

FIXED TO CEMENT

Eugenie Frautrel Will Take a Full Cargo at Antwerp.

REACHES PORTLAND IN JUNE

Outward Chartering Rules Brief for Several Weeks, but New Tonnage From the Continent Is Slower Than Usual—Marine Notes.

Halfour, Guthrie & Co. have chartered the French bark Eugenie Frautrel to carry a full cargo of cement from Antwerp to Portland. While it has not been announced that she is under charter for outward loading, it is generally understood that such is the case. The craft is now at one of the continental ports and will be available for cargo at Antwerp within two weeks.

F. S. LOOP LEAVES NORTH

New Steam Schooner Sails From San Francisco on Maiden Voyage.

The new steam schooner F. S. Loop, owned by the Loop Lumber Company of San Francisco, sailed last night from the latter city on her maiden voyage. She will come to Portland and will load a full cargo for San Francisco. The Loop is a sister ship to the R. D. Inman and the Johan Poulsen. She is a typical lumber craft and will transport about 800,000 feet of lumber at a time.

DREDGE PORTLAND REPAIRED

Craft Will Soon Go Into Commission in Portland Harbor.

The Port of Portland dredge Portland, which was sunk on the morning of November 6 by colliding with the steamer Bolivar, is being repaired. The dredge was brought to Portland yesterday from St. John. Her machinery will be lined up before the dredge goes into commission. The dredge is being worked at the present time.

RAJORE PROCEEDS TO SEA

Repairs to Vessel Are Completed and She Leaves Out.

The British ship Rajore, Captain Williams, which returned to Astoria December 15 in a crippled condition, sailed yesterday for the United Kingdom. The Rajore has completed repairs and with the addition of two sailers, her crew headed for the bar yesterday morning.

Seamen's Friend Concert.

Portland Seamen's Friend Society's concert for seamen Monday evening will be given under the direction of Mrs. John Hampton, who has prepared an exceptional programme. A number of sailors will also take part and an enjoyable entertainment is expected. Mrs. Hampton has arranged the following programme: Selections Vocal solo, "Oh, Happy Day," Gans; Reading, German dialect; Solo, "The Olden Days," N. W. Gade; Vocal solo, "Love Me and the World is Mine," Mrs. J. P. Packard; Vocal solo, "The Olden Days," N. W. Gade; Vocal solo, "The Olden Days," N. W. Gade.

Second Mate Has Accident.

George Tyler, second officer of the steamship Alliance, met with a painful accident at Marshfield on the last night of the steamer to the Coos Bay port. Mr. Tyler was engaged in superintending the discharging of some heavy machinery and in directing the work of the men it was necessary for him to assist. During the work his finger became jammed in the machinery and the entire end cut off. He had the injured hand dressed at the Morry Hospital in North Bend and continued at his post.

Notice to Mariners.

The whistling buoy on the Swift Shore bank at the entrance to the straits of John De Fuca, has gone adrift. The buoy landed on the rocks off Grand Basin, near Indian River. The buoy is owned by the Canadian government, has also gone adrift. The buoy is now in place in the straits. Both buoys will be replaced as soon as possible.

Ascian Woermann Lost.

HAMBURG, Jan. 18.—The steamer Ascian Woermann, from Hamburg, went on the rocks off Grand Basin, Liberia, and is a total loss. The crew was saved.

Marine Notes.

The steamship Alliance will sail this evening for Coos Bay. The steamship Costa Rica sailed yesterday for San Francisco. The French ship Guthrie went into

BASE HOPS GREATER

Pacific Coast Has Great Advantage Over England.

CAN SUPPLY ALL BREWERS

Opportunity Offered the New Union to Capture the Foreign Trade at Profitable Prices—Position of the Dealer-Grower.

ALAMEDA, Cal., Jan. 14.—(To the Editor.)—The question of the cost of producing hops in England is one of vital importance to all interested in the industry on this coast. Some time ago the dealers have just reached me which allow the cost to be very closely estimated.

I have been in London at least parts of 10 years, and at all times in active touch with the hop industry. I have often tried to arrive at a reasonable cost of the hops to the English grower. I have found the estimates running from 45 to 175 per acre, the variation depending on the amount spent for fertilizers and spraying and on the size of the crop grown. When hops are sold at a profit growers spend on an average 75 per acre for fertilizers for their hop gardens. In some seasons spraying is very expensive. During 1906 many growers sprayed 12 to 15 times at a cost of \$5 per acre for each spraying.

