

FORAKER STRIKES VIGOROUS BLOWS

Attacks Taft and Burton for Advocacy of Tariff Revision.

HITS ROOSEVELT A BLOW

Lashes Yardman and Tillman. Will Take No Orders at Washington and Will Never Get Lockjaw.

BELLEFONTAINE, Ohio, July 27.—(Special.)—"Secretary Taft favors tariff revision. I hear he is going to make a speech in Columbus in September. Now I challenge him to answer to me just where he would start in on that revision," said Senator Foraker in an impassioned address at the Logan County Chautauque this afternoon.

It was the first time that the Senator had actually attacked the Secretary of War, and his remarks evoked applause from the rather large assembly.

"Burton also favors tariff revision and so does Herrick. I don't," continued Mr. Foraker.

Gives Roosevelt Slap.

The Senator was to speak on National topics. After taking issue with Senator Tillman on the race question, defending his action on the railroad rate bill and explaining the Brownsville episode, Mr. Foraker threw discretion seemingly to the winds. Among other things he lashed Governor Vardaman, saying that, when he comes to the Senate, Mr. Tillman will be referred.

He paid his respects to President Roosevelt by saying that he (Foraker) was doing a whole lot better staying at home, attending to his own business, than in Washington, attending to other people's business.

"I am not now a candidate for office, but if I ever am, I shall not get the lockjaw," said he.

Expects to Be Eliminated.

This remark was intended as a slap at Mr. Taft and it was so construed by the crowd, which responded with cheers. Mr. Foraker said he liked Central Ohio, "but," said he, "I probably will never be with you again. I am to be eliminated. There are some good things about the railroad rate law, I wrote them," he continued.

"I am going to do what I think I ought to do at Washington. Don't send me if you want me to take orders. I can't help having my own convictions about public questions. I may disappoint others, but I have myself to live with and I must keep my own self-respect."

SALEM HAS CALLED A HALT

WOULD KNOW WHAT RIGHT PHONE COMPANY HAS.

Northwestern, a Long-Distance Service, Puts Up Poles Without Council's Permission.

SALEM, Or., July 27.—(Special.)—Under the assumption that it was operating in conjunction with the Home Telephone Company, which has been granted a franchise to install an automatic telephone system in this city, the Northwestern Long Distance Telephone Company, which is supposed to be affiliated with the Home organization, has strung its line through this city and established several long distance stations, without so much as asking leave of the city and county authorities, and now the alleged interlopers are fast to face with the choice of making a satisfactory showing of their rights in the premises or of tearing down and removing their equipment and paraphernalia from within the city limits.

The Home Telephone Company, which is under bonded obligation to install an automatic telephone system in Salem and have 400 telephones in operation within 18 months from date of granting of the franchise, will also be called upon to show its intention of meeting the conditions of the franchise in the near future or suffer the penalty of the forfeiture of its franchise and the amount of the bond.

Mayor Rodgers is investigating into the legal status of the Northwestern Long Distance Company case, to ascertain if it is charged with telegraph and telephone lines under the interstate Commerce act and entitled to the same licensed privileges as Superintendent Craig of the Home telephone franchise, to explain the situation, says his company is, and if not both corporations will be required to give an accounting and arrive at a settlement at once.

Under the Home telephone franchise, the operation of which was held up by litigation for several months by the Pacific States Company, in contesting the rights of the new company to encroach upon its territory, and but recently decided by the Supreme Court in favor of the Home people, the Home company is bound to construct its base line in the city and run all of its local wires through underground conduits, but the Northwestern constructed the line itself and strung overhead wires through the streets, and now makes out that the work is charged up to the Home people, and that the local service is under the auspices of the latter.

ITO'S PLANS FOR COREA

Save Money by Disbanding Army and Stop All Grafting.

SEOUL, Korea, July 27.—Commenting on the approval by the foreign press of Japan's procedure in Korean affairs, Marquis Ito's official newspaper says:

"Though not a voice has been raised against Japan's right to free action in the peninsula, foreign criticism would not have deterred us from doing what our dignity and vital interests imperatively demanded; but it is good to know that we are working with the approval and sympathy of our neighbors."

The first consideration of the Japanese residency will, it is said, be the obtaining of funds, but it is thought that a loan is not contemplated in view of Japan's financial disadvantage.

ago. Marquis Ito's plan of gradual reform is understood to mean the disbandment of the Korean army, thus diverting a million yen annually to the administration and enabling a reformation in taxation without increasing the burden of the people and saving much which is now peculated.

The number of new Japanese troops will equal the present quota of the Korean army.

Marquis Ito announces that he will vigorously enforce reform in the government affairs.

JAPAN TAKES STRONG HOLD

Guards Corea Railroads and Demands Reform of Court.

SEOUL, July 27.—Guards have been placed along the railways in the country today, and regular bodies of troops are patrolling all parts of Seoul.

