LIKEA MAN-OF-WAR

Bark Homeward Bound Is as Neat as a Pin.

FLIES AMERICAN FLAG

Has Cargo of Coal From Newcastle, but Is as Spick and Span as an Atlantic Passenger Ship-Formerly Otto Gildemeister.

With the appearance in the harbor of the American bark Homeward Bound, Captain Thompson, comes a vision of bygone days, when the American flag floated over many wind-jammers and the fleet merchant ships flying the Stars and Stripes was a factor in the commerce of the world. The Homeward Bound is an American ship and is commanded by a captain who was schooled under the famous Sewall was schooled under the lamous Sewaii and whose ship is his pride. From stem to stern she is as clean as a new pin and a man-of-war would have to hurry to beat her out in appearance. The Homeward Bound is painted white and with the exception of the topgaliant masts and the mizzen topmast her spars are all of steel. At the Southern Pacific dock above the Steel Bridge she is sparred out six feet in accordance with the quarantine regulations, and every yard is braced

The crew of the Homeward Bound was paid off yesterday and the manner in which they approached the Customs officer bespoke the training they had received on the voyage from Newcastle. Each man lined up with hat hand and conducted blusself as a in hand and conducted himself as a This in marked contrast to the coastwise sailors and some others who by force of circumstances have been destined to receive their pay at this

For the past six years the Homeward Bound has been flying the American flag and has entered and cleared un-der that name. She was built at Bel-fast, Ireland, in 1885, and was chris-tened the Zemindar. Later she was sold to the Germans and renamed Otto Glidemeister.

In 1890, while under charter to load wheat at Portland for Kerr-Gifford & Company, she became a conspicuous figure in shipping circles. She sailed from Yokohama for the Columbia River and 75 days later appeared off San Diego, Cal., in a dismasted condition. At that time there was 90 per cent re-insurance on her. Shortly after leav-ing the Japanese port there was a ing the Japanese port there was a terrific storm and many vessels went to Davy Jones. The Glidemeister went on the board for re-insurance and over \$300,000 was played on her. When she appeared off San Diego she refused the services of a tug, but was later towed into San Francisco harbor. amount of money played on her enormous and the underwriters declared her a constructive total wreck. Experts declared that she could be repaired for \$25,000 and the on constructive wrecks calls for \$80,000. The matter was thrown into the courts and the underwriters won. Therefore, the vessel was allowed an

American register.

Captain Thompson, who commands the Homeward Bound, is a master of the old school. He is a skipper in every sense of the word. Of the old Sewall sailors there are few left. Captain Conway, now superintendent of water lines for the O. R. & N. Co.; Captain T. J. Macgenn, of the Breakwater, and Captain James Watts, of Brown & McCabe, are representative of a fast-disappearing set of sailors. American register. a fast-disappearing set of sailors.

FRENCH BARK BIDART FIXED

Chartered for Cement From Antwerp and Grain Outward.

The French bark Bidart has been chartered to load cement for Portland at Antwerp and to carry grain from this port to the Continent for a return voyage. The charter was made several days ago but the name of the vessel was not made nublic until vessel. vessel was not made public until yes-

The Bidart is a craft of 1731 net tons register and arrived at Limerick, October 4, with grain from Puget Sound. She is listed for April loading at this port. Outward charters have been quiet for a veek past. This is largely due to the financial situation as shippers cannot secure money with as shippers cannot secure money with which to clear ships and eargoes fo the Continent. A change is looked for by the first of the week,

LUMBER STEAMER CLEARS

Steamship Invernan Carries a Fulf Load to Manila.

Exports for the month of November commenced yesterday, when the British steamship Invernan, Captain Marshall, cleared for Manila, P. I., with 3,297,880

Lumber shipments for November bid fair to beat those of October. The Terje Viken will clear in the morning. and there are a number chartered for loading during the month.

feet of lumber, valued at \$54,394. She will leave down this morning.

Schooner Garms Clears.

ASTORIA, Or., Nov. 2.-(Special.)-The schooner William F. Garms cleared at the Custom House yesterday for Sydney, Australia, with a cargo of 1,347,560 feet of lumber and 1605 bundles of lath, loaded at the Knappton Mills. The Garms com-pleted her crew this afternoon by signing ii new men and will be ready to go to ea as soon as the weather conditions are

Petrel Sinks in the Willamette.

