cial).—A quiet home wedding occurred at the Presbyterian manse, Saturday, March 7, at 5 o'clock in the afternoon, when Miss Evelyn Seemann was united in marriage to Dr. William D. McMillan, the bride's father officiating. A few friends of the family were present. The house was tastefully decorated with white festoons, white bells and smilax. The bride wore a gown of white crepe de chine and was unattended. After the ceremony a bountiful supper was served, after which the newly wedded couple left on the eastbound train for a short trip. They will reside on Seventh street. The groom is a popular young dentist of this city and is prominent in social and professional circles throughout the state. He has but recently removed from Union, Or., and has already established a splendid practice. The bride is the accomplished daughter of Dr. S. W. Seemann, pastor of the First Presbyterian Church of La Grande, and formerly of Union.

The bride was given in marriage by her father, and was handsomely gowned in crepe de chine over white silk and carried a shower bouquet of bride roses. The wedding march was played by Misses Eva Cable and Laura Pugh. The parlors were tastefully decorated in white and green. The bride and groom stood under a bell of Easter lilies and smilax. Immediately after the ceremony a dainty luncheon was served. Mr. and Mrs. Cable left on the overland train for a tour of Southern California, and will be at home in Portland to their friends after April 15, at 798 East Burnside street.

DIRECTOR OF CHORUS OF SPRING MUSIC FESTIVAL

W. H. BOYER.

Portland is to be congratulated on having a director who is willing to undertake and is able to carry through such a big project as the chorus work of a three-day music festival, having only three months in which to accomplish this herculean task. But we have this director in W. H. Boyer, and he is getting splendid work out of the chorus, which is now rehearsing the "Swan and the Skylark" and the "Messiah." The members of the chorus are enthusiastic over the beauties of the former and, of course, all singers glory in the wonderful choruses of the "Messiah." Everything will be in readiness for the 10th, 11th and 12th of April, and that Portland will not be ashamed of the choral part of her big festival is already assured. Rehearsals of the chorus are held every Monday and Wednesday night at 8 o'clock until further notice, at Ellers Hall, Park and Washington streets.

Mrs. F. M. Branch has charge of the programme. As it falls on St. Patrick's day, she has arranged a programme to suit the day, and will have some of the best talent in the city present.

HEILER'S MILLINERY.

The ladies of Portland are invited to attend the Spring opening of Parisian and New York pattern hats and novelties which will be held on Tuesday, Wednesday and Thursday, March 17, 18 and 19. These beautiful creations were selected personally by Mrs. M. L. Hunt, who has spent the past two months in the Eastern centers of fashion, and the ladies of Portland know that anything displayed by Mrs. Hunt will be authentic for the coming season.

The colorings used this season surpass anything previously shown, blue being one of the most important colors, especially Louis XVI blue, which is a soft old blue, with more depth of color than the Alice blue. Duck-wing blue is one of the distinctly popular shades, also the Nattier, Dresden, indigo and flax blue.

Old rose is another pleasing color which is seen this Spring. American beauty shades, natural geranium, deep Jacqueminot and poppy shades are all important. Old gold, Roman gold shading to the gleaming tints of copper is one of the most important colorings.

More than ordinary importance is attached to the display of Joseph and Litchenstein patterns as well as the tailored hats from Burgesser, Phipps, Gerhardt and other well known makers. No cards will be mailed.

FAULTY STOVES IN LOUVRE

Great Museum Said to Be in Danger of Fire.

PARIS, March 14.—(Special.)—Fifty stoves, with 50 smoking chimneys, at present furnish the heating of the Louvre, and are, it is alleged, so many points of danger from which the great museum might be set on fire. The campaign for the safety of the Louvre in Winter has at last had the effect, especially after the recent alarm, when a small fire broke out in one of the wings, of arousing the attention of the Minister who, accompanied by a deputation of architects and engineers, visited the Louvre.

A spot has been found in one of the courtyards where a subterranean boiler and central steam-heating station might be established, to do away with all the old-fashioned stoves and chimneys, which, besides being a danger to the public museum, are no particular ornament. A committee has been appointed to see to the matter, and have the entire palace furnished with steam heat.

Cultured Man a Burglar.

LONDON, March 7.—Why does a man with a powerful brain turn from honest paths and become an expert and daring burglar? This is one of the problems which Dr. Albert Wilson, the brain specialist, is dealing with in a volume which he is now compiling and which is shortly to be published.

Dr. Wilson has not drawn from fancy the burglar with a wonderful brain. He is a living expert "cracksman," of so superior an intelligence that he has entered with great interest into the doctor's researches, and has helped him with many suggestions and vivid descriptions of the impulses and "mind waves" which have dominated him when planning a burglary or actually perpetrating it.

"Dr. Wilson's burglar," the man has been called; but he says he will steal no more. The cells of his brain have given him intuition, a keen sense of humor, oratorical powers, and remarkable gifts of deduction and argument—all of which have been employed not in the interests of society, but in the planning of midnight raids upon the mansions of the wealthy.

Dr. Wilson holds that his burglar was the victim of environment. His brain raised him high above the details of a meaningless, monotonous task; but he could not expand in any honest, useful direction. Therefore, he became a burglar.

CATHLAMET COUPLE CELEBRATE FIFTY-SECOND WEDDING ANNIVERSARY

MR. AND MRS. JACOB L. MORGAN.

CATHLAMET, Wash., March 14.—(Special.)—Mr. and Mrs. Jacob L. Morgan, aged 75 and 72 years respectively, celebrated the 52d anniversary of their wedding at their home in this city, March 2. Mr. Morgan is a native of Monroe County, Illinois, and crossed the plains to California in 1852. On March 2, 1856, he was married to Mary S. Dorsey, a native of Camden, N. J., who also came to California in 1852 with her parents by way of the Isthmus of Panama. The couple lived in California until 1864, when they moved to Oregon and settled at Westport, at which place they resided continuously until a few weeks ago, when they took up the residence in Cathlamet. Both are as vigorous as many at middle age and their reminiscences of the days long ago, when this fair land was a wilderness, are both thrilling and interesting.
