EXAMINES 73 RATS, FINDS NO PLAGUE GERMS.

PORTLAND, Nov. 9.—(To the Editor.)—After reading the article in The Oregonian, "What is the People to Kill Rate and Place their homes and surroundings in the best sanitary condition possible, in the effort now being made to prevent the spread of the plague which it is brought to this city," it seems to me that people should be warned against the use of any article of food that would tend to lower their vitality and thus render them more susceptible to any contagious disease. In the wholesale stores and markets rats may come and go among the vegetables and other articles of food, hence the necessity for thorough cooking of all vegetables, the peeling of all fruit, and great care in selecting meat, poultry and fish, avoiding cold-storage poultry and fish, tainted meats or those treated with preservatives. During the last three weeks I have tested 73 rats sent to me for examination, not one of which has had the plague; fully realizing the horrors of an epidemic of this disease and knowing that the city council is about to take action in this matter during the holidays, to appropriate money to carry on the bacteriological work, I have today made the following offer to the Mayor and Board of Health: That I will examine all rats sent to me by the Board of Health for germs of bubonic plague, free of all expense to the city until such time as the city council can meet and take action. L. VICTORIA HAMPTON.

The people who have diamonds today need not worry about the banks closing. They are better than money in the bank, for you can turn them into cash any old time.

You not only have the pleasure of wearing them but know that they represent money; anybody will loan you the cash on them without having to give 60 days' notice. BIG MULTNOMAH FESTIVAL

Great List of Soloists, Fine Musical Programme and Society Ball.

Multnomah Club has practically completed its arrangements for the elaborate Thanksgiving night festival, which is to be held under its auspices in the Oriental building, at the Lewis & Clark grounds.

The concert programme will be rendered by a large list of renowned soloists, which will not only include those formerly in the Oregonian, "What is the People to Kill Rate and Place their homes and surroundings in the best sanitary condition possible, in the effort now being made to prevent the spread of the plague which it is brought to this city," it seems to me that people should be warned against the use of any article of food that would tend to lower their vitality and thus render them more susceptible to any contagious disease. In the wholesale stores and markets rats may come and go among the vegetables and other articles of food, hence the necessity for thorough cooking of all vegetables, the peeling of all fruit, and great care in selecting meat, poultry and fish, avoiding cold-storage poultry and fish, tainted meats or those treated with preservatives. We announce the arrival of several consignments of new Browns and Blues from eminent Fifth Ave., New York, makers. These fashionable garments are on display on our tables, every shade of brown conceivable is included, while many of the patterns are exclusive with us.

WE WANT GOOD MONEY

Different? Yes? Why? Because our pianos are good and we pay for them with good money.

By selling them for good money or its equivalent, we can do business on a very small margin of profit, while if we were to take in payment paper, worth perhaps only part of its face value, we would certainly have to ask more for our pianos. Compare Our Prices With Others. Can arrange terms of payment to suit and will take any kind of money—just so it's good.