The steamer Petrel ran into a raft of boomsticks moored at the Penin-sula Mill late Friday night and sank in 15 feet of water. A large hole was torn in her starboard side. She sank so quickly that it was with difficulty that the crew escaped the boom. A wrecking outfit was sent down yesterday and it is hoped that the Petrel will be affoat by tomorrow.

Bailey Gatzert Arrives Down.

The steamer Bailey Gatzert, which struck a rock near Washougal Friday morning, reached the drydock yesterday under her own steam. She was raised and will be ready for service tomorrow. A large hole was torn in her port side almost amidships. No frames were broken and only the planking will have to be replaced.

Wireless Pole Breaks.

ASTORIA, Or., Nov. 2.—(Special.)—An attempt was made by Birch & Jacobsen. the contractors, to raise the 250-foot pole for the wireless telegraph station that is being erected on the hill in the west end of this city, but the middle section of the

delay the work for several days, as a new stick is now being prepared to replace the

Marine Notes.

Onion-Growers Satisfied With Present Conditions.

WILLING TO SELL SOME

Statistics Collected as to the Unsold Crop-Stagnation of the Hop Market_Grain Prices Are Nominal.

At the meeting of the Confederated Onion Growers' Association yesterday, entire confidence in the future of the market was expressed. It is realized that the present financial situation does not promote activity, but the growers expect the advance to be resumed as last night, and will return to Portland Monday.

In their latest weekly trade letter, W. H. and H. Le May, of London, commenting on the English official crop figures,

The last Government return of the weight of hops used by the brewers (October 1st. 1905, to September 30th, 1906) was 571,005 cwts. Now, if we add to this 50,000 cwts, required by exporters, manufacturers of non-alcoholic drinks, yeast making, home brewers, etc., we have a stotal of \$20,000 cwts. This leaves a short-

total of \$21,008 cwis. This leaves a short-age of \$45,879 cwis."

Bloch Bros., hop merchants, of Nurem-berg, report, under date of October 10:

"Since our last report, both home and export trades have bought quietly on our market. But considerable quantities of market, but considerable quantities of hops have been acquired, also for these accounts, in the growing districts. Stocks here are large, consisting for the most part of high-priced hops. Rates are some-what lower than they were last month,

ovember Salled soon as money eases up. It was the fected for German brewerles and other consensus of opinion that some of the expect the advance to be resumed as soon as money eases up. It was the fected for German brewerles and other consensus of opinion that some of the expert purposes, especial for the U. S. A., stock being held should be marketed.

True Cures for Men

OUR FEE

Established 27 Years in Portland.

Consultation Free Will Treat Any Single Uncompli-

Absolute Guarantee No Pay Unless Cured

cated Allment for \$10.00

We cure safely and premptly WEAKNESS, LOST MANHOOD, SPERMA-TORRHOEA, SPECIFIC BLOOD POISON IN ALL STAGES, VARICOCELE, HYDROCELE, GONORRHOEA, GLEET, OR ANY OF THE DISEASES COMMON TO MEN. Personal attention given all patients.

In selecting a physician or specialist, when in need of one, some consideration and thought should be given to the qualifications, experience and length of time an institute or medical man has been located in the city. It stands to reason that an institution that has stood the test of time and numbers its cures by the thousands is far superior to mushroom institutions that spring up in a night, last a few months and are gone. We have been curing men 27 years and are the oldest specialists curing men in Portland.

WE CURE WEAKNESS

This is to men who lack courage, whose perves are shaken, whose eyes have lost the sparkle, whose brains are muddled, ideas confused, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of fallure, who want some hody to decide for them, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new energy. We especially solicit those cases in which many so-called treatments have falled or where money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of cure by local treatment.

We invite those who have deep-seated and chronic disorders to call and be examined. Consultation and examination is free, and carries with it no obligation to engage our services.

Our offices are equipped with the most modern and scientific mechanical devices for the treatment of chronic diseases. Our charges are reasonable and in reach of any workingman. Write if you cannot call. Our system of home treatment is always CER-TAIN and most successful. All correspondence sacredly confidential.

MEDICAL AND ST. LOUIS SURGICAL

CORNER SECOND AND YAMHILL STREETS, PORTLAND, OREGON.

I Save You Time, Suffering and Money

My Fee \$10 In Any Uncomplicated Disorder ted Disorder

Even though your case may be one that some other doctor is able to cure, and though his cure be absolutely thorough and permanent, there is yet good cause for your coming to me for treatment. The service I render is entirely unlike and better than the ordinary. I have devised new and scientific methods of treating men's diseases in all their phases. I cure cases that others cannot cure and cases that others can cure. I cure in less time and without pain or possibility of injury. All my forms of treatment have been perfected along the lines of nature's requirements, and are in exact harmony with the natural recuperative forces. Therefore, my cures are painless, prompt and thorough.

