MILLS WANT WHEAT

Very Strong Demand From California.

PRICES ADVANCE STEADILY

Shippers Tax the Capacity of Coastwise Steamers—Other Cereals Are Quiet—Steady Buying in Hop Market—Produce Moves.

Extreme firmness prevails in the wheat market. Quotations at the Board of Trade were advanced ½ to 1 cent, bluestem being posted at 91 and club at 89 cents. These were close to export values, but some buyers with California connections made quotations of 92 cents on bluestem and 90 cents on club. Practically all the inquiry now is from the Southern state, where warehouse stocks are limited and the milling demand has become urgent. The regular steamers are taking out all the grain they can, but more freight is being offered than can be handled. As the season advances, the trade looks for a still keener demand in California and with the reduction of supplies here, a higher range of prices seems inevitable. Farmers are slow sellers. A few small scattered lots are changing hands, but the general disposition in the country is to hold for higher prices.

There is very little demand for oats or barley and the market is barely steady. Stocks are not large.

The local flour market is strong in sympathy with wheat and an advance is possible in the near future. The export flour trade continues dull, owing to the financial depression in the Orient.

NO ADVANCE IN MOHAIR MARKET.

Trade Is Stagnant in the East and in Europe.

Mohair has been selling freely in the past week around 18 cents. Some of the buyers, however, are willing to quit as they can see no way of disposing of their stocks in the East at present at prices that will show them a profit. The mohair pool of 1632 pounds at Hillsboro was sold at 18 cents to H. Wehrung & Sons. The members of the pool were: J. C. Beach, R. B. Collins, John Boge, James Borwick, A. Gordon, George Robinson, Ladd & Reed Farm Company, A. B. Cox, Peter Gottlieb, D. and E. Young, Thomas Connell, Stephen Hensley, C. Rehse, Zina Wood, William Schulmerich, A. Lincoln, William Meirjurgen, Elmer Scott, W. W. Paine, William McQuillan, Julius Christensen, Grant Brown, Ed Northrop, F. J. Williams, A. C. Wirtz, C. D. Farnham, P. O. Bachelor, Charles Crocker, Joseph Connell and Dr. A. B. Bailey. The amount realized at the sale was $833.76.

Of the general mohair situation the latest issue of the Boston Commercial Bulletin says:

The local market is still without any activity worth mentioning, owing to the continued small business being done by the manufacturers. The latest advices from the foreign markets state that the situation in all centers is one of extreme dullness, while prices are only nominal, owing to the absence of trading. Operators are awaiting news of a business revival in this country to infuse courage into the foreign buyers. As the price of the raw material is comparatively cheap and money is easier, an improvement in the United States would have a beneficial effect upon the foreign situation, according to the opinion of many foreign operators.

STEADY DEMAND FOR OREGON HOPS

No Further Business Over Six Cents Is Reported.

Aside from the purchases by A. J. Ray & Son and the E. C. Horst Company, no transactions over 6 cents have been reported in the hop market. There was a fair demand yesterday, but some dealers believed the inquiry was less urgent than earlier in the week. No further purchases by Carmichael or Horst came to light.

H. L. Hart was the heaviest Portland operator during the week, buying an aggregate of 800 bales of news and olds, paying from 3½ to 5½ cents for the 1907s. E. C. Herren bought the Wormdahl, Peterson and Anderson lots, at Monitor, a total of about 100 bales, at a price reported to be 5 cents. The Seavey Hop Company secured the Campbell lot of 114 bales at Eugene at 3¾ cents. Campbell's olds, 215 bales, were bought by Dorcas Bros. at 1½ cents.

There is a fair inquiry for contracts and business in this line was done during the week at 8 cents for one year and averages of 9 cents for three-year and 10 cents for five-year terms.

BUYING EGGS FOR NOME SHIPMENT.

Seattle Operations Responsible for Lighter Local Receipts.

Seattle buyers are stocking up with Oregon eggs for shipment to Nome on the fleet of steamers which sail the latter half of this month. They are not buying them here, however, but are getting them direct from Valley points, as is shown by the large shipments passing through this city. This doubtless explains the scarcity of eggs in the local market. One or two dealers received fair lots yesterday, but others had very few eggs to offer. With a good inquiry from retailers and some demand from storage operators, the market was very firm. Nineteen cents was the general price quoted on the street for candled stock, though one dealer declared he was moving his goods at a cent less.

