TO BE PRESERVED

W. P. Hawley Presents Building to Municipality of Oregon City.

USED FOR READING-ROOM

Will Be Fitted Up for Free Rest-Room Full of Historic Associations. Former Attempt to Buy

Property Is Defeated.

OREGON CITY, Or., April 18.-(Special.) The old home of Dr. John McLoughlin, where the founder of Oregon City and the tather of Oregon entertained scores of distinguished guests in the pioneer days of the Oregon territory, is to escape destruction, and a plan was placed on foot ipday to preserve the historic structure.

The ground on which the house stands was said this week by Mrs. J. L. Barlow and Captain J. T. Apperson for 3000 to the Hawley Pulp & Paper Company, which intends to utilize the ground for an auxilitary minufacturing plant. Upon hearing of the transfer of the property, Mayor Caril Immediately communicated to W. P. Hawley, president and general manager of the company, his desires to save the house, which is old and useless from a business point of view, and Mr. Hawley very graciously offered to give the building to the city.

Fund to Be Raised. distinguished guests in the ploneer days

Fund to Be Baised.

Early next week Mayor Caril will call a meeting of the city officials and interested people and endeaver to raise a fund of a few hundred dollars which will be used to move the building to city property adjoining its present location and it up the old house for a few reading-room and a rest-room for visitors. This plan will unquestionably have enthushastic answered for there is no place of this kind roval, for there is no place of this kind i Oregon City.

Former Attempt to Buy Fails.

Two years ago the owners of the property offered to sail the building and grounds to the city and the project was fathered by E. G. Cauleld, who was fathered by E. G. Cauffeld, who was Mayor at that time, but on a referendum vote the proposition was defeated, as the city was in debt and the majority of the voters considered it unwise to add another burden to its finances. The new scheme, however, will cost Oregon City nothing, and there is no question of its success. The McLoughlin house has long been a familiar insidence kee, and the building was so stoutly constructed that the raywas so stoutly constructed that the rav-ages of time have left it in fair con-

EVANSTON

Without question the finest residence investment in Portland for the money-14 minutes from the center of city and only \$400 a lot-adjoining owners won't sell theirs for \$600-The W.-W. Car is the one.

Today (Sunday), rain or shine, our agent will be in Evanston all day.

I Evanston is only a small tract in the first place, but lying beautifully, as it does, just south of Clinton Kelly School, it commends itself to home-buyers and speculators alike. To lose money here is absolutely impossible; to make money is as certain as we all know Portland is growing.

¶ You do yourself an injustice when you go to some outlying property seeking a home, when all its features are a future consideration. It is a strong test of the imagination to see houses and homes, lawns and streetcars; to see busy people and children playing about, when really you are amongst stones and rocks and bumps, and away off from the clang of the electric bell.

We do not say that this class of property is not worth what they are asking for it, but we do say EVANSTON AS A "CLOSE-IN" RESIDENCE PROPERTY, IS WORTH MANY TIMES AS MUCH AS ONE OF THESE OUTLYING SUBDIVISIONS.

¶ See Evanston today—a close-in residence property, with every convenience—a veritable garden, and only fourteen minutes from the center.

Take W W car and get off at Francis avenue.

A Spanton agent will be in Evanston all day.

I Bring \$10 along to bind the bargain. A lot may be had for \$400.

Sweeping Orders to Keep Alcohol in Any Form Away From the Nez Perce Indians.

SPOKANE Wash., April 18 .- (Special.)-No temon or vanilla flavoring extracts for the housewives on the Nez Perce Indian reservation is the latest ukase of the Indian Department, which seeks to rid the reservation of alcohol. The extracts con-

reservation of alcohol. The extracts contain more than five per cent alcohol and therefore came under the ban.

The order is not limited to these two flavors, however, as all extracts with more than the allowed amounts of alcohol as a base are taboo in reservation stores. The presence of a bottle of extract is sufficient evidence for arrest. Extracts are not the only goods banished, as druggists cannot sell patent medicinee where alcohol is used.

Novel Debate Held. *

MONMOUTH, Or., April 18.—(Special).—A novel debate occupied the attention of the students at the Normal School last night, when a Mr. Clews, representing a view picture company. and a Mr. Hailey, representing a maga-sine company, publicly discussed the merits of their respective companies. The efforts of the rivals to get agents among the students became so warm that the proposition for public debate, leaving the result to a vote of the students, was accepted. The agency for views was decided the better for making money.

Fattening Cattle for Market.

(IARFIELD, Wash, April 18.—(Special.)—Colonel William Duling and William Bishop, the cattle kings of Ecatern Washington, arrived at their big ranch this evening with 500 head of cattle, which they drove through from the Nex Perce county. The cartle will be turned on to their big Waitman County range to fatten for the Portland, Scattle and Spokane markets, Duling and Bishop have about 1000 head on the ranch at this time.

Ready to Strike Oil.

MONMONTH, Or. April 18.—(Special.)—The complete cultit for boring an cell well on the Whiteaker farm, three miles north of Monmouth, arrived here biday, and is being unloaded and placed on the site for the well. The indications for oil voins in this vicinity have attracted the attention of experts for several years past, and much interest among the landowners is taken in the outcome of this work, which is backed by ample capital for a thorough tost.

KEPT OPEN BY BAD BLOOD

Whenever a sore refuses to heal, it is because of bad blood. If the place existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the ulcer that would kill the germ; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result.

The impurities in the blood which keep old sores open, come from different causes. A long spell of debilitating sickness, which breeds disease germs in the system, is a common source. These morbid impurities get into the circulation, and the blood becomes a polluted

infectious fluid, which, instead of nourishing the fibres and tissues of the flesh, irritates and ulcerates them, and continually discharges its impurities into the open sore, and prevents the place from healing. Another cause for bad blood is the retention in the system of the refuse and waste matters of the body. Those members whose duty it is to carry off the useless accumulations, become dull and sluggish in their action and leave their work imperfectly done, and this fermenting matter is absorbed into the circulation. The weakening or polluting of this vital fluid may also come from the results of some constitutional disease, while persons who are born with an hereditary blood taint are very apt to be afflicted with sores and ulcers.

Local or external applications can not cure an old sore, because they do not reach the blood. Such treatment may reduce the inflammation, lessen the pain and discharge, and tend to keep the place clean, and for this reason should be used, but it can do no real good toward effecting a permanent cure.

S. S. S. cures sores and ulcers by purifying the blood. It removes every impurity and taint from the circulation, and completely does away with the cause. When S. S. S. has cleansed the blood, the sore