Not a Dollar Need be Paid Until Cured.

Varicocele

There is no necessity for surgical operations in the treatment of Varioccie. This disease yields completely to my mild and painless method, and results are far better than were ever attained by the harsh and dangerous practice of cutting. But one week is required, and seldom is it even necessary to detain the patient from his business.

Stricture

In the treatment of stricture, I have again triumphed over surgery. I employ an original method, by which the obstructing tissue is completely dissolved, and all inflammation and irritation throughout the system involved are completely removed. No pain, no cutting, no dilating, and a sure cure in every instance.

Contracted Disorders

The serious results that may follow neglect of contracted discusses could scarcely be exaggerated. Safety demands an absolutely thorough cure in the least possible time. I have treated more cases of contracted disorders than any other physician on the Pacific Coast. My cures are thorough stnd are accomplished in less time than other forms of treatment require in producing even doubtful results. I employ remedles of my own devising and my treatment is equally effective in both recent and chronic cases.

Weakness

Weakness" is not a nervous disorder, demanding a tonic system of treatment, but is merely a symptom of chronic inflammation or conjection in the prostate gland. This condition exists as a result of early dissipation, or eome improperly treated contracted disorder, and requires carefully directed local measures only. By my own original methods, the prostate gland is quickly restored to its normal state, which results in full and complete return of strength and vigor. My cures are permanent because the condition responsible for the functional disorder is entirely removed, and I am cenvined that by no treatment other than my own carefully directed local measures is a radical cure of this allment possible.

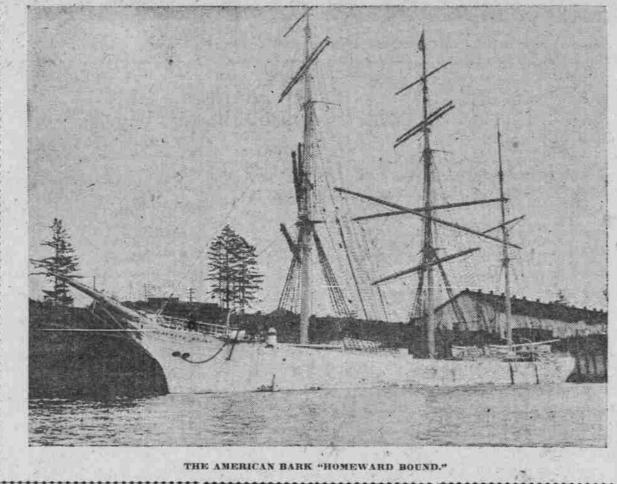

Free Consultation

I do not charge for advice, examination or diagnosis. If you call for a private talk with me, you will not be urged to begin treatment. If impossible to call, write. Hours, 9 A. M. to 5 P. M.; 7 to 9 P. M. Sundays, 10 to 1 only.

THE DR. TAYLOR CO. 2341/2 MORRISON ST., CORNER SECO ND. PORTLAND, OREGON.

The only reliable place for confinements in Portland. Regular licensed physicians and professional trained nurses, perfect seclusion, honest dealings, infants adopted. The National Rivers and Harbors Congress is the organization which did such effective work at its annual meeting just prior to the last session of Congress and was given credit for being the greatest single factor in haugurating the pollcy of the annual rivers and harbors appro-priation of not iess than \$50,000,000. The

Rivers and Harbors Congress works for such appropriation by the Government without regard to locality or project; its object being simply to have the Govern-ment take care of the National water-At the meeting held in Washington last December the Portland Chamber of Com-merce was represented by Governor Chamberlain, J. N. Teal and Philip Bueh-

ner. The dues to the Congress from the Chamber aggregate \$1000 annually, but at he last session the Chamber contributed \$3000 in addition to the dues.

