POLICE ORDERS ARE "SHOOT TO KILL"

Chicago Citizens Aroused by Crimes Against Little Girls.

ELEVEN CASES, TEN DAYS

One Man Barely Saved From Mob Violence When Discovered as Perpetrator of Crime—Residents Terror-Stricken.

CHICAGO, Ill., July 27. — (Special.)—Atrocious crimes against little girls in the park, more especially on the West Side, surrounded almost exclusively by foreigners, have so aroused public indignation that vigilance committees are being formed to kill the wretches who lure children to secluded spots and attack them. The police also have been ordered to "shoot to kill" any suspect who does not immediately obey the order to halt. Fathers and mothers of children who have been mutilated now haunt the park, armed with knives and revolvers and the next monster caught and identified by his victims will probably be badly mutilated himself before the police can rescue him.

The man who slashed two little girls with a knife was barely saved from mob violence last night. He is a young Pole, one of the worthless, cigarette-smoking, can-rushing variety of degenerates for whom good clothes are provided by their parents and sisters and who put in their time trying to destroy children. Eleven unusually atrocious cases have been reported in the last ten days. The news of the latest victims has been obtained by the police, the parents of the children refusing to talk because of the notoriety that would be given their daughters.

Terror has spread over the district around the Stockyards adjacent to Sherman Park, where these attacks have been made. Women and children are afraid to go into the playground. Many victims of attack in the park have been most brutally treated. Children have been slashed with knives. Two are now at the point of death. Other victims have been found and hidden away by their parents.

BOARD OF TRADE FIGHT

Question to Be Settled Whether Public Can Use Warehouses.

CHICAGO, July 27.—The civil war which has rent the Chicago Board of Trade and resolved that organization into bitter factions for nearly a quarter of a century is said to have entered into its final campaign. Yesterday notices were received that the Supreme Court of the state will within a few days decide whether an injunction shall issue preventing the public grain warehouses of Chicago from going out of business pending the opinion of the court next October as to whether the railroad's centering here have the legal right to allow the public to be deprived of the facility of public warehouses. Along with this, which the public has enjoyed in some instances for more than a half century. No longer is there any doubt where the great majority of the members of the Board of Trade stands upon the elevator question, nor is there any half-heartedness in the determination to compel the elevator men to obey the law as the courts have interpreted it, which is to compel them to confine themselves strictly to the business of public warehousemen.

BANKER BUYS GOLD BRICK

Finds It's Brass After Having Paid Swindler \$10,000.

GUTHRIE, Okla., July 27.—A special to the State Capital from South McAlester says that J. J. McAlester, president of the American National Bank of that city, was yesterday swindled into paying \$10,000 cash for a worthless brass brick. A brick was offered to the banker by a man representing himself to be a miner. It was taken to the government office, and stated to contain 8 per cent of pure gold. When the deal was completed, the McAlester banker was given the imitation instead of the brick the appraiser had examined. The swindle was discovered a few hours after the transaction. Mr. McAlester is Democratic candidate for Railroad Commissioner and is one of the most prominent bankers in the Indian Territory.

PICNIC TRAIN IS WRECKED

Three Killed, 20 Injured by Breaking of Rail.

BUTLER, Pa., July 27.—Three men were killed and a score injured in a wreck upon the Allegheny & Western Railroad near this city today. The wreck was caused by a rail breaking beneath the engine of a heavy train of picnicers, who were employed on the Buffalo, Rochester & Pittsburgh road, on their way from Dubois to Newcastle. There were 400 or 500 on the train.

Reported Plot in Cuba.

HAVANA, July 27.—Senator Morna del Gado, a prominent Liberal, who participated in last year's revolt, has written a sensational letter, which is published in La Lucha, in which he charges that Maso Parra, once a Spanish ally, is planning to work up the Cuban people and induce them to vote against the provisional government. Del Gado, says Parra, is to show the Washington Government that the Cubans wish a speedy end of American supervision and a quick withdrawal of their troops. Parra denies the conspiracy and says he will conspire only when he is convinced that he has been deceived by Americans.