Corean troops and rioters in Kyongson Province have attacked the police, destroyed seven Japanese dwellings, injuring six persons, and driving the Japanese to their boats.

Two of Marquis Ito's new appointees, the Minister of the Household and Keeper of the Seals, both in the Cabinet, have been ordered to reform the court, and warned that if this is not accomplished within three months their appointments will be revoked. This means putting a quietus on the activity of the former Emperor who, as late as July 23, it is said, intended to send a commissioner to Germany.

SAN PEDRO WAS IN PERIL

SURVIVORS OF COLUMBIA DEFEND CAPTAIN HANSEN.

Passengers so Crowded on Damaged Schooner They Could Hardly Stand, Says Doctor.

BUREKA, Cal., July 27.—About eight Portland people and those bound for Portland who were rescued from the Columbia disaster are still in this city. Hans C. Wahlberg, hop buyer of Portland, will leave tomorrow on the steamer Rose for Portland. He has been ill with a nervous shock but left his bed today. Dr. J. E. Paul and wife, of Nebraska, also sail on the Rose tomorrow.

A. W. Croft, also of Portland, will sail. A. L. Elvers, of Portland, is still in the city; also, B. W. Graham, of Portland; Stella Cannon, and Louis Cannon. Miss Stella Cannon is in the hospital.

Hans C. Wahlberg today signed a statement framed by rescued Columbia survivors, repudiating the charges made by Third Officer Hawse, of the Columbia, that Captain Hansen refused to take a boatload of people on the San Pedro. This statement has been signed by Dr. Paul and his wife.

Captain Hansen is exonerated also from any charge made by Hawse, whom the statement declares to be irresponsible. No more bodies have been washed ashore along the Coast as far as can be learned. With regard to the statements Hawse has made concerning Captain Hansen's alleged refusal to allow more passengers aboard the San Pedro, Dr. Foster stated that it looked as if Captain Hansen was right in doing such a thing.

"When we came up on the Elder," said Dr. Foster, "the after house of the San Pedro was packed with people. They were standing there so close together that every time the vessel would sway they would be compelled to grab hold of one another to retain their position on the boat. I think Captain Hansen did right to keep the remainder of the passengers in the small boats alongside, if he did."

HAWSE VICTIM OF MORPHINE

Columbia's Third Officer Begged for It Repeatedly.

BUREKA, Cal., July 27.—"I gave an injection of morphine to Third Officer Hawse, of the Columbia, and was so lashed for more by him twice afterward, but I refused."

This statement was made by Dr. S. B. Foster, the United States Marine Hospital Surgeon, in answer to inquiries relative to a story circulated about Hawse by passengers on the Elder, who said the man was a morphine fiend.

"I don't know that the officer was intoxicated when he came to me for morphine. In fact, I don't think he was, but I thought it a little queer that an officer of a steamship should want the drug. He told me he was not injured, but was only nervous and unable to sleep. He said he had taken the drug before, and that it had always a comforting effect."

Hawse is the man who made charges against Captain Hansen, which would make it appear that the master of the San Pedro is responsible for a greater loss of life than otherwise would have been taken.

Dr. Foster told of giving Hawse morphine after once refusing him. Hawse asked for it again the same night and the next morning, but the doctor refused to give it.

DENIES HE ATTACKED HANSEN

Hawse Now Says He Simply "Ventured an Opinion."

SAN FRANCISCO, July 27.—Third Officer Hansen of the Columbia, which was wrecked off Jumbia, has made a statement in which he denies the charges made against him. Referring to Captain Hansen, he says:

"I never did criticize his conduct, but simply made my report to the United States inspectors of hulls and boilers, in accordance with the facts, and ventured the opinion that had the San Pedro allowed me to discharge the survivors from the boat, would have had a chance to rescue more."

FREAK OF CRAZY DOCTOR

Demands \$1,000,000 by Telegraph From Chicago Merchant.

CHICAGO, July 27.—A demand for \$1,000,000 from a State-street merchant under dire threats was the climax of the eccentricities of Edwin Moras, a Chicago physician and author of medical works. The demand was on Leon Mandell on Monday in a 60-word telegram signed by Moras. The police finally decided that Moras was harmless, but needed watching.

The matter was kept secret until yesterday in consequence of efforts of friends of Dr. Moras to get the physician out of town for a much-needed rest.

Overwork and almost incessant pain resulting from the loss of his arm several years ago are supposed to be responsible for the queer actions of the physician, who has left his home and now is in the care of a friend.

