SEATTLE, Wash., Aug. 2.—(Special.)—Virgil Garvin threw the ball into the bleachers in an attempt to catch Harry Rush, running for Walsh, napping off first in the sixth inning, and Scattle got its only run through the lanky Texan's courtesy. Cartwright was not anywhere near the base when the ball was hurled over the bag and Rush rouped home. Garvin was in the best possible shape and Seattle only got two hits off him. Up to the sixth inning it was a pitchers' battle and Con Walsh had only allowed one hit, but the Miners went after Walsh in the sixth and, with errors, scored three in the sixth and, with errors, scored three times. They renewed the bombardment in the ninth. Three fast double plays were features of the game and Bell's hitting was a feature. Terms: 1/2 Cash, Balance Within One Year From Sale

Extraordinary conditions with which everyone through the daily press dispatches is familiar have compelled our San Francisco establishment to call on us for immediate and prompt assistance.

First came the strikes of May and early June, paralyzing business for weeks. Then the unfortunate second great fire on Van Ness avenue, which caused the insurance companies to cancel the greater part of the policies on stock contained in temporary buildings. Confronted first by the inability to transact business, and then unable to secure the necessary insurance protection, it became imperative to find an immediate outlet for a large number of pianos contracted for from various high-grade American makers.

Seven carloads of them were therefore diverted to Portland-117 pianos-choice and fresh and splendid. We've undertaken to sell them. We must do so within the next ten days. Profit-making is out of the question in such an undertaking, hence the price-57c on the dollar. New \$200 pianos are now \$114; \$300 means now \$171; \$400 is \$228. Remember, we guarantee the price and value of each piano as well as durability and quality. Terms really should be all cash, but we'll say half cash now and balance within a year, if more convenient. We'll not split hairs over that part of it. The main thing is to sell these pianos, to sell them quickly, and with the least interference with our regular work.
