# FRUIT SELLS WELL

Big Week Is Promised in Trade on Front Street.

#### COUNTRY DEMAND STRONG

Only Fear Wholesalers Have Is That Supplies May Be Inadequate. High Prices Are Not Objected To.

The coming week promises to be an un-usually active one in the fruit trade, the weather permitting. Wholesalers that meather permitting. Wholesalers that make a specialty of shipping business already have a large number of country orders booked and are assured of a holiday trade that will break all previous records. The local Fourth of July trade, which will follow, will without doubt be the largest in the history of the produce district. The only thing the jobbers fear is the scarcity of certain lines of Summer fruit. It is difficult to make up carlots of the principal varieties of California fruit. This keeps prices at a high level, but consumers do not complain of this fact.

Yesterday was banana day on Front street. Eight cars arrived, bes six of them were too ripe to please the receivers. With the better demand, however, they will probably all be disposed of.

Some early freestone peaches of the Triumph variety were received and offered at \$1.50 per box. Other varieties were quoted around \$1.25. California peaches are going to remain high this season, as there are not enough to make up carlots and all shipments will have to come through by express.

Loganberries are coming forward more Loganberries and the produce of contents and all shipments will have to come through by express. weather permitting. Wholesalers that make a specialty of shipping business al-

Loganberries are coming forward more freely and average \$1.75 per crate. A few strawberries are still to be seen and there will be a few shipments next weak

Trade advices received from Hamburg. Germany, say that the market will require a considerable quantity of prunes to make up the deficiency in the coming European crop. The letter said: "This market is very closely cleaned up on old crop prunes and importers are much disturbed over the outlook so far as stocks." European crop. The letter said: "This market is very closely cleaned up on old crop prunes and importers are much disturbed over the outlook so far as stocks are concerned. We do not look for more than two-thirds of a crop in Bosnia and Servia. Some of the larger interests here are already buying for import from the New York market, and cables sent to the Pacific Coast bring back the advice that practically all the old prunes of desired sizes are hold in New York."

BUTTER COMING IN MORE FREELY.

Front Street is Better Supplied, but Prices Hold Steady.

Butter is now arriving on Front street more freely than was the case earlier in the week, as some of the outside creamerles have found their northern outled closed. The heavier receipts, however, work off and prices remain stationary. The city creamerles report an active movement that prevents any accumulation.

Eggs were quoted at a wide range on Front street, snies being made all the way from 22½c to 24c with the bulk of the business at 23c to 22½c. Supplies were small and the demand very strong.

Poultry, as has been the case most of the week, was slow and easy.

## STOCK MARKET STAGNANT

Feeble and Inconsistent Drift of Prices-Bank Statement Causes a Slight Recovery, Which, However, Is Not Maintained.

NEW YORK, June 22, - The stock NEW YORK, June 22.—The stock market was almost at a standstill to-day. Feeble as was the drift of prices it was inconsistently downwards and upwards without any apparent reason. There was a slight recovery after the appearance of the bank statement, which proved less unfavorable than the forecasts. The loan contraction belped to scale down the deposits and the reserve requirements, and the cash decrease was much smaller than was

pelped to scale down the deposits and the reserve requirements, and the cash decrease was much smaller than was anticipated. It was taken for granted, however, that the week's export of gold figured in the averages for a small proportion of their real effect, leaving that effect to be transferred over into next week's statement. This expectation left a bad impression.

The engagement of gold for London was increased to \$1,750,000 today in time for the outgoing steamer. Foreign exchange rates were strongly maintained today, especially for cable transfors, in spite of the supply of that form of remittance supplied by the gold shipments. The urgent demand for cable remittances was attributed to the approach of the London stock-market settlement, regarding which some anxiety is felt in London. The sustained strength of foreign exchange caused a conviction that the gold export is to be extended next week.

The weekly reports by the mercantile agencies showed some improvement in retail trade conditions, caused by the more seasonable weather, but the stock market was unresponsive to by the more seasonable weather, but the stock market was unresponsive to this.

A statement from Washington that the report of the Interstate Commerce Commission on the Harriman investiga-tion would be presented by July 1 and would be considered by the Attorney-General with a view to legal proceed-ings accentuated the stagnation in the market. The slight recoveries after the bank statement were lost and the clos-ing tone was easy.

# CAPTURES HUGE TURTLE

Fisherman Takes 1700-Pound Traveler Off San Diego.