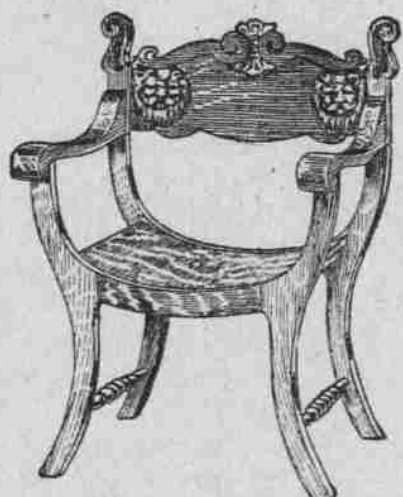

Dr. Moras admitted last night that he had sent the message, but he said he regretted it. The only thing that he could bring up against the firm was that it had sued him for a small account not over \$100, and that his neighbors were pointing scornful fingers at him.

POWERS' SEMI-ANNUAL RED TAG SALE

Only Three Days Left in which to take advantage of our greatly reduced prices. This sale ends Wednesday Night, and we intend to make the last three days the busiest days of the month. Don't put off—buy now and save 25 to 50 per cent on your household needs.

AGED SENATOR DIES

Pettus of Alabama Passes Away Suddenly.

SOON FOLLOWS MORGAN

Typical Southern Gentleman of Old School and Confederate Brigadier—In Case of Death Successor Already Chosen.

ASHEVILLE, N. C., July 27.—United States Senator E. W. Pettus, of Alabama, died at Hot Springs, N. C., at 10 o'clock tonight.

Mr. Pettus became unconscious while at breakfast yesterday and remained unconscious till his death.

Mr. Pettus died from the effects of a stroke of apoplexy, with which he was seized while at the breakfast table yesterday morning. His entire body was paralyzed and he had not recovered consciousness since that time.

Mr. Pettus' daughter and his grandson, E. W. Pettus, Jr., reached Hot Springs an hour before the Senator's death, but he did not recognize them.

The attending physicians say that from the moment of the apoplectic stroke Mr. Pettus suffered no pain and that he passed away quietly.

Mr. Pettus celebrated his eighty-sixth birthday at Tate Springs last week and on that occasion his unusual vigor was the subject of comment.

Senator Edmund Winston Pettus, who died today, was born July 6, 1821. He received his education in the common schools of Alabama, and his collegiate course in Clinton College, Tennessee. He was admitted to the bar in 1842, beginning his practice in Gainesville, Ala. Two years later he was married to Miss Mary S. Chapman.

FIRST AND TAYLOR

ENGINEERS STAND TEST

GREAT EFFICIENCY SHOWN ON HARRIMAN LINES.

Surprise Signals Observed in Every Case on 12 Tests, 95 Per Cent on Others.

OMAHA, Neb., July 27.—(Special.)—Remarkable efficiency on the part of the engineers of the Union Pacific and other Harriman lines is shown as the result of a series of surprise signal tests just completed. Out of 196 tests, the signals were observed and fully complied with in 180 cases. Eighteen different tests were applied, besides special tests, and in 12 of the 18 cases the record was perfect. In no one of the 18 was the percentage observed below 95.

These surprise tests have been made for four years on the Southern Pacific and three years on the Union Pacific. They are made in person by each division superintendent on his subordinates. The general manager and general superintendent also made a certain number of surprise tests each month.

The tests cover the use of torpedoes, fuses and slow and red flags, switch lights out and at danger and all semaphore signals. The results are reported to the director of maintenance and operation. Officials say the percentage of failure is higher in the tests than in actual operation, for the reason that the tests are made as difficult as possible, with the purpose of catching the engineer unawares.

First East River Tunnel to Open.

NEW YORK, July 27.—The first of the tunnels under the East River, connecting New York and Brooklyn, will be opened for passenger traffic late in October or

early in November; according to an announcement made by Public Service Commissioner Davis. This marks the completion of the first of several underwater routes that are to give improved traffic communication between New York and Long Island.

Agreed to Fix Health Board.

CHICAGO, July 27.—Dr. Edward Dowdall was arrested last night, accused of obtaining money from medical students and from women who are endeavoring to pass state examinations to obtain certificates as midwives, the money to be used in "fixing" Dr. James A. Egan, secretary of the State Board of Health. A woman complained that she had paid him \$100 to secure from Dr. Egan a charitable scrutiny of the answers she made in the state examination by the Board of Health, now in progress here.

Noted Publisher Very Ill.

CHICAGO, July 27.—R. C. Michaelis, the well-known publisher of the Staats Zeitung and Chicago Freie Presse, of this city is critically ill at his summer home near Medford, Wis.

Indicts Woman in Runyan Case.

NEW YORK, July 27.—Laura M. Carter, the woman who betrayed Chester B. Runyan, the paying teller of the

Windsor Trust Company, who stole \$96,000, has been indicted for receiving stolen goods. Runyan says he gave her \$15,000 of the \$80,000 in cash he stole, and that she took another \$10,000 when he was not looking.

New Assassination Plot Found.

ST. PETERSBURG, July 27.—The police today unearthed a plot to assassinate the Minister of War, General Rodziger. Several members of the military organization of the Social Revolutionists were arrested.

Peculiar to Itself