As the Chamber realizes the importance of the work of the Congress, an equal sum will undoubtedly be contributed in

addition to the regular dues. KISER HAS MOVED.

pole was broken by the strain. This will | Eyes fitted to glasses, \$1, at Metzger's

shipped, 400 sacks going out this week, Scholis raised 4500 sacks, a good many Scholls raised 4000 sacras, a good them of them of poor quality, and two carloads have been shipped out. Most of the onions grown at Woodburn were for seed and not over 1500 sacks of

commercial onlons are left there. One of the most encouraging fea-tures of the situation, from the growers' standpoint, is the fact that the ruling high prices have not brought in any considerable quantity of onlons from other sections than the Williamette Valley, clearly showing the excel-

lent statistical position of the Valley Trade advices from San Francisco yesterday reported a weaker feeling there because of liberal arrivals from the river, and \$2.25 v.as quoted as the

BREWERS' VIEW OF HOP MARKET. Large Part of English Crop Consists of

Inferior Grades

The London Brewers' Journal, of Ocober 15, said: "The interval since our last monthly report has afforded ample opportunities for completing the ingathering of this scason's erop, its sampling, sorting and inspection, together with the fixing of prices on a sound and workable basis; The net conclusion is that the entire crop is not above an average one in weight, and that a considerable proportion con-sists of inferior, diseased and immature samples; the quantity of really choice qualities is, therefore, comparatively small. It is, however, but fair to add that there is a pretty good portion of sound marketable hops to be found among the Kent and Worcester growths, which should prove very useful for "coppering" purposes, and these are well supported where the sale value has been established. When first placed on show the new English hops met a fairly active demand at advancing rates, but the fancied rush to secure supplies was soon over; and on its becoming more fully known that brewers were still holding stocks of unused "year-lings" and older hops, the market, about

a fortnight ago, relapsed into a state of quietness, if not inactivity, which has since continued to prevail. "Prices at the best, being only mederate, growers are by no means auxious to force sales, preferring to wait awhile for better prospects, as the production of home-grown hops is tacitiy acknowledged to be an unremunerative business. In readjusting quotations of hops from the old to the new scale of values no wide differences are apparent, the whole range, broadly speaking, being on much the same level as hitherto, viz., between from £2 10s to £5 per cwt. There are, nevertheless, quantities of low and undesirable sorts of new hops on hand, prices for which do not appear in our list, as there is at present no trade doing in them but should any inquiry spring up the suppposed value of these hops would be from about 40s to 50s. Otherfise the market closes firmly with prime and healthy hops in greatest favor.

hops in greatest favor. LOCAL HOL MARKET IS LIFELESS. Lack of Kenny Money Brings Buying to a

Stop. Not enough hop business was transacted yesterday to make a market. Whether or not business will be lively when money again becomes plentiful is when money again becomes plentiful is a question, as the Eastern buyers seem disposed to take hold only at lower prices.

Herman Klaber, who has had charge of the local office of Klaber, Wolf & Netter during the past week, went to Tacoma

OREGON WOOLS IN EASTERN MARKETS Stocks Are Closely Sold Up at Boston. Prices Hold Steady.

The weak condition of the New York

stock and financial markets has had effect on the Eastern wool situation, according to the latest advices received, the quieter conditions in the market being attributed to previous heavy trading.

In Oregon wools the fine staple end

is becoming sold up rapidly. A recent transaction at Boston comprised 1000 bales at about 24c in the grease. The scoured coat ranges from 70c to 72c. Valley wools are practically out of stock, recent transactions having cleaned up the supply. For fine scoured stock. there is a firmer feeling. Holders quite generally ask 70c for the top sort, and a sale of 20,000 pounds at that price is reported.

FRESH FRUIT TRADE IS SLOW. Sample Box of Navel Oranges Shows Good

Quality. The week, as might be expected, was a rather slow one in the fruit trade, but except for apples, prices were fairly well A sample box of new crop California navel oranges was received yesterday, and for this stage of the season the quality was very good. Only a few grapes came in, and they were mostly bad.

trade. The potato market was very weak yes terday and business was almost at a standstill. A San Francisco wire quoted Oregon Burbanks weak and lower

Butter Prices Hold Steady. The butter market holds steady at the recent decline, and unless there is a much greater slump in the East there may be no further lowering of prices The egg trade was quiet yesterday,

with the previous prices ruling.

A considerable quantity of poultry came in and some of it had to be carried over. Nominal Quotations in Grain Markets. The wheat, oats and barley markets are inactive and the prices quoted are nominal. Wheat merchants are, of course, unable to say when they be able to resume buying, and in the meantime good progress is being made, in clearing up the accumulation of supplies at this point

Advance in Sugar. The local grocery jobbers, who have seen selling their sugar at cost, yesterday advanced quotations 10 cents per hundred on all grades.

Changes in Provisions.

The new price list of provisions that will go into effect Monday will show

declines of ic on bacon and 16c on Bank Clearings. Northwest yesterday were:

Bank clearings of the leading cities of the