Here we have fertilizers and spraying amounting to more than the entire cost of growing and harvesting the Oregon hop crop. In June, 1906, I went into the matter very carefully with a large English grower and we figured out 162 per acre for the entire crop. This was over 100 per cent more than the cost of the Oregon crop. On 10 cwt. crop it would be nearly 26 cents per pound. In the Southeastern Gazette of December 29, 1907, a report of the proceedings of the Canterbury Farmers' Club and the Chamber of Agriculture. A discussion of the cost of producing hops ended in a decision to send the following resolution to the Chamber of Agriculture: "That this meeting, having considered the figures placed before them, is of opinion that the average cost of growing hops up to picking amounts to £10 (\$160) per acre. The cost of picking, drying and marketing 50 shillings, or 80 shillings per cwt., making the total cost of production £15 (\$240) per acre."

Here is an authoritative statement that it costs the English grower 150 cents per pound to grow a crop of 10 cwt. per acre. This is considerably above the average cost of the Oregon hop.

The same journal, and which is considered an authority on hop matters, in an editorial in its issue of December 11, 1907, further reviewed this matter. I take the following statements from it: "The statistics of production show a deficiency this year of about 320,000 cwt. (about 200,000 bags), as compared with the average of consumers. The price of hops is not high enough to pay the grower."

Shortage in Hop Supply.

Note here that our American crop was not equal to our demand. The Oregon crop grew for export, would not equal half of the 200,000-bale shortage in England, and yet our growers receive 120 cents per pound, or barely 60 per cent of cost of production. Don't these facts and figures prove that it is time for us to consider the hop situation on this coast?

IN EXPLANATORY VEIN

Mr. Grantham Reviews Conditions of Late Financial Flurry.

PORTLAND, Jan. 16.—(To the Editor.)—Referring to A. J. Smithson's letter which appeared in last Sunday's Oregonian, while Mr. Smithson's effort to devise a satisfactory substitute for the present unduly inflexible and inadequate money system, is a very laudable one, there are a number of points which he seems to be misunderstanding.

He confuses the Wall-street speculators and stock manipulators with the bankers of the country. A few bankers have gone into stock speculation, they are mostly of the "wildcat" variety and constitute only a small part of the banking business in the country. The honest and conservative members of the modern business world and buys stocks and bonds only for investment purposes.

The government at the present time issues all the money used in the United States, except the National Bank notes, which form only a small part of the currency and are covered by deposits of Government bonds and issued under Government supervision. It is not the business of the government to issue money and control our financial system, as Mr. Smithson declares the right must have been reserved to the government.

If the bankers deliberately brought the present financial crisis on us, they certainly would not have done so unless we had suffered from its effects.

If the bankers' handling of the money market caused the present crisis, it was because they did not keep enough money "under lock and key" as their reserve was exhausted. They are not to be blamed for the panic, and in New York only the Federal Reserve Bank is required to hold a certain amount of gold during the present week.

While the depreciation in securities has been a matter of course, the market quotations show that the statement that they are now selling for less than 1 cent on the dollar is ridiculous.

Our present dollar is not a promise to pay, but the standard gold dollar contains 23.8 grains of gold and contains its value in itself. It needs no security or guarantee, and a dollar secured over 2000 to 1, including our hoards of gold.

While its fluctuation in value (purchasing power) is an objection to the use of gold as a medium of exchange, it is not an objection to its use as a store of value. The French franc, which is secured by all the wealth of the nation—perhaps not by a national banker—depreciated to less than 1 cent of its former value.

In the present panic, legal tender money has been no more exempt from hoarding than metallic money. The people have hoarded gold, silver, and certificates and the inevitable "greenbacks" without the least discrimination. Any amount of money that comes into the market when it is not needed for money and when, in fact, no one would want it, does not appear. The law of supply and demand, which is at the bottom of all trade operations, indicates that any article does not inevitably from where it is not wanted. W. A. GRANTHAM.

Today's Programme at Y. M. C. A.