Poultry prices were largely nominal, as receipts were exceedingly light.

There was not so much pressure to buy butter yesterday on the part of Northern firms, but the local demand was good and the movement steady at previous prices.

BERRIES ARE OF BETTER QUALITY.

Saturday's Receipts Sell Well at Steady Prices.

The total receipts of California strawberries yesterday amounted to about 1½ cars. Nearly all of them came from the Florin section and on the whole the offerings were much better than those of Friday. Prices ranged from $1.25 to $1.50 per crate for the most part, with a limited quantity of fancy fruit going at $1.75. Oregon berries were in fair supply, but were slow at 15c per pound.

The fruit market in other respects was quiet. A car of oranges arrived and they were held firmly.

A mixed car of California vegetables was due but failed to materialize. The street was bare of onions, but will be fairly well supplied Monday, a car of Bermudas arriving last night. Another car will be in in two or three days.

BANANA FIGHT ON IN THE EAST.

Trust Pursues Its Usual Tactics in Wiping Out Competition.

The banana trust has another fight on its hands. Competition has become too warm for it at New York, and following its usual line of putting its rivals out of business it has started the cutting of prices in a vigorous fashion. Fifteen cargoes of bananas reached New York last week, of which only six were received by the trust. Commenting on the situation the New York Commercial says:

"It is a matter of common report that the United Fruit Company has watched the growing competition of its principal rivals in the field, and that it has decided that now is the time to strike. It is stated that the blow to be struck is aimed at the Cuneo Importing Company, and that in the next few weeks buyers will be treated to a display of price-cutting the like of which has not been seen since the Atlantic Fruit Company was whipped into line several years ago. It is reported that several carloads of bananas sold at auction last week were consigned to interior points for account of the importers. This has demoralized the interior jobbing trade, it is said, and is one of the things that has precipitated the fight. The imports for April were 861,625 bunches compared with 677,879 bunches in the same month last year. The March imports were 549,850 bunches against 515,600 bunches in March last year."

LIST IS BUOYANT

Stock Prices Advance on a Broadening Demand.

BONDS ARE ALSO FIRM

Trading on a Heavy Scale in Union Pacific and Reading—Metal Industrials Do Not Share in the General Advance.

NEW YORK, May 9.—The week closed with an animated and buoyant stock market, in which interest was manifestly broadening and new points being developed in the upward movement. Advantage was taken to effect distribution of speculative holdings of some of the stocks which have led during the week in strength. In Reading and Union Pacific, the volume of the trading was on an undiminished scale, but the price variation was held within narrower bounds, the demand being fed judiciously. Even in stocks in which realizing was most pronounced, the day's business was effected at prices higher than yesterday, and, in fact, at the highest of the year.

No definite news accompanied the further advance, but rumor continued busy. Much of it dealt with the anthracite group and supposed change of control of Reading, in spite of denials of the reports of the sale of Lake Shore holdings of that stock.

The coming Union Pacific bond issue is a subject of active discussion, but with no authenticity as to details of the amount or terms of the issue. A sudden spurt in Chesapeake & Ohio was unexplained, but was ascribed by some observers to the terms of the agreement between the railroad and the Government for non-enforcement of the commodities clause of the Hepburn law, ending in litigation to test its validity.

The metal industrials were not conspicuous in the advance. The price of copper was lower in London and rose again on circulation of rumors that the agreement on the main prices of pig iron had collapsed. Assertions were current of the forcing to cover of some very large shorts.

The bank statement of averages showed much less than the expected gain in cash holdings, but it appeared in the statement of actual cash conditions on Friday night. The $23,623,300 loan expansion of the institutions indicates clearly also that the burden of the week's financing had been borne by them. The decrease for the week of $2,700,000 in United States deposits shows the early response to the call for repayment of $20,000,000 of these deposits, which fell due today. The item of deposit and of specie holdings in today's clearinghouse statement stand at record figures.

Bonds were firm, but reflected some profit-taking in low-grade issues, which were advanced. Total sales, par value, $3,706,000. United States 2s declined ¼, while the 3s coupon advanced ¼ and the registered ¼ per cent on call during the week.

DEPOSITS TWO BILLIONS

NEW YORK BANKS NEVER BEFORE HELD SO MUCH.

