried the Mazama box to the summit from "Kirby's Landing," a heap of rocks just south of the base of the pinnacle,

where it had been left a few years before by Mr. Kirby and his party of Mazamas.

Third ascent (south side) August 5, 1897, by Lem Gates (guide), Major C. E. Robin (his second ascent), Judge George H. Burnett, J. H. Collins, E. C. Neal. Just as they reached the top of the pinnacle a thunderstorm burst upon them and several electric shocks were felt by the members of the party. A very interesting account of this ascent, written by Judge Burnett, of the Circuit Court, will be found in the Oregon Daily Statesman, of Salem, August 3, 1897.

Fourth ascent, September 24, 1901, Mr. Sherman Barnham.

Fifth ascent (south side), August 14, 1905, S. S. Mohler.

Sixth ascent (north side), early in August, 1906, by L. J. Hicks and S. S. Mohler.

Accommodations.

Outings of the club are successful if necessities are provided when and where needed. The committee this year will endeavor to furnish everything necessary for the pleasure and enjoyment of all those who participate in the outing. We have engaged our Mazama cook, Mr. Brady, as chef. We will aim to provide the best camp fare ever given on any mountain trip.

The camp will be located in the Hanging Valley, where numerous side trips to the wonderful glaciers and other points of interest about this mountain can easily be made. While in camp the side trips for each day will be talked over the night before at the campfire, and persons intending to take part will give their names to the leader of the party, who will give the list in to the headquarters tent. The officer of the day will then turn the list over to the cook, specifying the hour at which this number of lunches will be ready in the morning.

A day rate for those who cannot stay the entire two weeks will be established. These rates may be obtained by applying to the committee. No person will be allowed in camp except those who have seen the committee and paid their outing fees in advance.

Outside parties, not members of the Mazamas or connected with the club, will not be allowed within the boundary lines prescribed for the main camp. Outside parties present at the mountain during the outing will be required to select a camp ground of their own.

Arrangements for Baggage.

All baggage must be put into the Standard Duffel bag, which is 18x40 inches. All duffel bags must have the owner's name distinctly painted or stenciled on the side in letters not less than one inch high. The duffel will be weighed and all excess over 35 pounds for each person will be charged extra for at the rate of 10c per pound each way. The club will exercise a general supervision over all transportation, both baggage and passengers at all times.

If convenient suit cases containing the outfit suits can be taken as far as Albany, where the change can be made and the better clothing be laid aside until the return of the party from the mountain.

Take no trunks. You will have no use for them and the committee will not accept them as baggage.

Expenses are payable in the following manner: \$10 on or before July 1, the balance on or before July 10. Parties will please pay to Edmond P. Sheldon, chairman of the outing committee, 265 Washington street, Portland, Or.

What the Club Provides.

The club provides for all meals and all transportation for persons and baggage from Portland to camp at Mount Jefferson and return. This, however, does not include Pullman from Portland to Albany and return; neither does it include

I Want to Find A Man

who has some money and who wants to make more

Ours is a successful manufacturing business with its trade generally well established, but we need just now representation in some of the best territory in the country. The goods we make are needed in every home. They sell for cash and pay good profits.

They are not made by anyone else and our dealers have no competition. Our dealers do a good business from their own stores, but make larger profits by jobbing to dealers who sell locally.

We want a man with money because we are not willing to tie up our line in the hands of irresponsible parties.

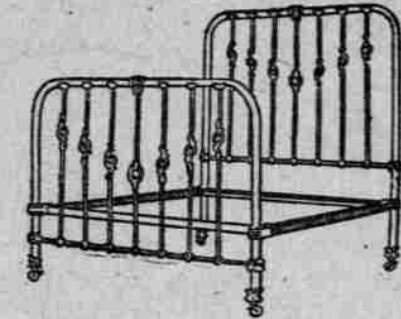

We exact a stock order, and it takes some money to push the business, but these goods will pay better than anything else you sell.

We do our part by advertising extensively in magazines and newspapers, and we refer the inquiries and orders to our dealers.

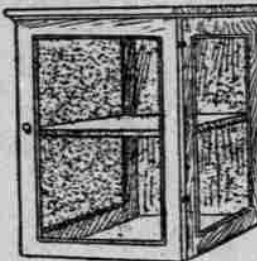

Have you some money and do you want to make more? Write me today.

185-191 EDWARDS CO HOUSE FURNISHERS

A GOOD PLACE TO TRADE

the purchase of any of your personal outfit.

The preliminary deposit of \$10 must be paid before July 1. This is because the committee must know how many persons are going. The club depends on no contractor to furnish commissary, tents, etc. We buy all our provisions, and get the best, hire our own chef, and are sure of success, but we must ship our provisions ahead and we must know how many to provide for. So kindly register and pay the preliminary deposit so that we will know that you are going.

A Day Rate.

The matter of a local day rate for

persons who do not go with the main party will be in the hands of the officer of the day. The price will be \$2 per day, strictly in advance. The committee will assume no responsibility for the transportation of baggage of persons taking advantage of the above rates.

Who May Go on the Trip.

All persons who desire to do so may participate in this outing upon registration and payment of the fees, but membership in the party does not imply that you must climb the mountain, neither does it imply a right to participate in the ascent of the mountain in the absence of qualifications, but those who

wish to join the climbing party will have ample opportunity to qualify by taking the side trips from the main camp.

Saddle Animals.

It is to be distinctly understood that the club assumes no responsibility for saddle animals. Misunderstandings have arisen in the past because this regulation has been overlooked. The pack-train and the accommodation of walkers are the sole considerations, as far as the club is concerned. The committee has no objection to having members of the party procure saddle animals wherever they can, but it must be understood that the

care of such animals must be provided for by those procuring them.

Outing Committee for 1907.

"That's It" Gambrinus

THE BEER THAT'S BREWED FROM THE PUREST OF WATER

The water used in Gambrinus Beer comes from a well of great depth—a well on the premises of the Gambrinus Brewing Company, a special effort to obtain the purest water possible in the manufacture of this perfect beer.

Gambrinus Beer won't make you bilious—it's PURE BEER. Beer is called "LIQUID BREAD" by many physicians. It's use is recommended by some of the most famous medical men in America.

Try a case of "Gambrinus"; see for yourself the flavor it has, how the best of hops, the highest grade of malt and the purest water to be obtained, combined with the greatest skill and the most advanced methods in brewing, all join in producing a beer that's perfection.

Gambrinus Beer has been the leading family beer of Portland and vicinity for the past thirty years. It won't take you long to discover why if you'll phone in an order.

Case of one dozen quarts, delivered.....\$1.75
40c a Dozen for Bottles When Returned.

Case of two dozen pints, delivered.....\$2.00
20c a Dozen for Bottles When Returned.

WE HAVE IN COLD STORAGE, SEVERAL DOZEN CASES OF FINE OLD BOCK BEER, WELL AGED. WE'LL FILL ORDERS FOR THIS BEER, WHILE IT LASTS, AT REGULAR PRICE