At the Y. M. C. A. this afternoon the Centenary Quartet, from Centenary Methodist Church of this city, with R. S. Miller as leader, will give a concert beginning at 7:30. Mr. Miller is a well-known musician of this city and all who know him will be anxious to hear the quartet. Immediately following the concert, Mr. Keese will give a short stereoscopic lecture and the address of the afternoon will be delivered by Dr. Luther R. Dyott, the popular pastor of the First Congregational Church of this city. Dr. Dyott is a specially strong speaker for men and has been chosen as his subject for this address, "When a Man Is Ready." John Baekick, a native Swede, who is an expert performer on the altar, will play several pieces. The discussion group which follows the men's meeting will discuss "Temptations." The afternoon will close with the singing of a lot of the popular old songs and a fellowship lunch. All men invited.

Spectacles \$1.00 at Metzger's.

Menaces to Manhood

Neglected Special and Blood Diseases Endanger the Health and Vitality of Every Sufferer Therefrom. These Maladies Are Always Aggravated Through Improper Treatment by Incompetent Doctors and Unreliable Specialists.

The Reliable Specialist

Nervo-Vital Debility. There is certainly no victim of Nervo-Vital Debility or Male weakness but what hopes to be rejuvenated and strengthened, pain ceases entirely and almost instantly, swelling soon subsides, healthy circulation is rapidly re-established, and every part of the organism affected by the disease is thoroughly restored.

Our Methods—Quick Results—Lasting Cures—Reasonable Fees. Our Motto—"Not a Dollar Need Be Paid Unless a Permanent Cure Is Effected."

THE OREGON MEDICAL INSTITUTE

291 1/2 Morrison Street, Near Fifth, Portland, Oregon

Consultation and Advice Free and Joynted. Office Hours—9 to 5 and 7 to 8. Sundays, 10 to 1 only. Everything Strictly Confidential. Private Waiting Rooms.

Portland, Packing City. Livestock Interests, Says Writer, to Make This Coast Center. PORTLAND, Jan. 11.—(To the Editor.)—As has been noted in The Oregonian, the Portland Country Club & Livestock Association was organized in this city with a capital stock of \$150,000, over \$100,000 of which has been paid. This organization has bought and fully paid for 80 acres of land in the Northeastern portion of the city, which has been an ideal site for all who have seen it. Portland readers naturally are interested in the ordinary grower in the success of this movement. To these it means that the grower will be able to produce a legitimate and profitable income from handling the crop. As the crop in this country is naturally produced in the Northwest, the grower-dealer's profits will also increase.

Do your back ache? Do you get up lame in the morning? Do you feel dull and tired? Does it hurt you to bend over to lift anything, to get up from a chair? Do you have sudden "catches" or stitches of pain in the back? Does a dull, throbbing ache settle in the small of your back and bother you day and night? Do you sometimes feel that you simply cannot straighten up? If you do have backache, be careful not to make the very common mistake of treating it as a muscular trouble. Do not rub the sore place with liniment, nor put on plasters, for the seat of the trouble is inside—in the kidneys, which lie just beneath the small of the back, on either side of the spine.

Doan's Kidney Pills. Doan's Kidney Pills, a simple remedy for the kidneys, yet so powerful that it quickly cures the cause and so ends all the painful and annoying symptoms. Home testimony proves the unfailing merit of Doan's Kidney Pills.

PORTLAND TESTIMONY. Mrs. J. O. Stearns, of 1641 Base Line Road, Portland, Or., writes: "I have had backache for several years. I still do so, believing that any sufferer from backache or kidney complaint will find this remedy all that is claimed for it. My own experience proved that Doan's Kidney Pills promptly relieve backache and other noticeable symptoms of kidney complaint."

DOAN'S KIDNEY PILLS

Sold by all dealers. Price 50 Cents. FOSTER-MILBURN CO., Buffalo, N. Y., Proprietors.

Men, Isn't this Best?

When you must have the services of a doctor, isn't it best to go to one who will tell you all about your trouble and not charge you for it? Then when you know positively what ails you, isn't it best to know just what it will cost you to get well? Certainly it is. If you were going to pay out money for something else you wouldn't do it unless you knew how much you had to pay, and what you were getting for it.

Write if you cannot call. All correspondence strictly confidential. HOURS—9 A. M. to 5 P. M.; Evenings, 7 to 8:30; Sundays, 9 A. M. to 12 Noon.
