WILES OF CHINESE GIRL

WANTS TO BE DEPORTED TO AVOID PROSECUTION.

Accused of Stealing $400 From a Chinese Merchant—Federal Officers in Conflict With Police.

SAN FRANCISCO, March 21.—(Special.)—Captain of Detectives Petersen, who is on his way to Portland to bring back Sue Sing, a Chinese girl charged with the theft of $400 from Hong King, a Chinese merchant, is confronted with a peculiar situation in his fight for the custody of the girl.

She left Oakland two weeks ago and went to the immigration authorities, to whom she pretended to be an alien, subject to deportation under the Chinese exclusion act. The girl wished to be sent to China, that she might escape justice here, according to the police. By causing herself to be deported, she also would evade the payment of her fare across the Pacific. She did not dare to make herself subject to deportation in San Francisco, because she was born here and her photograph and description were in the possession of the immigration authorities.

A contest is now on between the Federal authorities and the Portland police, and the arrival in the Northern city of Captain Petersen probably will establish the legality of the police claims on the custody of the girl, as Petersen has taken with him the proofs of Miss Sue's birth in San Francisco.

PLAIN PEOPLE THE HEROES

Saved the Day in Recent Panic, Says Senator Borah.

NEW YORK, March 21.—United States Senator William E. Borah, of Idaho, speaking tonight at the dinner of the Beta Theta Phi Club, in the Hotel Astor, said:

"A few weeks ago we had a panic—a well-dressed, highly aristocratic, thoroughly high-toned panic. Every one participating in the panic was many times a millionaire—a well-respected, conservative man of busines and a reactionary in politic. What caused the panic I till a matter of dipute. But this much is certain—those scenes of lawlessness, recklessness, frenzy, theft, repentance and suicide were not of the people's making.

"This much more is certain—it was the deposits of the people, the small earnings of those of moderate means which were used to stay the frightful disaster inaugurated by the daring and recklessness of those leading business men. It was the revelry of the chosen few.

"While the great mass of the people throughout this great land, patient and forgiving, paying but little attention to this disturbance on the roof garden of finance, toiled on and by courage and conservatism did more to bring back confidence than all else. If the masses had become excited as did those few hundred about the centers of conservative business places there would have been a holocaust of ruin from ocean to ocean."

Senator Borah's reference to the next nominee of the Republican party for President as sure to be one "who represents the policies of President Roosevelt" brought a storm of applause from his audience.

ALL WANT TO SEE

Greatest Crowd on Record to View Big Warships.

RUSH TO SAN FRANCISCO

Quarter of Million People Expected to Go From Interior to Witness Review of Fleet—Hurrying Hotels to Completion.

SAN FRANCISCO, March 21.—(Special.)—That the largest crowd of sightseers ever in San Francisco will be here during the stay of the fleet in this city is the prediction of railway officials, and they place their statement on the inquiries they are receiving from the interior as far east and south of El Paso. Special rates for whole trains and car parties are being asked for every day and indications point to the fact that every available room in the city will be in demand.

"People are coming here out of curiosity to see the town and also to see the fleet," said Paul Shoup, at the head of the excursion department of the Southern Pacific, yesterday. "The inquiries for rates show that there is a general interest in the event of the fleet's coming here that has ever been manifested in any event that has taken place in this city before.

"We catch the pulse of the people before anyone else, and I can tell you that it is surprising. Many people have already closed their deals with us and there is no doubt that the biggest crowd that has ever been here will fill this city during the month of April."

Special rates with 60 days' allowance for return have been made from every point in the Union.

The biggest crowd of visitors San Francisco ever entertained was in September, 1905, when 100,000 excursionists attended the Knights Templar conclave. It is estimated that 250,000 will crowd the city during fleet week. Hotels are being rushed to completion to accommodate the visitors. The Fairmont and St. Francis banquet and ballrooms have been engaged for special entertainments during almost every day of the month of May.

CITY WILL BUY WATER PLANT

Eugene Council Agrees on Compromise at $140,000 for System.

EUGENE, Or., March 21.—(Special.)—The most important step which the Eugene Council has yet taken toward securing its own water system was an agreement tonight to take over the Willamette Valley Company's plant for $140,000. The only contingency is the sanction of the people, who will unquestionably favor it. The Council was practically unanimous for the agreement.

For several months the Council and water company have been trying to get together. The company wanted $150,000, the Council was willing to pay $120,000. The compromise will be hailed with satisfaction by many people who have felt the desirability of eliminating the competing plant, which will be a revenue-producer from the start.

The buy will almost assure the sale of the balance of the $300,000 bonds and Eugene is determined to have as fine a water system as any city. There is now no important municipal question upon which the citizens of the city are divided.

WOMAN PAYS HIS SHORTAGE AS CITY TREASURER.

Ten Years' Work as Stenographer by Marguerite Barton Removes Stain of Embezzlement.

MUNCIE, Ind., March 21.—(Special.)—Ten years ago Henry Barton, Treasurer of this city, went out of office short in his accounts for a large sum. His bondsmen paid part of the shortage, and he removed to Los Angeles, Cal., where he has since lived with his family.

Today the last dollar owned by Barton to the city was paid by his daughter, Marguerite, who is a stenographer in Los Angeles. She has been making payments of $2 at a time on the debt for several years, and the receipt sent her today is in full and clears her father.
