### CLASSES DR. DAY WITH ANARCHISTS

Rabbi Denounces Assailants of President Without Mercy.

ROSE PASTOR STOKES ALSO

Calls Wife of Millionaire Socialist Traitor and Wants Her Imprisoned—Attacks on President Cause Spread of Anarchy.

CHICAGO, March 7.—(Special.)—Rose Pastor Stokes, wife of the millionaire philanthropist, was called a traitor and her recent New York utterances treason by Dr. Tobias Schindler, an address today at Kesheth Anshe Matriy Synagogue on "The Suppression of Anarchy." He declared the authorities should have made an example of her by placing her behind prison bars. He also attributed the spread of anarchistic doctrine in America to recent violent attacks upon President Roosevelt, and ridiculed the utterances of Chancellor Day. "We will never be able to suppress anarchy as long as we permit the leaders of the movement to disseminate their heinous doctrines at the curbstones and in the public halls," he said. "If the defenders of anarchy demand and say this is a curtailment of their rights as citizens of a free land; that it is putting an embargo on free speech, they should be told that free speech does not mean treason; that free speech does not permit a blow at the constituted authority and the Government. The door is open to all who do not like the attitude of the authorities.

Put Traitors Behind Bars.

"Such treasonable doctrine was recently advocated by no less a person than Rose Pastor Stokes, the wife of the multi-millionaire. At a meeting recently held in the City of New York, she declared that she loved the Stars and Stripes, but loved the red flag more. This is the teaching of a traitor. It is treason. If the authorities had made an example of her and put her behind prison bars, it might have helped to throttle the spread of anarchy.

"An attack on the President of the United States by men in high places may contribute not a little to the growth of an anarchistic spirit. If we respect for the man who is at the helm of the Nation; if we speak of him as a buccaneer and a demagogue, as a Socialist and Anarchist; if a prominent alienist says he is a paranoic, and a Chancellor of a university that he is a drunkard, how can we expect of the common people that they respect the Government which he represents?

No Quarter to Anarchy.

"We should give no quarter to Anarchy. The city authorities should cooperate with the Secretary of Commerce and Labor and see to it that all criminals and alien Anarchists, who have been in this country for less than three years and who persist in spreading their destructive doctrine, be deported. That Anarchy's mind was inflamed by the fiery addresses of fire-eating Anarchists was no excuse for his taking the law into his own hands.

The fact that some of the newspapers have referred to Averbuch as a Jew need not make the Jew feel that America is going to attach his wrongdoing to all the Jews. America is too sane and rational to make an entire people responsible for the wrongs of one man. They may do that sort of thing in Europe, where the anti-Semitic spirit is rampant, but not here in America, where each man is judged in accordance with his own actions. Judaism and Anarchy are antipodal. The Jew believes in law. Nothing will please the Jew more than the throttling of Anarchy of every form.

### TROOPS LEAVE GOLDFIELD

Depart at Early Morn and Police Take Charge.

GOLDFIELD, Nev., March 7.—The United States troops that have been in Goldfield for three months evacuated the camp today, and turned the responsibility of maintaining peace in the Goldfield district over to the local police authorities and the Nevada State Police. The departing forces consisted of 114 men and five officers, requiring three passenger and two baggage cars. The departure of the troops was at an early morning hour. They went on board the cars last night, and the train pulled out shortly after midnight. Their departure was not signaled in any particular way. In fact, there were only personal friends at the depot to bid them farewell. The men left in good condition. Captain Wassel, in command of the troops, was the only ill man. He had been ill more or less throughout his stay in Goldfield, and until recently was confined to his bed for several weeks. The Captain and his troops were glad to leave.

Several squads of State Police arrived in Goldfield this week and established local headquarters in a building in the center of the town. The district is peaceful, as the strike was practically cleared off this week.

### ERIE ROAD REDUCES WAGES

Gives Boiler-makers Notice and Operators Expect It.

ELMIRA, N. Y., March 7.—The Erie Railroad has officially notified its boiler-makers and the boiler-makers' helpers that their wages will be reduced 10 per cent. Telegraph operators who were put on a basis of eight hours a day, to conform to the new law, instead of the old nine hours, are said to be organizing to protest against a cut which, it is said, unofficially, will be made in their wages.

### CROWD OUT OLD OFFICERS

SEVERE PHYSICAL TESTS PROPOSED FOR THE ARMY.

If Officers Can't Ride 90 Miles and Make Pedestrian Sprints, They May Be Retired.

WASHINGTON, March 7.—What is to be the combination of physical requirements of Army officers to carry out President Roosevelt's curriculum for the maintenance of physical fitness is just now a question which is receiving consideration by many of the bureau of the War Department. The latest phase of the subject combines a 90-mile equestrian test with several short crisp sprints on foot.

Some of the officers who have considered the subject seem to detect in the plan in its present shape a clear intention to make the test so hard that many of the older officers will be unable to pass it.

After their retirement there would of course be "room at the top" for younger officers.

It is explained, however, that the question of what the test shall be is still under consideration and subject to modification.

### LAST CAR LEAVES CHICAGO
