

# -let us deliver to your home a Buck's range on approval-

**-a white enameled oven which insures clean, wholesome food**

—good health is largely dependent upon clean food—clean food cannot be prepared in a dirty oven.  
 —a sanitary oven is even a greater necessity than a sanitary refrigerator—for during the process of baking, chemical changes render contamination doubly easy.  
 —why take great care in the preparation of a fine cake, for instance—then bake it in an oven, the seams and joints of which are filled with contaminating filth?  
 —Buck's white enamel is not a paint—but a white glass enamel—burned into the pores of the iron—and is practically everlasting.  
 —Buck's ovens are absolutely clean—a reason why you should own one.

—here is the greatest stove offer ever made to the buying public of this city.

—through special arrangements with the Buck's Stove and Range Company we are enabled to deliver to any home in the city or vicinity, a Buck's range for a thirty days' thorough approval test.

—if the stove does not perform all its functions properly, does not do all that we say it will do, we will cheerfully remove it and refund any payment that may have been made on same.

—if the range has proven satisfactory in every way, we offer it to you on the liberal time payments mentioned below.

—this once-in-a-lifetime-offer is based on our faith in these wonderful ranges—an opportunity you cannot afford to overlook.

—we will accept your old stove or range in exchange and for which we will give liberal allowance.

**-this duplex grate will reduce your fuel expenses**

—the first cost of a Buck's range is but a small part of the final cost—the range is so long-lived that it eats up many times its original price in fuel.  
 —a very small saving of fuel each day, means a tremendous saving during the lifetime of the stove—a saving of many times the original cost.  
 —this duplex grate saves fuel—for it admits oxygen to the burning fuel in such quantities that all its heating power is exhausted and used.  
 —and further—this grate may be changed—in an instant—so as to burn either wood or coal—and it may be easily removed for cleaning or repairs—and without disturbing the water back.  
 —this is just one of many reasons why you should own a Buck's.

**ONE DOLLAR AFTER 30 DAYS' APPROVAL TEST AND ONE DOLLAR PER WEEK THEREAFTER**

## BUCK'S HEATERS

We commence the season with the most complete—the most extensive and the handsomest line of heaters ever displayed in this city. The many sizes and styles for both wood and coal represent all that is modern in heater construction—embracing such exclusive and scientific features as will enable the heating of your home to be done satisfactorily—and economically—to say nothing of numerous other advantages.

We mention particularly the new line of the famous "Buck's Hot Blast"—the heater which produces more heat for less money than any other stove in the world. The accompanying cut illustrates one of the many distinctive features of this wonderful heater—the hot-blast ring, in which lies the secret of its great economy and heating power. We will be pleased to show you other features of interest—that are worthy of consideration when selecting a heater. In the Basement Department we are showing wood and coal heaters in every practical size, and we offer you selection from this most complete line on the liberal payment terms of \$1.00 DOWN—\$1.00 WEEK.
