Candidates for State Offices Think They Would Gain Strength.

ANKENY MAY NOT ENTER

Old Politicians Do Not Consider His Announcement of Candidacy Seriously-Has Lost His Organiza-

tion-Cushman a Power.

SEATTLE, Wash. Aug. 17 .- (Special.) If Congressman W. L. Jones wants to tie up to a group of candidates for State offices, he can choose from a wide range of selections. Somehow the suggestion of a tle-up with Jones looks attractive to a number of candidates who want a re-nomination or want to slip into a new berth. The story has been industriously circulated that Mead has a tie-up with Jones. It has been announced that Jones' Senatorial candidacy would be linked with the Congressional boom of T. D. Rockwell of Spokane. There has been talk of putting Jones' name into a comtalk of putting Jones' name into a com-plete slate for all State and Congres-

Friends Urge Jones to Go Alone.

Aside from the fact that Jones has won in Washington politics ever since 1898 by keeping out of factional troubles, it is a fact that none of those local candidates eager for a deal with the Senatorial aspirant can bring him anything. Jones has one object in making an alliance with any one, for as the list of assets, politically, that any of the candidates can show are scanned it is easy to discover that Jones already has everything they can offer. The overtures for an alliance with the Yakima Congressman are all selfish. figured he can pull through other candidates who would be weak if running on their own responsibility but who might be made strong if they carried the Jones in-

While the Senatorial fight right now is one between Jones and Ankeny there is no assurance that other candidates will not be found. Jones realizes that he may have to fight a big field and he is not in a mood to complicate himself by per-mitting others to benefit by his popularity. So long as Jones remains inde-pendent in his attitude toward all other offices, the inclination to find someone to fight him or an excuse for opposing him is minimized. Were he to agree to any of the proposals made to him for slate-making he would invite the opposition of every man whose name was left off the slate. Entirely apart from the fact that Jones does not want to mix up in local quarrels, his friends are taking the posi-tion that he cannot afford to invite trouble. If the time should come that an organization is formed against him, he might organize with other nomination-seekers. In the meantime Jones' friends are insisting that he keep clear from any

With the announcement of Jones' Senatorial candidacy and Ankeny's official statement that he is to be considered in the race, the fight has rested. Both the Senatorial candidates have gone home and stayed there. Neither proposes to do much traveling about the state this Summer and comparatively little organization work has been attempted.

Ankeny Not Expected to Run.

The feeling that Ankeny will not go through with his promised Senatorial fight keeps growing despite his announcement that he is still in the race. Old politicians believe that Ankeny next year will decide that he does not want a second term and will drop out of the race. That feeling, whilch is not based upon anything stronger than a "hunch" is responsible for the apathy of the old time Ankeny They are doing nothing thus far, explaining the meanwhile that they are indifferent because they do not expect the Walla Walla man to stay in the Senatorial race. The fact that Ankeny has not done any organization work and does not show much inclination to build up a machine for his campaign strengthens this impression. There is no question, though, that the old time Ankeny supporters will remain loyal until Ankeny releases them. Even if they are going into a losing fight they will stand with him and it is a rather significent fact that despite all that has been said of Ankeny and his organization the men who supported him in the past are willing yet to lose if necessary to indicate their present day loyalty.

Ankeny Lost His Organization.

Ankeny did not keep up his organiza-tion after being elected to the Senate. The Ankeny lenders appeared to drop out and Ankeny's personal interest was diminished by his success. The prepon-derance of a "new" vote in state poli-tics makes the lack of a thorough or-ganization a serious matter now. In the older days of politics pretty nearly the older days of politics pretty nearly everybody in the state knew something of Ankeny and touched elbows with someone out working in his interests. The public never got a chance to forget that Ankeny wanted to be Senator, or that active workers wanted him elected.

an apartment is less than \$100 a year. The secret of Ankeny's success in 1903 was the fact that every member of the Legislature that year had been sounded before he was nominated, and a thor ough Ankeny organization knew just which members preferred Ankeny as a first or second choice. That kind of organization kept the Ankeny crowd up on their toes, and its absence now lends color to the claim that Ankeny is not decided in his Senatorial aspirations. At the same time Ankeny claims that he ought to be elected on his record, and that the necessity for an organized fight does not exist. That question has not been discussed much by the old-time Ankeny following.

Congressmen Will Support Jones.

