

# LONG SENTENCES FOR DOERS

### Judge Cleland Passes Judgment on Four Offenders in Circuit Court.

### HOUGHTON ON THE LIST

#### Ex-Convict Sent to Penitentiary for Seven Years for Theft—John Donahue Draws Five-Year Term.

Distribution in severe doses overtook four of the multitude of criminals that infest the city, when the offenders in question were before the State Circuit Court for sentence yesterday morning. Here is what happened to the wrongdoers:

Charles Houghton, larceny from a shop, seven years.

John Donahue, attempting to kill, five years.

W. W. Gillett, passing worthless checks, three years.

David LaMorra, home-destructor, one year.

Houghton was the first one to be called up for sentence, and the penalty which Judge Cleland inflicted upon him took the fellow's breath away, so that it appeared for a moment before the State Circuit Court that Houghton was about to collapse. Houghton's offense was not particularly a bad one, but his record was black. It could not be learned that he ever did anything but the worst that hangs about saloons, while he has been in the state prison already. In fact, when he was not in jail the authorities were constantly uneasy, for "chick" Houghton was regarded as being capable of most any crime, and the police will breathe easier now that he is out of the way for a few more years.

### Court Heeds Plea.

Others interested themselves in the young man's behalf, and as a result Judge Cleland was inclined to be lenient. He said he would impose a sentence of one year and allow Houghton to remain in the city. Houghton thanked the court and promised to behave himself well. He would never have gone with Houghton except that he had been drinking, and the honor left him in an irresponsible state, he said.

### Insanily Plea Failed.

Donahue feigned insanity, but failed to make the plea good, and therefore he will follow the sook-making industry during the next five years of his life. Gillett came in from California some time ago with the army of northbound tramps, and getting hard-pressed for ready money, decided to put his business-education to practical use. Securing the signature used by a Vancouver firm on its checks, Gillett made out a very clever imitation and passed it in Portland on L. Helming. He pleaded that it was his first offense, but the court was not in a lenient mood at this instant, and the fellow will have three years in which to think it over. The check was for \$25.00.

### MARTIN FAILS TO PLEAD

### Disappoints Large Audience Gathered in Courtroom.

Edward H. Martin did not appear to enter his plea yesterday in the Circuit Court to the charge of having murdered Nathan Wolff. The plea was to have been entered at 2 o'clock yesterday afternoon before Judge Gantwein, but City Attorney Kavanagh, who is acting temporarily for the accused man, was unable to be present and the case was put over until Monday, much to the disappointment of a roomful of curious people.

### COURT ACCEPTS RESIGNATION

### J. T. Armstrong Succeeded by Miss Noon as Noon Estate Trustee.

J. T. Armstrong's resignation as trustee of the W. C. Noon estate was accepted by the Circuit Court yesterday forenoon, and Viola E. Noon, daughter of the deceased, was appointed to act in his stead. An order to this effect was issued by Judge O'Day in response to petitions for the acceptance of Mr. Armstrong's resignation and Miss Noon's appointment. In the Noon will shares controlling the Noon Bag Company were left to H. M. Blake and J. J. Armstrong as trustees, to

be held for a period of 10 years, the receipts to be delivered over to the various heirs. W. C. Noon, Jr. was also named as a trustee. Differences arose in regard to the handling of the company's affairs, and C. N. Noon withdrew. Mrs. Noon was then appointed a trustee, and later came Armstrong's resignation, accompanied by an accounting of all money and property handled by him. This accounting was found satisfactory and was accepted.

### DEFENDS HIS POSITION

### Mr. Fletcher Favors \$30,000 for the Oregon University.

ST. JOHN, Or., May 16.—(To the Editor.)—I observe that C. N. McArthur replied in the Oregonian of May 8 to my letter of May 2, in which I gave reasons why the \$125,000 appropriation for the University of Oregon should not pass. Mr. McArthur makes an error when he says: "Mr. Fletcher charges the alumni of the university with subsidizing the newspapers." Now, what I did say was, "the general belief is that they buy them." Whether the reason for such a conclusion is sufficient strong as to justify that belief, I do not know. But I do say that there are many circumstances which would indicate that the public might not be entirely wrong.