SAN DIEGO, Cal., June 22.—One of the puzzles of the sea came to the surface yesterday, when a gigantic sea turtle was captured by Julius Sollass, a fisher-man, in whose net it had become en-tangled. The monster weighs 1792 pounds, and its shell is 5 feet 2 inches from tip to tip. On its back somewhat plainly is burned or carved this inscription: "British ship Sea Bride, August 12, 1881. 3 south, 85 weet. If found, please notify Thomas Fletcher, Brawley Road, Riving-ton Friend".

ton, England."

It would appear from this that the turtle was captured 26 years ago in the South Pacific, and that it was released after the lettering had been burned in

Rust Appears in Wheat Fields of Missouri.

#### SOUTHWEST HARVEST SLOW

These Are the Factors That Strengthen the Chicago Market-Corn and Oats Prices Are Also Sent Upwards.

CHICAGO, June 22 .- The wheat market displayed considerable strength today, despite the fact that trading was light and included little outside mand. At the close, wheat was % @ %c higher, corn was 1@ 4c advanced, oats were up %@%c and provisions were 214 @ 714c higher.

The wheat market opened quiet and

steady, despite the fact that Liverpool cables were lower and the weather in this country was highly favorable for the new crop. Many speculators were firmly of the opinion that the market had become somewhat oversold in anticipation of the lower prices that were expected to follow the strike of the telegraph operators. Shorts were active buyers on this account at frequent intervals throughout the session. A good demand for cash wheat was reported from the East, and there were additional claims of short yields in nansas and reports of the appearance of rust in Missouri. The harvesting of the crop in the Southwest is being delayed, and it is believed that zerious damage will result if a much greater this country was highly favorable for demayed, and it is believed that selected damage will result if a much greater delay is made. September wheat opened a shade lower to a shade higher at \$4½ 694½ c, sold between 94% and \$5% c and closed strong at \$5½ 695% c.

The corn market was strong all day, partly in sympathy with wheat and also because of the large sales for export yesterday. The exceptionally fine growing weather for the crop was ig-nored as a bearish factor. The crop in many sections is reported as mak-ing up lost time with great rapidity.

September corn opened a shade lower at 53%c, sold between 53%c and 53%c and closed strong at 53%c. Green bug reports were numerous in the oats market and as a result prices the oats market and as a result prices were strong all day. Trading was of unusually large proportions, the majority of local speculators being on the buying side, and there was also a good demand from investors. The green bug reports come from Indiana and many from Central Illinois, west of the Illinois River. Offerings throughout the day were light and inadequate to the demand. September oats opened 4 \$\mathcal{Q}\$ to lower to a shade higher at 22 \mathcal{Q}\$ 32\mathcal{M}\$ c. sold between 38\mathcal{M}\$ c and abc, and closed strong at 38\mathcal{M}\$ @38\mathcal{M}\$ c.

The trade in provisions was light and prices were steady on covering by shorts and in sympathy with the grain shorts and in sympathy with the grain market. At the close September pork was 7½c higher at \$15.90. Lard was up 5c at \$8.82½ and ribs were 21,6c higher at \$8.67½.

BANK STATEMENT NOT SO BAD AS WAS EXPECTED.

No Account Taken of Heavy Gold Exports During the Week-Increase in Deposits.

NEW YORK, June 22 .- The Financier

says:
"The official statement of the New York Associated Banks was a most remarkable exhibition. It failed to re-flect the losses to the banks by the ex-ports of gold to Europe during the week or the average of such exports that occurred in the closing days of the previous week. Moreover, the statement apparently took no account of the losses to the banks through subtreasury operations. Instead of show ing a loss of more than \$6,000,000, rep resenting exports of gold, which should have disclosed today a loss of more than \$4,000,000, after deducting from the aggregate traceable loss the gain the aggregate traceable loss the gain on the interbank movement and through receipts of new gold, the statement recorded a decrease of only \$719,500 cash. The deposits fell off \$7,199,300, which amount was greater by about \$1,000,000 than the contraction of loans, plus he loss of cash and therefore the statement did not make a good proof. The reserve against general deposits decreased \$1,822,575, deducting from which the loss of cash as above left \$1,111,975 as the increase in surplus reserve to \$5,626,600. Computed on the basis of eposits less those of \$71.734,500 public funds, the surplus is \$3,569,-325.

#### HEAVY FINE FOR EDITORS Czar Crushes Hostile Criticism of

Dissolution of Parliament.

ST. PETERSBURG, June 22 .- The government's campaign against the Liberal press to prevent hostile criti-cism of the dissolution of Parliament and the new electoral law, continues vigorously. Dispatches from many cities report that papers have been fined from \$500 to \$2000. The Radical papers have been suppressed entirely and their editors in several instances have fied, among them being M. Gorschkoff, who was a member of Par-