The weight of the Congressmen's influence will naturally be thrown to Jones Public oninion is that both the Congressmen believe they are good Senatorial timber and that Jones' elevation would be accepted by both Cushman and Humphrey as a nice precedent. Of course Humphrey must suppress any feeling of that kind he may entertain, for he has to remain loyal to Piles. But Cushman, who has come into absolute control of Pierce County politics, can nurse a Sena torial beom of his own and it is no secret that the Cushman workers hope it will work around so that Cushman can be the ceremony. candidate against Piles. Cushman has couple will go to Yakima, had to wait for several years to be recog-

tics of that county, for though he has had the delegations for ten years, other men have actually controlled. It is likely the feeling that Pierce has a chance to get a Senator through Cushman strengthens his iold upon the Republican organization Piles' forces have not taken any part thus far in the Jones campaign. Jones is personally very popular not only in the Piles organization but in Seattle. Those who have followed politics closely admit a deep obligation to Ankeny, and Seattle is not yet ready to choose between a fulfilment of a political debt and an organization for the future. That is why the Senatorial gossip here is being re

Harvest Hands Strike.

OAKESDALE, Wash., Aug. 17 .- (Spe cial.)—A strike among the harvest hands employed by A. M. Krouse caused some excitement and much comment on the streets yesterday. Mr. Krouse is running a thresher a few miles west of town, and his men figured up that he was making \$100 a day. Claiming this was too much money for him to make off their work, the men demanded more pay. Mr. Krouse refused. HOMES FOR FAMILIES ONLY

Roosevelt's Idea Takes Root Even in the City of Gay Paris.

PARIS, Aug. 17.—(Special)—A tenement house after President Roosevelt's own heart has just been opened in he Rue Bellard. It is a block of workmen's dwellings which will be let only to tenants who have large families. The building, which is one of several of the same kind, is not only a counterblast to race suicide (which is more serious in France than in any other European country), but as

a commercial enterprise to provide what is badly wanted. The possession of children has hitherto barred humble folk from most of the cheap flats in Paris, and many familles have made heartbreaking searches uarters in which to house their olive

These will be welcomed in the new tenements, where, indeed, no childless families will be allowed to rent rooms. No tenant will be quick to complain about the youngsters, since every one will have

their own. One such children's tenement which has been running since 1902 has 510 inhabitants -mostly children. No family is allowed to live there unless there are three or more children. Four of the families in

LETTER TO TOKIO PAPER

Thinks Immigration Should Not Be Permitted to Extent of Raising Race Question, and Cites Japan's Corean Troubles

OMAHA, Neb., Aug. 17.-(Special.)-Count Okuma's organ in Tokio, Hochi Shimbun, which is seeking expressions of opinion concerning Japan and the Japanese from public men in this country, has secured a letter full of friendly feeling toward the Mikado's country from William J. Bryan. Mr. Bryan writes:

"The progress of Japan has been watched with pride and satisfaction, our interest being increased by the fact that our example has had some influence in inspiring your development. I see no reason why the two nations should not be mutally helpful and rejoice in each other's growth and prosperity. The in-flammatory utterances attributed to some of your politicians have excited some reseniment here, but I am sure that the sober judgment of both countries discountenances any thought of war. Neither of government is likely to do anything of which the other can justly complain.

Immigration and Race Question.

"If any of your citizens residing here suffer injustice our courts are open to them, just as your courts are open to our citizens residing there.

"In matters of immigration each nation course, has and should exercise the right to protect its own interests and I am sure that neither nation will impose restrictions except when those restrictions are necessary. Speaking as an American, I am confident that such restrictions as may be made by the United States con-cerning immigration will be made with a view of preserving amicable relations rather than with thought of offending. It would be a mistaken kindness for either nation to permit immigration to such an extent as to raise a race question or to excite race animosities. Your nation has had experience enough in Corea and China to know what race prejudice is in

Meet Japan With Candor.

"Animated by a desire to do justice and sincerely anxious to be on good terms with all the world, our Nation will meet Japan in a spirit of candor, and I have no doubt that such differences of opinion as may from time to time arise will be set-tled to the satisfaction of both nations through their diplomatic representatives."

WOULD MAKE RED WHITE

"Experts" Find Signal Lights Have Two Meanings on Railroads.

WASHINGTON, Aug. 17 .- (Special) --The Board of Experts appointed to investigate the signal system of rail-roads of the United States will be confronted at the outset with the fact that there has been completed a more or less startling revolution in block-signal practice during recent years. This is nothing less than changing the universal and time-honored white light

from safety to danger signal. Ever since block-signaling went into effect on American rallways, and even before that time, the white light at night has been notice of safety to men on "head end." It still is so on a ma-jority of the lines, but generally man-agess throughout the country have de-cided almost without exception that the best signal practice discards the white

best signal practice discards the write light as a sign of "clear ahead" and transfer its meaning to "something wrong; stop immediately." This revised language has become such because of the fact that it has been discarded from the signal lex-leon of the best authorities and by many of the largest rallway systems of the United States.
