

Mondell Proposes Notice to Settlers to keep Off and That Lumber Companies Be Not Disturbed

Pending the Suit.

OREGONIAN NEWS BUREAU Wash-OREGONIAN NEWS BUREAU Wash-ington, D. C., April 11.-No Biefailte ar-rangement has yet been made for the consideration of the Fulton land grant resolution in the House. While a privileged matter, it is not as highly privileged as appropriation bills, and as long as there are appropriation bills, and as long as there are appropriation bills waiting to be considered there will ap-parently be no time to take up the resolution.

Chairman Mondell, of the House public lands committee, who has charge of the resolution, said today that he would call it up at the first opportunity, but he did not decm it wime to en-deavor to crowd it in ahead of any ap-propriation bill. for by so doing he would around those members interested in appropriations, and furthermore, probably be overruled by the Speaker, who would consistently give preference to appropriation measures. Before long, however, the appropriation bills will have all passed the House, and then, if not before, Mr. Mondell thinks the resolution can be called up and passed. Chairman Mondell, of the House

### Not Open to Settlers Yet.

While he anticipates that a fight will be made, he is convinced that the reso-lution will pass. He also believes there should be some subsequent resolution which will give definite notice to the public that the remaining land of the puole that the remaining tand of the railroad grant is not now subject to settlement or enfry and will not be opened until the conclusion of the suit. Then in the event that the Government is successful he believes Congress is successful he believes Congrass should specifically provide the manner in which the land shall be disposed of.

#### Sawmill Men Reconciled.

He also deems it essential that Con-gress should aperifically notify the At-torney-General that he shall not during the pendency of suit interfere with the operations of lumber computes which have bought large quantities of land from the railroad. His committee has been unable to agree upon such a reso-lution as yet and its ultimate passage is very much in doubt. Indeed, some of the large stockholders of the Booth-Keily Company have stated privately that they fook for no legislation beyond the Fulton resolution, and they are apparently becoming reconciled to that, having been assured by B. D. Townsend that the Government does not propose to wreak undue vengeance upon the He also deems it essential that Conwreak undue vengeance upon regitimate commercial interests of Ore-