Cash Reserves Exceed the Legal Requirements by Over $67,000,000.

NEW YORK, May 9.—The Financier will say:

The statement of the associated banks of the City of New York for the week ending May 9 showed merely a continuance of the same factors which have been influencing the banking situation for a number of weeks past. The report of the average conditions and the actual conditions of the week ending Saturday did not vary in any important sense and taking the actual conditions as showing the real situation, the exhibits reveal an increase in surplus reserve of $6,391,850, bringing the total excess reserve above the legal requirements of $67,112,725.

The net gain in cash for the week was $9,262,400, which was a little less than had been expected. There was a moderate expansion of $3,765,000 in loans and as a result of the loan and cash gain, deposits rose $11,852,200. This influenced the required reserve by nearly $3,000,000 but the flow of cash from the interior was, as stated, much in excess of this requirement.

Public deposits in the banks decreased for the week, but it is to be said, however, that the statement made on Saturday did not include the various payments to be made by banks into the Treasury on account of withdrawal of public funds from the former institutions, and this reduction of from $13,000,000 to $15,000,000 in cash will be shown in the succeeding week's balance in banks.

The majority of state banks and trust companies in Greater New York not reporting to the New York Clearing House for the week show some very heavy changes, loans having increased $23,623,300, and net deposits $28,327,500. The aggregate net deposits of all the banks and trust companies in New York City now amount approximately to $2,000,000,000, being the heaviest on record.

The steady inflow of money into the New York banks today increased the deposits of those which are members of the New York Clearing-House to the record figure of $1,270,324,900. This was an increase of $12,560,700 over the deposits reported by the banks last Saturday. The amount of specie held in these banks also reached a new high record of $313,394,500, and the surplus was more than 5 per cent in excess of the 25 per cent reserve rule. The aggregate deposits of all banks and trust companies was $2,157,183,500.

The statement shows that the banks hold $63,883,475 more than the requirements of the 25 per cent reserve rule. This is an increase of $1,530,575 in the proportionate cash reserve, as compared with previous account. The statement follows:

		Increase.
Loans	$1,196,342,200	$ 5,887,000
Deposits	1,270,324,900	12,565,700

*Decrease.

The percentage of actual reserve of the Clearing-House banks at the close of business yesterday was 30.03.

The statement of banks and trust companies of Greater New York, not members of the Clearing-House shows:

Aggregate deposits	$888,858,000
Total cash on hand	60,086,800
Loans	852,750,900

Buyers Gathering for Wool Sale.

PENDLETON, Or., May 9.—Wool buyers are already gathering in this city for the wool sale which will occur on May 25. Much wool is now coming in and the warehouses are rapidly filling up.

As usual just before salesday the buyers are all talking lower prices this year. There is probably some foundation for it this time as the woolgrowers admit that they will probably have to let go of their holdings at a lower price than last year.

TONE IS BEARISH

Chicago Wheat Market Is Weak All Day.

CLOSES NEAR THE LOWEST

Chief Depressing Influence Is the Failure of the European Markets to Respond to the 3-Cent Advance on Friday.

CHICAGO, May 9.—Sentiment in the wheat pit was bearish all day and prices at the close were almost at the lowest point. The failure of European markets to respond to any great extent to the 3c advance here yesterday was one of the chief depressing influences. Throughout the entire session there was free selling by longs. Several times the market rallied moderately on covering by shorts, but an advance brought out increased offerings which soon caused a fresh decline. A number of reports were received telling of damage by Hessian fly in Kansas, but they were given scanty consideration, inasmuch as the injury is generally believed to be confined largely to small scattered areas. The market closed weak. July opened ⅛@¼c to ⅜@⅞c lower at 92¾@93⅝c, sold at 93½c and then declined to 92¼c. The close was at 92¼@92½c.

The corn market was weak. July opened ⅛@¼c to ⅜@½c lower at 64⅞@65c, sold off to 64¼c, where it closed. May ranged between 72½c and 74¼c.

Trade in oats was dull. July opened ⅛@¼c lower at 47¾@47⅞c, sold off to 47⅜c and closed at 47⅜@47½c.

Provisions were a trifle weaker early in the day, but rallied a little during the last hour. At the close, July pork was unchanged, lard was 2½c higher and ribs were a shade higher.
