Our Footwear Shops are ready with Spring styles in gloriously complete array. All the wanted fads and the tried and true staples are here in goodly assortment of sizes and widths. Original ideas conceived by the world's leading shoe designers are well represented. Tan shoes are tremendously popular for this Spring's wear, and we are prepared to cater to this fad. We have these in the most pronounced novelties or in quiet, serviceable lasts. We have tan shoes made especially for misses who wear women's sizes. It is not necessary to have the heel cut down—get shoes that fit and still have the correct-height heel.

WOMEN'S SHOES in European shapes. Low cut, button or lace.

Smartest Styles for Spring

MEN'S SHOES—Golden tan calf shoes or oxfords; lace style. Built on conservative last. The shoe for gentlemen to wear who want a colored shoe, but avoid extremes in cut or color.

Spring Modes -- Women's Suits

We direct attention to an astonishingly complete display of Women's Tailored and Street Costumes in Spring styles. Suits that are distinctly different. Many decided and tasteful novelties are being shown, one of the most pronounced being fancy linings in plain colored suits. Butterfly sleeves and backs are decidedly prominent in this showing and will be much in evidence among well-dressed women for the coming season. Plain colors and subdued stripe effects are shown. The sleeves come in half and three-quarter lengths. Fancy buttons, Persian and Military braid form pleasing combinations in trimming. Several models in smart coats are made in the vest effect, having border of white pique under an inner lapel. Materials are panama, chiffon broadcloth and silk. Lightweight fabrics have the call. Extremely mannish suits are in quiet novelty effects, short jacket and skirt made plain. These are strictly tailored styles and very desirable. The more elaborate costumes are mostly in plain colored fabrics. There is a wealth of choosing in shades and colorings—browns, blues and grays, however, lead. 'Twill be well worth your while to have a peep at our windows today, and if you would know exactly what the correct modes in ready-made apparel will be, see them at Portland's largest and best style salons. Try on a suit—you will not be urged to buy.

We are prepared to show launderable dress materials. There is an immense assortment, including many grades and practically every color and weave. Oriental Silks FOR SMART Spring Gowns

The rough "nub" weaves are the correct silken fabrics for this season's use. Continued demand for this style has brought out a large number of various weaves, and more patterns and designs this season than any that has preceded it.

When we speak of Oriental silks, most people think of the plain colored pongees and Rajah silks. But these are only two of the many styles to be chosen from this season.

We are showing eight other weaves, and every one of them is distinctly different.

There are plain colors—all the good ones—polka dots and stripes in contrasting or self colors.

Among the Oriental weaves we recommend are:

TUSSORAH SILK	RAJAH SILK
RACAREAH SILK	TUSCAN SILK
MANDARIN SILK	KUHLA SILK
SHANTUNG SILK	PONGEE SILKS
SONG-O'-SILK	PLAIN OR FANCY

WOOL CHALLIES FOR SPRING

For the construction of pretty house gowns, and for charming lightweight dresses, these challies will please immensely. See the large number of designs and note the low prices.
