UNIVERSITY OF OREGON, Eugene, Ore., Oct. 19.—(Special.)—The school of music of the University of Oregon is enjoying at the present time the most prosperous year in its history. All of the departments are crowded to their limit and several more assistants are needed and would be provided were it not for the scarcity of funds in the university treasury.

Of course the increase in the number of musical students goes directly hand in hand with the increased number of students in all other departments of the university, but the principal reason for the remarkable growth of this important part of the university lies in the fact that artists of the highest degree have been called to the heads of this department and on this account the school of music has become more popular than ever.

Harris, the greatest musical coach in America and under Karl Brenehan, the celebrated voice builder. Mrs. Pope has taken part in many important programmes throughout the Northwest. She continues to study voice under Mrs. Walter Reed and says that in her opinion Mrs. Reed has no peer in America among artists having voices similar to her own.

NEW YORK CITY CAREFULLY GUARDS ITS MILK SUPPLY

TO show that I am not alone in this matter of milk inspection, I want to call attention to what is being done in New York City," said Dr. W. I. Cottel yesterday. "The following is an extract from an able paper on this subject by Dr. Darlington, one of the leading authorities in this country, and recently published in the Journal of the American Medical Association." The article Dr. Cottel refers to follows:

Large and well-planned refrigerator cars have been added to the milk service. All of the railroads are erecting or have erected icehouses of great capacity in order that they may supply their shippers with a sufficient quantity of ice to carry them through the warm and critical months of the year. As a result milk is now transported under excellent conditions and the required maximum temperature of 50 F. is almost universally maintained. As it is a well-known fact that in milk at or below this temperature bacteria multiply slowly, if at all, particular stress is laid on this point. At the depots or receiving stations in the city inspectors are at hand to watch the milk as it arrives. If there is any question as to the proper care of the cans a thermometer is used and all milk found to be above 50 degrees Fahrenheit is promptly condemned and destroyed.

Men's \$20 Suits \$14.65

For Two Days Only Monday and Tuesday

we offer the choice of any \$20.00 Suit in the house for

\$14.65

500 Suits in fancy worsteds and cashmeres. An unrestricted choice of suits that sell at other stores for \$22.50 and \$25.00.

Suits of such well known brands as "Sterling" and "Eton" included. In fact, the best tailored garments in the world may be had Monday and Tuesday and the choice of them all (all \$20.00 suits) \$14.65.

Men—this is an opportunity seldom presented at this season of the year. A straightforward saving of \$5.35 to you and the possession of the best \$20 Suit you ever owned or wore. We know that if we sell you one suit we will sell you all your clothing. We want to sell you this first suit Monday or Tuesday even at a money loss to us.

Every Man Who Values Money Should Be Here.

I. GEVURTZ & SONS

FIRST STREET ON YAMHILL SECOND STREET

Bryant, T. Mitchell Prudden and Rowland D. Freeman. This commission reported to the Mayor on May 22 of this year, and I will briefly state some of their findings and conclusions.

The report states that the scope of investigation covered every stage through which the milk sold in this city passed from the cow to the consumer; that milk obtained from a healthy cow, in a proper manner, is always wholesome, and never a source of danger if it is kept cool and uncontaminated and consumed within a limited time, but at the same time is a substance in which germs multiply rapidly under conditions favorable for their growth; that these contaminations arise from dirty surroundings, from milking with dirty or wet hands, by the use of dirty utensils or contact with impure water or by keeping milk at a warm temperature favorable to the propagation of germs.

To secure a good milk supply it is of the first importance to educate the farmers regarding the measures which alone make this result possible, and afterward to see that the rules relating thereto are carried out. Since for the most part the contaminating agents which render milk dangerous are introduced at the farms, the production of good milk demands that the farmers be educated so as to secure the result, and also that proper surveillance be exercised.

To have efficient inspection of the milk business of New York City at least five inspectors for the country districts from which the supply is drawn, in addition to the 15 now available, should be employed.

TOO VALUABLE TO BE SOLD

Japanese Says Philippines Thrive Under American Rule.

WASHINGTON, Oct. 19.—Mall advices from Manila report that Akasa Tsuka, the Japanese Consul for the Philippines, has recently concluded his first visit to the southern islands.

Upon his return to Manila, the Consul said that the great natural wealth of the southern Philippines astonished him and that he can readily see that the United States will never desire to sell the islands.

He was very much impressed also with the military government of the Moro provinces. He considers it one of the most effective and practical systems that could be devised for the Moro.

"This Moro," he said, "seems to be bright and honest and will, under the present system of government, develop into a fine citizen some day, as have the natives of the mountains of Formosa under the Japanese government."

"Everybody in the southern islands seems to be talking hemp and copra and leaving politics to shift for themselves, and there seems to be no question of race, or anything except the development of the country. This and bettering their own condition seem to occupy Americans, Japanese and Filipinos, and I think that this accounts for the present prosperity," said Mr. Akasa Tsuka.

RESIST SUNDAY CLOSING

Theaters to Open and Wholesale Arrests to Follow.

KANSAS CITY, Mo., Oct. 19.—The theaters will be open here tomorrow. This information is final. The indictments by the grand jury are to begin against the players who come to Kansas City and start their Sunday engagements tomorrow.

Judge Wallace told the County Marshal yesterday to select the extra deputies he will need for tomorrow's work, and that he would confirm their appointments this afternoon. If the Police Board at its special meeting should issue an order instructing the police to help in the Sunday crusade, it would relieve the Marshal's force of much work that it is anticipating.

"We are just going on about our business," Abraham Judah, president of the Theater Managers' Association said last night. "The thing will have to take its course in law."

RIOTERS WERE FANATICS

New Orleans Fusillade Due to New Brand of Religion.

NEW ORLEANS, La., Oct. 19.—Factional excitement of negroes, calling themselves slaves "by council of God" appears to have been the cause of the riot last night on New Orleans street, in which one policeman was killed, several others wounded and a number

What makes it the popular route to the East?

The Northern Pacific Railway

Ever has in mind the comfort of its patrons. Its through transcontinental trains are composed of new and modern equipment, which is kept in perfect condition. The latest improvements are found in day coaches, in standard Pullman and tourist Pullman sleeping-cars and in dining and observation cars. None but the most competent, civil and obliging employes are in charge.

The company tries to make the journey of its patrons pleasant, and its efforts are appreciated.

Rates will be quoted on application and all information regarding trains will be furnished. Apply to agent and have him arrange your berth reservations.