### PORTLAND MAN OWNS RELIC OF THE MAYFLOWER.

Kettle That Came Over With the Pilgrims.

D. Hagen, of 156 Chapman street, is the owner of a kettle which was brought to America by one of the Pilgrims in the Mayflower. Mr. Hagen bought the kettle about a year ago in Minnesota. It was at that time the property of Mr. Hagen's neighbor, John Hone. It had been in the possession of Mr. Hone's family for generations, the original owner being one Cushman, a member of the Pilgrims who landed on Plymouth Rock in 1620.

### SEEK GOVERNMENT APPROVAL

### Port of Portland Resolutions to Be Sent to the War Department.

Colonel S. W. Roessler, United States Engineer officer in charge of the local office, has forwarded a copy of the resolutions passed by the Port of Portland Commission at the last meeting of the board relative to the speed of steam vessels in the Willamette River between Ross Island and the St. John bridge, to the War Department. A request that the resolutions be approved.

### thought the appropriation was "too large."

The Governor thought it "excessive" and the taxpayer considered he had a right to have a large "continuing" burden submitted to him for rejection or ratification before it was ever brought too late. And what was wrong about it? Where was the absence of "good faith"? Why did the university seek to deprive the people of this right? Because it was "afraid its defeat would give the state a black eye." How consistent! The very thing that would have placed Oregon on an eminence of its own—the only thing that would have shown the world that the people of Oregon were men and not slaves.

# HORNEL TAKES CARGO TO LA BOCA

### Norwegian Steamship Carries Lumber for Panama—Will Finish at Tacoma.

### STRATHGYLE ABOUT READY

### Grain Charters Slow at the Present Time—Nonunion Ships Offer for Old Crop at 22 Shillings and 6 Pence—Marine News.

The Norwegian steamship Hornel, Captain Nilson, cleared yesterday for La Boca with a part cargo of lumber. She will proceed from Portland to Comon and thence to Tacoma, where she will complete her cargo. The Hornel had on board 1,540,000 feet of timber, valued at \$18,480. LaBoca is the government landing place at Ancon in the canal zone. Captain Francke, who was master of the steamship Dakota at the time she was wrecked in Japanese waters, has signed as supercargo of the Hornel.

### Unions Forbidden to Boycott.

### HELENA, Mont., May 16.—Federal Judge Hunt today granted an injunction restraining the Butte and Anaconda Typographical unions from interfering with the business of the Butterick Publishing Company, of New York. It was alleged in the complaint that a virtual boycott had been placed on the products of this concern by many unions and the Montana Federation of Labor, but all were absolved by the court save the two mentioned.

### UNIONS FORBIDDEN TO BOYCOTT.

### IN WOMAN'S BREAST ANY LUMP IS CANCER

### ANY TUMOR, LUMP OR SORE ON THE HIP, FACE OR ANYWHERE, SIX MONTHS, IS CANCER. THEY NEVER PAIN UNTIL ALMOST PAST CURE.

### THREE PHYSICIANS OFFER \$1000 IF THEY FAIL TO CURE ANY CANCER

# COAL GOSSIP

Don't put your next Winter's coal in your cellar at the present time. Coal that is carried through the hot Summer months is bound to deteriorate more or less, then when you come to use it you are liable to condemn the quality. Freshly mined coal contains all the life and burning qualities and gives better satisfaction than coal that has been in the open air for months. Our mine is located close to the Columbia River, and coal mined today can be delivered in your home the day after tomorrow; so why buy a year's supply ahead? We have our own barges and our own steam-boats, so are absolutely independent in the matter of transportation. What we will do, however, is this: We will send you a sample sack of coal weighing 100 pounds, from our Coal Creek Mine, charging you 50 cents. You try the coal, satisfy yourself as to its quality, and if you don't like it we will give you your money back. If it suits you, then we will book your order at \$6.00 per ton and agree to deliver to you freshly-mined, clean lump coal, in any quantity you want and at any time during the next 12 months. In this way you are protected against a raise in price, and have absolutely assured yourself that you will have all the coal you want, and when you want it. Try the coal and make your contracts now for your future needs. We guarantee the quality.

