WASHINGTON. Feb. 29.—(Special.) Democratic indignation over the bolt in the Kentucky Legislature, which resuited in the election of ex-Governor Bradley, the Republican, to the United States Senate, threatens a National prohibition movement on the part of the minority party. This may sound strange in the North, but in the South prohibitory legislation has had its support in Democratic quarters, and the Southern Democrats are very influential in the councils of their party.

It was reported here today that three of the four Democrats who bolted to Mr. Bridley are identified with the liquor interests in Louisville and that. ssibly, they were coerced by the distilleries to vote for the Republican candidate. One of the immediate retallatory results will be to push to the front more strongly than ever the in prohibition states and, if the measis stifled in committee, Southern Democrats may try to get a declaration form to be drafted at Denver, hold the Republicans responsible for non-action this Winter and make the question an issue in the campaign.

that the Kentucky situation is particularly calculated to occasion resentment. Not only has it shown the extremity to which the liquor interests will go, but it is declared to be a body blow to primary elections as a method

of determining Sensterial nominees. Governor Beckham won in the Demoeratic primaries, advocating prohibition for Kentucky. He was as much the nominee for the Senate as was their primary-chosen candidate for Governor. The gubernatorial candidate was laughtered by the liquor interests, and finally four Democratic legislators were induced to bolt. The distillery interests in Kentucky are unusually strong and were driven to desperate eans by the stand taken by the Beckham ocganization.

CALLAO, Feb. 29.—The American fleet ailed today for Magdalena Bay, in Low-r California, a territory of Mexico. Signuls went up from the Connecticut, the flagship, this morning, and shortly after-ward the battleships were steaming slow-ly out to the ocean for the long run to heir next stopping place.

The fleet described a semicircie, the great white ships moving to the southwest, and, when they passed the Peruvian cruiser Aimirante Gran, from which President Pardo and the officers of state viewed the departure, each of the warships fired a salute of 21 guns. The cruiser replied when the Connecticut was passing, and there was a dipping of flags from the other vessels in the harbor, and a ringing farewell from the thousands who had gathered to watch the ships of a friendly nation as they swung majestically out to the open sea.

The steamer Cachapoul, crowded with spectators, accompanied the fleet for some distance from shore, but as the battle-ships gathered speed, she was left astern, with the enthusiastic Peruvians still watching and waving flags and handkerchiefs. Thousands of sightseers on points of vantage on land witnessed the magnificent and imposing scene.
