COR. EAST BURNSIDE GREATER GEVURTZ STORES YAMHILL ST. — FIRST AND UNION AVENUE GEVURTZ BROS. AND SECOND STREETS GEVURTZ & SONS

ARMY AND NAVY UNION ORGANIZING HERE.

Every Man Who Has Seen Military Service Since 1860 Eligible for Membership.

A local garrison of the Army and Navy Union is now being organized in Portland. Special Inspector James J. Fitzsimmons has been commissioned by the National commander of the big organization to operate in Oregon, and Portland has been designated as the first point for recruiting a garrison, which corresponds to a post in G. A. R. parlance, or a camp, as termed by the Spanish-American War Veterans. The announcement of a prospective local organization will arouse interest. The Army and Navy Union is already quite a power in the East and is rapidly spreading. Every man who has seen service from 1860 to the present time is eligible to membership. Members of the G. A. R., the Spanish-American War Veterans and other military and naval organizations can likewise belong to the Army and Navy Union. The term "union" is applied as showing a joining of the different branches of the service, and by no means in a sense which labor organizations have given the word.

Vancouver, Wash., has a garrison of 329 members at this time, receiving his appointment as special commissioner. Mr. Fitzsimmons has secured 22 names of Army and Navy veterans, and expects to secure a garrison of at least 100 in the course of a few weeks. Eventually it is hoped to establish a department in Oregon. By allowing such a wide scope for membership, the organization bids fair to increase its membership far into the thousands. President Roosevelt is an honorary member. The aims and objects announced are as follows:

It cares for its sick, buries its dead, provides a death benefit, extends a helping hand, pecuniary and otherwise, as may be necessary, aims to elevate the social and material standing of enlisted men, encourages and abets legislation in their behalf—and lending every energy to perpetuate patriotism, and working in a harmonious unit to ever bear to the foremost rank of citizenship the same record of self-sacrifice, usefulness and love for humanity each man displayed by heroic deeds in the face of the enemies of his country.

Referring to its charter, the following declaration is made:

Under the provisions of the incorporation the Army and Navy Union, U. S. A., perpetual and everliving, will be on hand as the years roll by to place the laurel wreath on the graves of the Grand Army veterans, as it will on the graves of the Spanish-American War veterans, who represented a reunited

ORDER AGAINST UNIONS

Must Show Cause Why They Should Not Be Restrained From Boycott.

HELENA, Mont., April 25.—United States Judge Hunt today made an order against certain Typographical Unions of Helena, Butte, Livingston and Anaconda, and the Montana Federation of Labor, and the Anaconda Clerks' Union, to show cause on Saturday next in this city why an order should not be issued restraining them from interfering with the business of the Butte-Butte Publishing Company of New York, which charged that the defendants have injured its trade by threatening to boycott merchants who handle its products. Several firms who are alleged to have been coerced are mentioned in the complaint. Damages in the sum of \$10,000 are also asked for.

Meeting Today at Y. M. C. A.

Charles H. Gray will be special center of interest at the Y. M. C. A. big men's meeting today. Mr. Gray is a Chicago singing evangelist of no little renown in his own city and he has won golden opinion from those who have already had the opportunity of hearing him in the West. Besides singing special songs today, Mr. Gray will lead the men in singing the choruses so well known at the association. The address is by the Rev. W. T. Jordan, who will take for his subject, "The Old and the New Man." Mr. Jordan is pastor of the Central Baptist church and as a speaker to men can be calculated to grip their attention. Following the speaker, the men will divide into discussion groups when subjects of everyday interest will be debated under the one-minute rule. Dr. McMichael will lead the singing at the fellowship luncheon following.

Reclassifies Customs Service.

WASHINGTON, April 25.—The House was in legislative session for but two hours today, during which time, after considerable discussion, it passed the bill reclassifying the increase in the pay of certain officials and employees of the customs service. The remainder of the day was devoted to eulogies on the life, character and services of the late Senators Morgan and Pettus, of Alabama, both of whom died last summer.

El Paso, Texas.—Oliver Garrison shot and killed his wife, shot George Allen through the abdomen, wounding him fatally, and then committed suicide at Lordsburg, N. M. Saturday. Garrison had been informed that his wife and Allen were about to elope.

KEEP OUT OREGON HOPS

ENGLISH MADE DESPERATE BY AMERICAN COMPETITION.

Arthur Fell, M. P., Writes Letter to Times, Urging High Duty on the Commodity.

In a recent issue the London Times prints a letter from Arthur Fell, a member of Parliament, who makes a suggestion for relieving the languishing hop industry of England that will very much interest Oregon hopgrowers and dealers. The English growers have been demanding a 40c import duty on foreign hops, but Parliament adjourned without seriously considering their application. What has most roused the English farmers has been the heavy shipment of hops from America, the Pacific Coast especially. England is the natural market for the American surplus and the English brewers welcome the low priced importations, but the growers of England cannot compete with those of Oregon, and unless they get a protective tariff they will have to go out of business. In his letter to the Times Mr. Fell said in reference to the recent heavy shipments of Oregon hops:

"It appears to be a most flagrant case of dumping on this market the surplus of the American crop and its sale at a price at which our growers cannot compete. It also seems pretty clear these shipments are being hurried forward to anticipate any possible action that may be taken here as a result of the inquiry now being held."

