Steamer Stops at San Francisco and Discharges 4000 Tons of Merchandise Destined for Eastern Cities-News of Waterfront.

Portland has received another direct slap at the hands of the Harriman peo ple and one which will be severely felt by importers and will affect the city in general. The Portland & Asiatic Steamship Nicomedia arrived in Portland harat an early hour yesterday morning with less than 1000 tons of freight. With the exception of 640 rolls of matting for St. Louis and 222 slabs of the for As-toria, all was for Portland importers.

The Nicomedia landed approximately 4000 tons of freight at San Francisco. Nearly all was for trans-shipment to the railroad and was destined to Eastern cities. A large quantity will be cleared in San Francisco and the money will go to the credit of the San Francisco Customs House, at the same time de-creasing the revenue of the local office. On the remaining cargo of the Nico-media, which will be landed in Fortand, the Government will receive about goods is gunnies, on which the duty will run close at \$25,000. voyage of the Nicomedia she brought a valuable cargo, but the duty was not heavy, owing to the quantity of free stuff. It greatly assisted the port records as it did the value of imports.

The other steamships of the Portland & Asiatic Steamship Company, the Alesia, Numantia and Arabia will also discharge the Eastern freight at San Francisco. The Alesia will be due in San Francisco about May 15. Outward cargoes for the vessels are lighter than usual and even with the cut-rate, space usual and even with the cut-rate, space for only about 2000 tons of flour has for only about 2000 tons of flour has been taken for the Westward voyage. Of this the Portland Flouring Mills will ship none, the space having been taken by interior millers. The Portland Milling Company will place 3000 tons on the British steamship Sheila, which is now in port. The vessel will complete cargo on Puget Sound.

LET COURTS PASS ON PROPOSED LAWS

Washington Considers Adoption of Plan Put Into Force in Colorado.

ADVANTAGES ARE EVIDENT

Three Important Measures Enacted at Olympia May Be Found Unconstitutional at Great Loss to State-How Plan Operates.

OLYMPIA, Wash., May 2 .- (Special.) Recent entanglements in attempts to enforce important legislation caused by the raising of constitutional questions affecting the validity of such laws will result in an attempt being made before the next Legislature toward adopting a plan that has been successfully tried in Colo-rado and other states.

This plan is to provide a means by

which the Governor, Senate or Legisla-ture may require the Supreme Court to pass upon the constitutionality of an act of general public importance before its passage.

The advantage that such a provision would have furnished in this state has

been illustrated in several instances in the last two years.

One deals with the putting in force of the rate-making provisions of the Rail-road Commission law. The Federal Court has held that this provision of the commission law is antagonistic to the state constitution and the Railroad Commission has been impelled to atempt no further rate-makings until the

Primary Law May Be Faulty.

State Supreme Court passes

Another instance deals with the direct primary law. Some of the best legal minds in the state believe that some of the provisions of the law are unconsti-tutional. The matter is now before the Supreme Court and if the law should be held unconstitutional the result, as an-nounced in advance by Governor Mead, will be the summoning of a special ses sion of the Legislature to enact a law sion of the Legislature to enact a law free from the defects that may be pointed out by the Supreme Court. The assurance has also been given by the Governor that if the Railroad Commis-sion law is held to be unconstitutional he will summon the Legislature in extra-ordinary session to submit a constituordinary session to submit a constitu-tional amendment at the next general election which will permit the Legis-lature to invest the Railway Commission

with rate-making powers.

A third instance lies in the serious complications respecting state revenues that have grown out of the Gunn exemption law passed by the last Legislature. Two Superior Courts have held this law unconstitutional and the Atthis law unconstitutional and the Attorney-General has advised the tax commission to ignore the law until it has been passed upon by the Supreme Court.

After his experience with these and constitutional after being enforced for a After his experience with these and other matters Attorney-General Atkinson began looking into the provisions of the Colorado constitution respecting the powers of the Supreme Court and has reached the conclusion that the pro-vision is a wise one. He will advocate the adoption of a similar one in this

The very fact that it resists all external applications, and ordinary treatments, is good reason for alarm, for the same germ which produces cancerous ulcers is back of every old sore, and especially is this true if the trouble be from any inherited taint. Surface treatment cannot reach the trouble—the blood is at fault and must be purified before a cure can be hoped for. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is a perfect blood purifier-one that goes directly into the circulation and promptly cleanses it of all impurities, poisons and taints. The ulcer can never heal while the blood discharges into it the noxious matter with which it is infected, but when S. S. I Never Disappoint My Patients

When I Promise a Cure You May Rely Upon It That I Will Cure You

The fear that you could not be cured may have deterred you from taking honest treatment. Or you may have been one of the unfortunates who have been treated in vain by inexperienced physicians, FREE TREATMENTS, FREE TRIAL SAMPLES, PATENT MEDICINES, ELECTRIC BELTS and other similar devices. Such treatments cannot and never will cure you, nor will these maladies cure themselves. When I offer you a cure and am willing to risk my professional reputation in curing you, and have such FAITH AND CONFI-DENCE in my continued success in treating these diseases that I WILL NOT DE-MAND A DOLLAR UNLESS YOU ARE PERMANENTLY CURED and satisfied with a lasting cure, what fairer business proposition, can be offered to the sick and afflicted? This should convince the skeptical, as I mean what I say and do exactly

as I advertise. I am sure of SAFE AND POSITIVE CURES in the shortest possible time without injurious after-effects. My charges will be as low as possible for conscientious, skillful and successful services, and MY guarantee is simple and true. NOT A DOLLAR NEED BE PAID UNTIL CURED.

