BUSINESS CHANCES.

OREGON OIL AND GAS.

Are you interested in the development of Oregon? Is there oil and gas in Oregon? Are the people of Oregon interested in this question? The want of proper fuel for manufacturing purposes is the greatest drawback to the prosperity of this state. If we have a plentiful supply of gas and oil the future prosperity of the state is secured. How are we to know? Some of the best-posted experts of the country have examined the prospective oil and gas fields of the Lower Snake River Basin and have given it as their opinion that oil and gas is there in paying quantities. Surface indications and outcroppings of oil and gas are stronger in this territory than in any of the great gas and oil fields so far developed. Borings for water in the Snake River Basin, although only a few hundred feet deep, have struck both oil and gas, and gas so plentiful that houses are being lighted with it and one well supplies fuel sufficient for a gas engine. Gas is escaping from a large number of these wells in sufficient quantities to burn, oil seeps from the ground and no stronger evidence of a large oil and gas field ever existed. Another evidence is that within 35 miles of this region coal of a very high grade has been discovered in paying quantities.

Will the people of Oregon, as is often the case, allow outsiders to develop this territory and reap all the benefits?

THE OREGON-IDAHO OIL, GAS & DEVELOPMENT CO., of Nyssa, Or., has been organized with an authorized capital of $1,000,000, represented by 1,000,000 shares of stock, face value $1.00 per share for the purpose of settling the question whether we have oil and gas in Eastern Oregon. The company is officered by men of unquestioned integrity and ability. It has secured liberal leases upon 1000 acres of this prospective oil and gas land, and will soon add 2500 acres more to its holdings.

The company has a valuable water and lighting franchise, from the growing town of Nyssa, and will find a ready market for all the oil, gas and water in near-by towns and farms that it can produce. The Snake River Basin is one of the richest farming regions in the world, and with the advantages that it now has will increase rapidly in wealth and population.

The company needs additional capital to secure machinery with which to complete development and for this purpose has placed 300,000 shares of its stock for sale with THE NATIONAL FINANCING CO., which will be first offered for sale to the people of Oregon, at the exceedingly low price of 10c per share.

If the company is successful in its search for oil and gas the stock will soon be worth $10 per share, but if all the indications for oil and gas and the opinions of the best experts are at fault the stock will be of but little value, unless water is found in sufficient quantities for irrigating purposes, which we regard as a certainty, if there is neither gas or oil, and in this event the stock would be worth much more than cost, hence, while it is a chance that the investors will receive large profits it is hardly probable that they will lose anything.

THE NATIONAL FINANCING COMPANY guarantees that the money invested for stock will be judiciously used for the best interests of the purchasers, and it further guarantees the truthfulness of each statement made in this prospectus. Every man in Oregon with a few spare dollars can afford to take a chance in this enterprise and should do so.

Most of the great enterprises of this country that have enriched investors had a small beginning, and many stocks that can not now be purchased for $50 per share were originally sold for from 5 to 10 cents per share.

LOST AND FOUND.

LOST—AN OPPORTUNITY.

Four years ago was offered lots at $300 which are now selling at $1500. I profited only in experience.

I have another chance to buy lots at $275 to $350, which conservative realty investors consider worth from $350 to $500 and will be worth double in one year. Have to buy big bunch in order to get low figure. This is more than I can handle alone. Will you join me by taking one or more at very easy terms? Take Montavilla car, get off at Broad street, see me at little office, corner Broad st. and Villa ave., rain or shine. Ask for Mr. Keeney, or see me Monday 206 Rothchild bldg.

FOUND—February 18, a small purse, containing change. Phone A 5244.

The greatest value in the Classified Columns of The Oregonian is in the fact that the best positions and the best employes are secured through these columns. There may not be the kind of a position that you want advertised every day, but when the kind of a position that you are looking for is advertised, you are certain that it will be announced in The Oregonian. The clever young man and woman know the value of The Oregonian. It is the paper they read.

Employers have been quick to learn this, and now when they want the best employes to be obtained in Portland, they either answer the Situation Wanted advertisements in The Oregonian or they put one of their own advertisements in the Help Wanted columns.
