Old-Fashioned Earrings Again In Vogue

Maids Now Appear With Their Dainty Ear Lobes Decorated With Bits of Straw or Silk Thread-New Styles Obviate Piercing.

HE earring has again arrived. clent ornaments previously barred as a relic of barbarism, have been threatening to return, and now comes the fulfillment of the threat, indorsed by Paris and New York fashion, and leading jewelers everywhere, from metropolitan city wayside village, are stocking up with the tiny hoops of gold, in various molds and a wide variety of jeweled settings. The erring is again the thing, and hence-forth no maid's jewel box will be complete without a pair of pretty pearls, two globules of polished pink coral or other twin jewels, hung in gold hoops or set in gold screws, for her dainty ears. With the revival of the earring, how-

ever, the jeweler has given thought to the modern prejudice against the .ndisputably barbarous custom of piercing the ears. and the much-quoted parallel of hanging aring in the nose. As a consequence the very newest thing in ear ornaments is not an earring at all, but a jeweled clasp, which can be worn without in any way mutilating the ear at all. The securing arrangement is really a tiny vise, modeled upon the plan of the regular blacksmith's vise, and the jeweled ornament is held firmly in place by the turning of a tiny worew with a flattened end, which presses screw with a flattened end, which presses against the back of the ear lobe, with a grip which insures safety and yet does not involve discomfort. The rest of the ear ornament is fashioned the same as the ordinary earring, with the exception that

ordinary earring, with the exception that the hoop runs under instead of through the ear. This new class earring is shown in No. I in the accompanying pictures, the large pearl being held firmly in place by the class which presses against it from behind the lobe of the ear.

This class ornament and the other representative styles of earring shown here are from the stock of a Morrison-street jeweler, whose selection of ear ornaments is calculated to answer the demands of many and varied tastes. Coral and pearls will be the most popular, this jeweler says, but opals, diamond chips, emeralds, sapphires and other Jewels always have their champions, and some of the prettiest deelgns are in these settings. Then, too, there is the old-fashioned earring, such as our grandmothers wore, and the jewelry shops are making a specialty of the

as our grandmothers wore, and the jew-eiry shops are making a specialty of the long pendant of plain gold, and of onyx or other old-fashioned stone, set in gold. By many the old-fashioned designs are preferred, and these will be ultra-fashion-able. Of course the heavy pendants, which pull down the ear lobe and disfigure the ear, will not be popular, but lucky is the maid whose treasure-box contains an heirioom of ear ornaments of ancient design and weight light enough to be worn without tugging too hard at her dainty auricular member. Such a pair of orna-ments is shown in the central picture, the

pendants being of onyx and gold in a wheel-shaped setting.

A dainty design, in which twin pearls are employed, is shown in No. 5. The pearls are set in gold pendants so as to hung just a triffe below the lobe of the ear, and for either blond or brunefte are

No. 2 shows a clover-leaf design in tiny onais. This setting is placed upon an earscrew, which is turned through the ear and secured with a gold clamp from behind. In this style of ear ornament the jeweled setting is pressed tightly against the ear, and many of these settings are in the tinlest size imaginable. Single stones of sapphire, turquoise or coral are shown in such a miniature setting that when in place they show only the tiniest dot of color against the ear.

One of the novelty designs is shown in No. 5, a pansy of gold with a diamond-chip heart. The novelty currings and ear-chasps are of wide variety, and may be
