CROSS CURRENTS IN THE MOVE-MENT AT ALL TIMES.

Northern Pacific and Reading Are Still the Features-Foreign Situation Unsettled.

NEW YORK. Jan. 4.—The stock market today had an appearance of heing whipped into activity by artificial means, owing to the extreme irregularity and inconstancy of the movements. Unward and downward fluctuations were constant and there were opposing currents in the movement at all times. Northern Pacific was a focus of the buying movement and rumors were revived of a coming extra dividend disbursement on the stock. For which there was no official sanction. Reading, on the other hand, was affected by profit-taking, which was conducted in an orderly manner, and desisted on the declines in the stock. A number of industrials were prominent for strength, including the coppers.

Foreign markets offered no assistance to the advancing tendency here. Berlin reported some anxiety over the money situation, owing to a forthcoming Prussian loan. The discount rate receded, therefore, in spite of the weak return of the Imperial Bank of Germany for the past week. Discounts showed a hardening tendency in London with the repayment of heavy obligations to the Bank of England.

The publication by the Treasury Department of the statement of money in circulation on the first of the year disclosed the continuance of the wide expansion of the circulation by the Country in December, the addition for that month reaching \$70.748,000. This followed an increase in November of \$131.873,000 and in October of \$70.000,000. This followed an increase in November of \$131.873,000 and in October of \$70.000,000. capita circulation ever reached in this country.

A good effect was produced by the reports of savings banks authorities that withdrawals after the first of the year are turning out to be no larger than normal. It was thought possible that intended withdrawals with the expiration of the 50 days notices after the panic in New York might have been deferred until after the interest period had passed.

Anticipation of the favorable bank statement was a factor in the buying of stocks, but the irregular tone of the market persisted to the closing. The \$8,000,000 gain in cash by the banks indicates that the disappearance of the currency premium has

in cash by the banks indicates that the dis-appearance of the currency premium has brought some money out of hoarding from local resources, as well as starting the in-flow of cash from the interior. The de-crease in deposits is not as large as the loan contraction would show when offset by the cash increase and a further cancellation of clearing-house certificates is inferred from this fact.

Bonds were firm. Total sales, par value, \$1.238,000. United States 2s have declined ½ per cent on call during the week. CLOSING STOCK QUOTATIONS.

Strong Export Demand for Wheat in the East.

CLEARANCES ARE LARGE

Bullish News Causes a Strong Feeling in the Chicago Market and Prices Advance Sharply-The Coarse Grains Also Higher.

CHRAGO, Jan. 4.—Wheat ruled strong all day. The opening was firm because of light receipts in the Northwest and a marked decrease in the world's shippinents as compared with last year. A slight decline, due to realizing sales, followed the opening, but later a ruch of buillish news caused a recurrence of the strong feeling. Large clearances, higher prices for cash wheat and increased demand for export were the chief factors. May wheat opened 149%c higher at \$1.074,91.074, soft between \$1.084, and \$1.084, and closed strong at \$1.084,91.089k.

The corn market opened firm because of

at \$1.084,83.085.

The corn market opened firm because of wet weather throughout the belt, but heavy selling by helders soon brought about a decline. On the slump, however, renewed speculative demand and the etrength of wheat brought about a firmer feeling and the market advanced to a level slightly above the close of yesterday. May opened \(\frac{1}{2}\) \(\text{to}\) \(\frac{1}{2}\) de higher at 615,8461\(\frac{1}{2}\), sold between 60\(\frac{1}{2}\) c and 61\(\frac{1}{2}\) c and closed firm at 618/61\(\frac{1}{2}\) c.

Outs were slow all day and trading was light. May outs opened \(\frac{1}{2}\) c higher at 54\(\frac{1}{2}\). Oats were slow all day and triading was light. May oats opened ite higher at 547%, sold between 541% and 550 and closed at 550. Provisions were lower and firm the greater part of the day. Typographical Errors Corrected.

rection.

As printed the word "love" is substituted for lore, and "libinous" for libidinous. But the last word of my article—"cows" But the last word of my article-"cows instead of "vows." "Only let them keep their cows"—as though the priests' cows, if they had any, have anything to do with the subject under discussion.

A few minor mistakes appear in the article, such as "of boys" instead of "the "man's" instead of "the "man's" instead of "man's"." boys," and "men's" instead of "man's," but the reader will detect them without
