NEW DEAL FOR NORTHWEST

Northern Pacific to Sell Burlington Stock to Great Northern and Buy St. Paul-Act Before the Commission Investigates.

CHECAGO, June 29 .- (Special.)-The can cellation of the 30-year-lease of the Chi cago, Burlington & Quincy Rattroad to the Chicago, Burlington & Quincy Rallway Company of Iowa has given rise to some sensational rumors in local railway circles. Instead of indicating the failure of some pet project of James J. Hill, the disbanding of the Burlington Company, chartered in 190, merely preliminary to the carrying out of the greatest railway project of the "Emperor of the Northwest," if reports are to be credited. credited.

The substance of these reports is that James J. Hill and the majority of stock-holders of the Northern Pacific Rallroad have decided that it is inadvis able to continue the arrangement by which the Great Northern and North-ern Pacific jointly own possibly mos-all the stock of the Burlington Rail road. Therefore, the Northern Pacific will sell all its Eurlington stock to the Great Northern. The proceeds of the Sale will be used by the Northern Pacific in part to purchase a control part to purchase a

cific in part to purchase a controlling laterest in the Chicago, Milwaukee & St. Paul Railroad.

It is known to be the plan of the Interstate Commerce Commission to make a thorough investigation of the relations of the Great Northern, Northern Facific and Surlington Railreads when the nyonedlines against the Herwhen the proceedings against the Har-riman system are completed. Although the Supreme Court decided that the Northern Securities Company was in-legal, it has been a hollow victory for the Government because J. J. Hill and his allies conflicts. his allies continue to own and jointly the Great Northern, N Pacific and Eurlington roads.

MELLEN THE COMING GENIUS

Father of Two-Cent Rate Builds Up Great Railroad.

NEW YORK. June 29.—(Special.)—Wall street and financiers everywhere are beginning to ait up and take notice of C. S. Mellen, who, as president of the New York, New Haven & Hartford, once a despised little road, has made of it a great system. He is the father of the 2-cent rate, voluntarily putting it into effect and starting the agitation all over the country. Wall street ranks him with E. H. Harriman and J. J. Hill, or better than either if he had as

him with E. H. Harriman and J. J. Hill, or bester than either if he had as free a hand.

Among the persistent rumors floating around Wall street is one that Mr. Mellen already is laving his wires for the acquisition of the Boston & Albany. It is reported also that possibly he will secure the Delaware & Hudson, which L. F. Lorse has been called to manage, and he is credited with trying to effect a trade with C. S. Hayes for the Central of Vermont in exchange for the New York, Ontario & Western, previded the New York Central interests do not excreme the option that they

do not exercise the option that they are said to hold on that property. Whatever Mr. Mellen's plans may be, it is certain that he has kept Wall street and the railroad world guessng for the past three years, has ac polished a seemingly impossible task and has made a name for himself second to none in the galaxy of rall-road stars.

The great task that Mr. Mellen has accomplished is the transformation of a small and publicly despised system of 2000 miles, which seemed destined to fall into the capacious maw of one of the two controlling Eastern glants, into a great system of approximately 6500 miles. This has been carried out in three years against the strenuous epposition of the most powerful rall-road interests in the country.

No Bribes to Secure Cars.

SAN FRANCISCO, June 28.-Vice-President and General Manager Calvin, of the Southern Pacific announces that after a thorough investigation of the reports that employer had organized a system for the expedition of freight over Southern Pacific lines in return for bribes, has been completed, and shows that there is no such organization. A few shippers, impatient at delay, bribed one of the yardmasters at Sparks, Nev, who in making up trains could give preference to certain cars. The practice was confined to a few shippers The guilty yardmaster has been

Holladay Becomes Chief Clerk.

C. E. Holladay, who has been in the freight claims department of the local office of the O. R. & N., has been promoted to the position of chief clerk in the office of C. A. Malboeuf, district freight agent for the Southern Pacific. He takes the position made vacant by the resignation of N. V. Murray, who left the service on account of ill health. Mr. Holladay begins his new duties tomorrow.

Must Cancel All Passes.

KANSAS CITY, Mo., June 28.—Herbert 8. Hadley, Attorney-General of Missouri, has requested all railroads in this state to cancel the thousands of state passes now in the hands of persons other than railroad employes, so the three mo test of the 3-cent law recently ordered by Judge McPherson may be a fair There is no anti-pass law in Missouri.

AERONAUT'S BODY FOUND

LONDON, June 29.—The body of Lieutenant Leake, one of the two army officers who made a balloon ascension before King Edward and Prince Fushimi at Aldershot four weeks ago, was found in the sea near Bridgeport tonight.

Nelidoff's Theory on Effect of Exempting Private Property.

THE HAGUE, June 29. Evidently real-America, d

produced by the statement regarding the American proposition on the subject of the principle of the exception of all pri-vate property except contraband from capture on the high sea, Mr. Nelidoff to-

capture on the high sea, Mr. Nelldoff today issued a note of explanation.

In this he said that he merely quastioned whether the principle of the inviolability of private property at sea
would be for or against the interests of
peace when the close connection between
political and commercial interests is
taken into consideration. If the latter
are injured by war, they will act as a
brake against armed conflicts, while if
they do not fear injury they may even
profit by war. M. Nelldoff wishes it understood that he did not express any
positive opinion on the subject.

BAD OUTLOOK FOR NEW DOUMA

Reactionaries Probable Winners. Regarded as Incompetents.

ST. PETERSBURG, June 29.—The most unfavorable auguries for the working power of the third Douma may be drawn power of the third Douma may be drawn from the Zemstvo Congress, which has been in session this week at Moscow. Membership to this body is dictated by the classes which will control the elec-tions in most of the provinces of Russia, and it was thought the work they accom-plished at this conference might fore-shadow the composition of the next

parliament.
The so-called "black nobility" or re-actionary gentry, were in a large ma-jority and the deliberations of the conjority and the deliberations of the con-gress were filled with a display of utter unfamiliarity with parliamentary pro-cedure and hostility towards the liberal programme. The Octoberists, who ex-pected to form the center of the new Douma, made a disappointing showing. The majority of the members seemed without plays or definite sideau and withwithout plans or definite édeas, and out leaders capable of directing the work

PROCLAIMED FROM THE HOUSETOPS

POWERS'

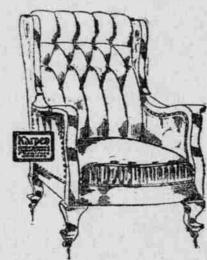

Semi-Annual Red Tag Sale

OUR business year ends August 1, and we intend to clear our store of all Odds and Ends by that time. This Red Tag Sale for the month of July is to finish the best year's business we have known and place the stock in shape to receive the recent purchases made by our Mr. Powers, who is now in the market. He writes that to insure stock for this Fall, shipments must be made at once, and to make room we must put our already large stock down to a price that will move it. So all Odd Pieces, all Floor Samples and all Discontinued Patterns will be greatly reduced to clear the floors for the new Fall lines. Cash is also a consideration, for these new goods must be paid for long before we need them, and we are willing to sacrifice on our present stock.
