LUMBER RATES UP

WILL AFFECT FALL TRADE

In Anticipation of Increase, Early Movement of Products East Is Expected by Millmen In the Northwest.

SEATTLE, Wash., July 6.—(Special.) -J. E. Defebaugh, editor of the Amer-ican Lumberman, of Chicago, today sent the following telegram to Fred H. Gliman, his Pacific Coast representative: "Have positive assurance rates to Minnesota trainer and Chicago will be advanced October 1. Notice probably to be issued August 1. Not yet known what increase will be." This is the action lumbermen have

been expecting for several weeks. An intimation was given by a railroad of-fielal four months ago that the North-ern lines would advance the rate on lumber and shingles this Summer, but the new tariffs could not be worked

out in time. From information the lumbermen have, the increased rates on all timber products will be radical. The rallroads claim that lumber rates are out of pro-portion to other tariffs. The empty car haulage and decreased earnings in the passenger department throw an extra burden upon the freight move-

The Increase in lumber rates by Oc-tober 1 will be in time to affect the entire Fall trade, and a heavy buying from Eastern yardmen is anticipated.

BIG TIMBER DEAL IN SEATTLE

Ten Thousand Acres Sold to Eastern

Capitalists for \$2,000.000. SEATTLE, Wash., July 6.—(Special.) —The Kerry Mill Company, in which A. S. Kerry and C. J. Smith are the principal stockholders, today disposed of 10.000 acres of timber lands to the Northwestern Lumber Company, a newly organized corporation. The consideration was approximately \$2,000, 000. The lumber mill at Kerryston is included in the deal. The Barley Bro-and M. F. Quinn, of Pennsylvania, are

Aside from the magnitude of the Aside from the magnitude of the timber deal, the sale has an added in-terest in the fact that A. S. Kerry, who came to Seattle almost penniless in 1889, worked up until he had leased a mill which burned in 1897. He went to Alaska, made money, returned and built another mill here, which also burned. For the third time he began again, and today's sale leaves him worth close to \$150,000. C. J. Smith, who was associated with

YOURS IN ANY CASE-

The greatest happiness in the world is furnishing up the first little home; but indebtedness beyond one's means brings a cloud that cannot be dispelled. We step right in and furnish the piano for every bride in Portland (if she'll call during our two weeks' demonstration sale)-direct from the factory-and as fine an instrument as can be shown in any retail store in Portland at twice the price.

> For two straight weeks we are not going to do a blessed thing but sell pianos; we're going to show you what a demonstration sale is; it's a sale to demonstrate a positive truth, and that is that we sell you as good a piano as is manufactured today, directly from the factory, wholly eliminating the middlemen's profit, and thereby saving you many dollars. We are outside the heavy-rent district, which fact also helps to keep the prices down. During this demonstration sale, even our usual low factory price will be cut way down, because we are ready to lose money to prove our point.

missed that sweet sense of harmonious hominess that nothing criticised us; come see if you think we could have done better but a piano inspires!

We're going to put pianos into homes where there never could have been a piano if we hadn't arranged with the Eastern factories to inaugurate this great demonstration sale.

We're going to put pianos into homes of wealth, where they'll sit next neighbor to mahogany furniture and velvet carpets, and feel right at home there, too.

We're thinking of that music-hungry young girl who's never had a piano; we're going to see that she has a piano before this two weeks' demonstration is over.

We know a mother who sings the dear old songs of her happier girlhood to her children each evening; but she hasn't a piano-we're going to put one right into her home and let her pay for it as she can.

We're going to be the joy-givers of Portland for two straight weeks. Come and see us.

To contestants and others interested: Drop in any time this week and look over the list of phrases submitted in our recent We're going to put a piano in every household where they've contest. Many people are pleased with our choice-a number than to have selected the ones we chose.

The Chinese are fore particular in this regard than the more particular in this regard than the Japanese, and it is the practice with the mejority of the former to have their mail matter sent to one of the more prominent Chinese merchants, that are more likely to have a perma-nent location than the general run of their people. It is there they receive and deposit most of their mail, and it is there the bulk of the money-order business is done for them. Postmaster Minto says the Japanese send home double the amount of money the Chinese do. Dur-ing the last fiscal year \$121,000 was sent to Japan from this city. Referring to this feature of the habits of the two peoples, a leading Oriental merchant said yesterday that the Japanese in this country are quick to take advantage of plans for the rapid dispatch of business, but the Chinese cling to old methods. As a re-sult, Japanese send their savings home, where the money awaits them on their return, but the Chinese hoard up their coin to take back home with them in case they decide to leave.
