Will be one of the convincing features of the demonstration, and we invite you to visit us on this twelve-days' occasion, commencing tomorrow.

The bright, intelligent, twentieth-century woman appreciates the many conveniences to facilitate her duties in the home, and above all, the modern cooking apparatus. "The Malleable" stands for all that is best in range-building—the range of strength, economy, durability, beauty and convenience—made in every part of the very best materials—riveted throughout like a boiler—will last a lifetime. It is built of true and tried steel and enduring malleable iron—it is impossible to burn it out or crack it. It burns perfectly either coal or wood, and cooks good things as you would have them cooked, and when you want them. "The Malleable" is acknowledged by the stove trade to be the leading malleable range of America—it is the range for every American home. During the demonstration "The Malleable Girl" will show you how delicious biscuits are baked in three minutes. "The Malleable Man" will show you many interesting features of this wonderful range. Our liberal payment terms are specially advantageous for range-buying. We will accept your old stove or range as part payment for a new one.
