CASE TO GO TO SUPREME COUR

Joint Rate Controversy Will Test Power of State Railroad Commission.

HEARING TO BE THOROUGH

Session Adjourns Until Thursday to Give Attorney-General Opportunity to Prepare Replies to Contentions of Railroads.

OLYMPIA, Wash., June 21 .- (Special.) The Hallroad Commission joint rate hearing was adjourned at noon today until Thursday of next week at the request of the state. The Attorney-General desired the delay to prepare his reply to the answers of the respective railroads.

Attorney Zera Snow for the O. R. & and Assistant Attorney-General Falknor this afternoon in interviews said that it is the purpose of both sides to make this a complete test case of the matter of rate regulation by a State Commission and that the whole question will be car-ried as quickly as possible to the Supreme Court of the United States. While the railroads are offering objec-tions to the hearing and saving excep-tions to certain items of the testimony it is apparent that both the railros and the Commission propose before the hearing is completed to go thoroughly into the merits. Indications are the pro-ceedure will take about this course:

The Commission through the Attorney-General will put into evidence testimony in support of the contention for joint rates; against this the railways will submit their evidence. When the evidence is all in it is assured the Commission will enter the joint rate order. Then probably the railways will apply to Judge Hanford of the Federal Court for an in-junction to prevent the enforcement of the order and from his rulings the case will go on up to the highest court in

One of the big fights from standpoint is over that part of the standpoint is over that part of the of the big fights from a legal Commission law which provides that the only testimony the courts may hear on appeal from orders of the Commission. Is that taken before the Commission. This was put into the law deliberately so that the railways would be forced to meet the issues of fact at the first hearing. This, the railways contend, denies them the right of a free trial before a jury and in effect amounts to a taking of prop-erty without due process of law. It is really the crucial point in the whole

hearing.

The witnesses heard today were John T. Huetter, a Spokane stone dealer who pays the O. R. & N. Company 3½ cents a hundred for hauling stone six miles, while that road hauls brick 17 miles for 2 cents; J. E. Trimble, a produce dealer, of Garfield, who tostified as to the excessive freight rates he was forced to meet by paying the sum of two locals in shipping potatoes from O. R. & N. points in the Palouse country to the Sound, and State Track Inspector Perley, who testified as to the necessity and expense of making the proposed track connections between the several rallways at different points in the Palouse country.

INDIAN GETS LONG SENTENCE

Pleads Guilty to Killing Sweethear on Reservation.

COLVILLE, Wash., June 22.—(Special.) -Saul Louie, the Indian charged with murder in the first degree for brutally beating the life out of his sweetheart on the reservation, April 19, because she lavished her affections upon another Redman, was sentenced Friday to 14 years in the penitentiary at Walla Walla. Loule entered a plea of guilty of manislaughter the pentientary at wanta wanta. Lone entered a plea of gulity of manslaughter which was accepted by the court. Judge Carey, in passing sentence, communicated the message to Louie through John Rickey, as interpreter, the prisoner exhibiting no concern further than to bow his head occasionally in acceptance of the terms of the judgment. He was evidently well satisfied with his escape

when arrested two weeks ago, Louis refused to consult counsel, preferring to rest his confidence in Father Cald, a missionary priest who was well ac-qualited with him on the reservation. Father Cald came a week ago and held a long conference with Louie, explaining to him the punishment that could be administered in case of conviction of mur-ier in the various degrees. Saul was given the option of pleading guilty to manslaughter, or standing trial by a jury

for the higher degrees. The prisoner confessed to the killing when taken into custody; and has made no effort to shift the blame from himself. He was taken to Walla Walla yesterday.

WILL FORCE MILLS TO CLOSE High Price of Logs Affects Lumber

Industry. ABERDHEN, Wash., June 22—(Special.)—Edward Hulbert, manager of the Aberdeen Lumber & Shingle Mill Com-Aberdeen Lumber & Shingie Mil Com-pany, speaking of the lumber outlook today, said that unless conditions im-proved his mill, as well as others, will be closed in ten days. The Anderson & Middleton mill and the United States mill are now closed, ostensibly for repairs but more on account of the market. Mr. Hulbert thinks that the price of logs may

have something to do with the mills being closed as well as the lack of orders. "We might be able to run until the demand improves," said Mr. Hulbert, "if ogs were lower. We are paying \$2 more ere for logs than they are paying on he Sound and on the Columbia River and we cannot compete for business that would keep us going until the San Fran-cisco business picks up."

B. F. Johnson, president of the Ameri-can Mill Company agrees substantially

with Mr. Hulbert.

SWEENY SELLS HIS STOCK

GIVES UP INTEREST IN SULLIF-VAN MINE.

Rumored That His Interests Have Been Purchased by Mose Op-

penheimer, of Spokane. It seems an assured fact that Charles Sweeny, the Spokane millionaire, who has been hypothecating his real estate holdings in Portland, has sold out his entire interest in the Sullivan Group Mining Company, which owns the Sullivan Mine and Smelter, near Marysville, B. C. Mr. Sweeny's Sullivan stock, according to the most reliable information obtainamounted to about 350,000 shares This block of stock, it is rumored, has been purchased by Mose Oppenheimer, of Spokane, at about 19 cents a share. The supposition that Mr. Sweeny is out of the company in which he has always of the company in which he has always had a large interest, is strengthened by the fact that at a meeting of the Sullivan directors Thursday night, F. J. Finnu-cane, Mrs. Sweeny's son-in-law, re-signed as treasurer and was succeeded by Mr. Oppenheimer. Bruce Clenden-ning, former manager of the mins, and an associate of Mr. Sweeny, resigned from the board of directors at the same

time and was succeeded by George Van-dyke, who resides in Ohlo. While Mr. Oppenheimer's title is that of treasurer of the company, it is understood that he is virtually manager.

The suimal measured nearly seven feet from the tip of its nose to the the most strenuous positions in the tip of its tail. The other cougar was whole railroad service, not excepting the killed by Harry Cooper and measured local freight crews, who are paid overtime when delayed beyond their schedmounted full size by a local taxidermist.

AN OPENING

FOR A GOOD, LIVE

BUTCHER 4

We have an opening for a good butcher at the corner of Front and Gibbs streets. Building to fitted up for a butcher shop and until two weeks ago a shop has been conducted on the same corner for more than 23 years. A shop would be in operation there today had not the business fallen into inexperienced hands. We will rent the shop at a low rental and give a long lease.