## Shares in This Company at Fifty Cents Each

We are offering a limited amount of stock in the Coal Creek Coal & Mining Company at 50 cents per share, payable 25 per cent down and 15 per cent monthly until paid for. The money derived from the sale of the stock is to be used in opening up another vein of coal, which will more than double our present capacity, and to develop our wonderful water power and install a complete electric plant with which to operate the mine, run our trains and light our mine and village. We then are in position to produce coal at a minimum of cost, and with our water transportation can deliver coal to any city or town touched by the Columbia or Willamette Rivers cheaper than any mine on earth. Remember that no coal mine yet discovered in this section can lay claim to the four distinct advantages which we claim for this one:

- FIRST: An excellent quality of coal and millions of tons of it.
- SECOND: Coal Creek, crossing our domain of 2700 acres, with a fall of five hundred feet in two miles, is capable of furnishing thousands of horsepower for equipping the plant with electricity.
- THIRD: Our own line of steamers and barges and the broad highway of the Columbia to haul it on.
- FOURTH: The names of F. B. Jones, W. E. Jones and R. B. Rose furnish a sufficient guarantee that the affairs of the company will be honestly and intelligently administered.

AND FURTHER: To demonstrate to you our unbounded faith in this proposition, we will make the following proposition to all holders of our stock outside of our immediate official family: We will agree not to accept any interest or dividend on the investment that we have already made, which amounts to \$50,000, until such time as the holders of this new issue of stock receive at least 10 per cent annually on their investment. It is against the law for any corporation organized on a stock basis to guarantee a specified amount of dividends, but our property earned 12 per cent last year on the money invested in it, and we know that it will earn at least that much this year, and we are willing to apply these earnings upon the new capital which we are interesting until such time as the new investment will start earning dividends on its own account. This is a very liberal proposition and virtually guarantees investors at least 10 per cent on their money the first year, with a reasonable assurance that in future years their money will earn from 15 per cent to 25 per cent annually.

Call at either of our offices and see the coal and let us put you in the way of making a safe investment that will assure you permanent and regular dividends. The mine earned 12 per cent last year, and with our increased capacity and facilities for cheap mining should easily earn 20 to 25 per cent annually in the future. We have turned down two flattering bonafide offers for this property which meant a much higher valuation on stock we hold than we are offering it to the public for, but with the sale would pass the control, and as we consider the property well worth a million dollars, we can afford to wait and dig it out ourselves and share it with the friends that join us. We would be glad to send any one interested to the mine so that they can see for themselves just what we have. This is a proposition that should appeal to large and small investors alike. It is so much different from the average mining investment offered to the public. It is a local enterprise, backed by local people, who have spent a lifetime in the community and stand high in the business world. You can go to the mine, and see for yourself and be convinced that every statement we make in connection with this property is really underestimated than otherwise.

## Boost—Don't Knock

There have been and will continue to be coal mining stocks offered to the public. Investigate them thoroughly, then come and let us show you what we have to offer. The comparison will demonstrate to you the true merit of our proposition. Other dealers will tell you our coal is no good. Don't believe them. Try it and see for yourself. We will save you many a dollar in your year's fuel bill.

- FULL TON, 2000 POUNDS . . . . . \$6.00
- FULL HALF TON, 1000 POUNDS . . . . . \$3.00
- FULL QUARTER TON, 500 POUNDS . . . . . \$1.75
- FULL SACK, 100 POUNDS . . . . . 50¢

DELIVERED WITHIN REASONABLE DISTANCE FREE.

# FOR MEN

When we declare that our record in treating diseases of men is a series of splendid successes, we are not boasting nor making any false pretenses. We are merely stating facts which are known to be true by many men whom we have recently cured and made happy. What we have done for others we can do for you. Come to our office and let us explain to you our strictly modern method of treatment. You will then understand why our cures are safe, rapid and permanent, and why we are successful in so many cases that have resisted the treatment of other physicians.

## Baby Mine

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to BRADFIELD REGULATOR CO., Atlanta, Ga.

## VARICOCELE CURED IN ONE WEEK

Many men have been treated for varicocele by the common methods used and have hoped that nature would assist in re-establishing natural conditions, but one, to my knowledge, has had his hope realized. Failure is sure to follow such methods as local applications, and the use of various medicines and innumerable methods advanced by unappreciated pretenders. Let me bring you FACE TO FACE with some of my cured patients.