"I consider this a case in which it would be legitimate to use every possible weapon in our power to stop it. I have suggested that, as numerous pests, including the Colorado beetle, the gooseberry mildew, the codlin moth, the American river weed and others have been introduced into this country in foreign hops and such produce, the cargoes of hops might be embargoed and thoroughly examined and treated microscopically to see that nothing deleterious was imported with them. This would have delayed them, probably, some months, and before that time expired the proposed 40c a hundred weight duty might have been put on, or they might have been declared to be deleterious, and this blow to our Kentish farmers has been averted."

"I hope that the Board of Trade, the local government board and the board of agriculture will between them find some power under which they can, by order, prohibit the importation of hops from America as they do the importation of hay or fodder from a country

TRAIN STALLED AT MYRICK

Northern Pacific Engine Breaks Down Near Pendleton.

PENDELTON, Or., April 25.—(Special.)—For the second time this week the incoming Northern Pacific train is stalled within a few miles of this city. The

PORTLAND VIOLINIST WILL STUDY IN EUROPE.

Arnold Smith, a Portland young man who has been a pupil of William Wallace Graham and has, as violinist, participated in many recitals in the past year, left for New York yesterday and will sail on the Celtic May 7 for a year's study in Europe.

engine broke down when near Myrick station about noon today and it became necessary to send to Pasco for another. The train is said to have an unusual number of passengers who, for all the accommodations that are to be had at Myrick, might as well be stranded in the middle of a desert.

Of London's population, 260,000 are members of some sort of club.

SUITTER OUT ON BOND

POLICEMAN HAD BEEN IN JAIL TWO MONTHS.

Officer Who Killed Henry Shafer Has Secured Counsel and Will Fight Case Stubbornly.

Nathan H. Suttter, the policeman who was indicted for second degree murder in shooting and killing Henry Shafer, who was resisting arrest for a trivial offense early last March, secured his release from the County Jail on bail early yesterday afternoon. The amount was \$200, and the sureties were Arthur G. Herald, Homer G. Herald, W. G. Huston and E. G. McCoy.

Suttter has been in jail nearly two months, efforts of his friends to secure his release having failed. The four men named finally consented to stand good for the amount, however, and the bond was made out yesterday noon and acknowledged before Circuit Judge Gantenbein.

Suttter left the County Jail accompanied by a party of friends and his bondsmen. He will continue to enjoy the privileges of liberty pending the outcome of his trial, which will begin May 14. However, he will not be assigned to duty on account of being under indictment on a felony charge.

Suttter's friends and members of the police department have stood behind him in the performance of duty. Shafer was known as a bully and a brute and had been publicly whipped for wife-beating. He was rushing Suttter when the officer killed him. Members of the Longshoremen's Union and a large number of German people were incited by Shafer's killing. A big demonstration was made by these elements on the occasion of the victim's funeral and pressure was brought to bear to bring about the officer's prosecution. District Attorney Manning held that the killing was not justifiable and returned an information of second degree murder.

Suttter has engaged the services of Attorneys Logan and Malarky. To pay these attorneys a fund of \$1000 was raised by the police department, each officer of the department giving liberally. An additional \$500 will have to be raised in event the case is appealed to the Supreme Court for a second trial.

Even if Suttter is released by the jury which tries him, it is hardly likely that he will ever walk his beat again. By shooting Shafer he violated an

Old Question Is Solved By Carman

Philosophic Motorman at Last Discovers Why Women Insist on Facing Wrong Way When Leaving Car.

THE motorman on the Skidoo-avenue car, otherwise known as Twenty-third street, was filming a bright new notch on his controller as he waited at the end of the line for starting time. He had killed another pedestrian that day and it brought his score up to six with the year. Not a record by any means, but it showed what a conscientious motorman, who neglects no opportunity, can do.

"Why is it," asked a waiting passenger, "that women always get off a streetcar backwards?"

"Hanged if I know," replied the motorman, although the word he used was not "hanged." However, this is a family newspaper and violent language is barred.

"Funny thing," continued the motorman as he filed away on the notch on his controller lovingly. "I don't know why they do it, but they will insist on jumping off backwards. I think I cured one the other day, though. She was about to jump off with her heels towards the front end while the car was moving and I urged her to wait until the car stopped. 'Mind your own business,' she snapped."

"Then I grabbed her by the shoulder and held her, but she twisted out of my hand and jumped off backwards and fell flat on the muddy pavement. 'You brute, she hissed when she got up, 'you pushed me off.'"

"Well, after that I stopped trying to keep them from jumping off and they can do it any way they wish."

"It's funny they don't jump off with their faces to the front of the car like a man, then they wouldn't fall," said the motorman.

"I guess they want to have the last word with the conductor," said the motorman.

Y. M. C. A. Minstrel Show.

With an entire absence of the stage fright that so characterized the show Friday, the Y. M. C. A. minstrel troupe was successful last night in making a decided hit with a very well filled house. While on the opening performance the "gags" dragged and the majority of the songs were badly sung, the performance last night was completely reversed. This was due, in some measure, to the liberal use of the pruning knife by Director Larimore, who both as a comedian and