My Fee for a Thorough Cure Is Only

IN ANY SIMPLE DISORDER. PAY WHEN CURED.

No man could make you a fairer or more straightforward proposition than that. I make this offer because I KNOW that my methods will cure any case that I accept for treatment. Under no circumstances de I ever attempt to treat incurable cases. If I attempt to treat your case, therefore, depend upon it that I will cure you.

If afflicted you can depend upon it that the service I offer you is the service you need, and is service such as can be rendered by no other physician. Maybe you are one of the large number of men who think their case is incurable. Perhaps your own doctor has told you you could not be cured; but remember that is only because he did not understand your disorder and could not cure you. It did not mean that you could not get help from expert or experienced specialists,

I Cure to Stay Cured

By a method that involves no painful processes. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old conditions. It is not a question of whether you can be cured, but whether you will be cured. Don't wait natil it is too late. My method is perfect and quick. The cure is absolutely certain. I especially solicit those cases where many so-called treatments have failed—or where money has been wasted on electric belts and other appliances.

I Cure "Weakness"

"Weakness" in all its phases and in practically every case that comes to me for treatment is merely a symptom resulting from a state of chronic inflammation in the prostate gland. The inflammation may be a lingering result of some contracted disease, or may have been brought on by early dissipation, etc. In by far the greater number of cases the general health of the patient is perfect, there being no lack of either physical or nervous energy. No stimulants or tonics are needed, and if employed would only result in temporary excitement of the functions and positive injury to the tender and already disordered prostate. My treatment is a local one entirely. It removes all inflammation, swelling and tenderness from the prostate gland, establishes normal circulation throughout the parts, and restores permanently and completely all natural functions.

I Cure All the Diseases of Men

Such as lost vigor, specific blood poison, organic weakness, varicocele, stricture, hydrocele, piles and reflex aliments. Those suffering from varicocele, hydrocele, blood poison, or any other disease tending to destroy and disfigure and to render happiness impossible, are urged to call upon me without delay. Those wasting valuable time, dissipating their morey and aggravating their aliment by submitting to indirect, ineffectual, unscientific treatment that never did and never can cure, are invited to visit me and investigate my successful system. I positively guarantee results in all curable cases, and frankly refuse to accept any other cases, if for any reason it is too late to guarantee a cure.

Free Consultation and Diagnosis

Call at the office, if possible, for free advice, examination and diagnosis. If you cannot call, write for Symptom Blank.

I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. No alling man should neglect this opportunity to get expert opinion about his trouble. If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 A. M. to 9 P. M., Sundays from 10 to 1.

Those little pains and aches that come and go; the spells of weakness; that feeling of numbness, of lassitude; those restless nights; despondency, the occasional loss of memory, that dullness of brain, drowsiness and lack of courage and energy are the true signs that point to Physical Breakdown.

It is through these signs that Nature gives you warning of abuse, neglect. Through these signs that she cries out for help. Help for the tired and aching body, the worn-out and shattered nervous system, the wasted tissue, the weakened muscles.

It's a shame that so many men neglect these warning signals and allow themselves to sink deeper and deeper until they become physical and mental wrecks, overwhelmed with

/ despair! WE CURE NO PAY UNLESS CURED MEN FOR

This well-known and reliable curative institution is a permanent fixture of Portland. It has stood the test of time and will continue to stand as a Mecca of hope for afflicted men hereabouts. From time to time it has been remodeled in all its departments, which are thoroughly equipped with every scientific instrument, apparatus and device essential to our modern methodsof specialty practice. Its financial responsibility is as solid as gold, while the treatment it administers, as legions of its cured patients know, is skillful, scientific and successful. We invite all afflicted men who really desire a cure to inspect our offices, and to honestly investigate us. A private consultation, a careful personal examination, together with a scientific and honest opinion of your case, will cost you nothing; and a perfect cure, if you decide to take it, will not be more than you will be willing to pay for the benefits conferred. We cure all special diseases of men.

WHY WE CURE, where others fail: Our methods are up to date. We thoroughly understand our business and apply our knowledge and skill on every case we undertake. We fulfill our promises and our cept a case unless we believe we can cure it. We study the peculiar nature of every individual case and treat the causes, not symptoms. We teach our patients how to help get well-what to eat and drink during the course of treatment and what to avoid. As to terms: Our large practice enables us to cure for less money than the average so-called specialists—and you see the results before you are required to pay us. Honest, conscientious work speaks for itself. Pretenders, jealous of our success, try to belittle us because our fee is small, but intelligent men are not influenced by their arguments. We ask any man suffering from any disease we treat to call and see us. Many cases supposedly incurable are often the result of poor treatment, and the case is cured when methods such as we employ are directed toward the cause, and with care and proper attention to your case now your health may be prolonged indefinitely. This alone should be incentive enough to induce you to try once more, no matter who has failed to cure you in the past.
